Civilian Residing Near Andrews AFB

1. On 10 September 1952 an unidentified flying object was observed near Andrews AFB. The object was described as shiny, metallic, elliptical with no exhaust visible and emitting no sound. Its size was roughly that of a half dollar. It was at a considerable height, its angle of elevation being approximately 70° in relation to the observer. The sighting lasted two to three minutes during which the object moved rapidly back and forth over a short arc. Finally the object rose rapidly and disappeared.

2. The sighting occurred at 1430 hours eastern daylight time outside the residence of the observer at 1 Dangerfield Drive, Clinton, Maryland. This location is just east of Andrews AFB. The sighting was in a northwesterly direction. The observer, Mrs. [REDACTED], is the wife of a civilian employee of Andrews AFB. The husband, who was an air intelligence officer during World War II and reported the sighting, stated that his wife has only limited knowledge of aircraft types, and practically no knowledge of principles of flight, capabilities of various aircraft, etc.

3. Prior to 1600 hours local time on 10 September 1952 a check was completed with radar and tower operators at Washington National Airport and Andrews AFB. All reported negatively as to this sighting. The weather at the time of the sighting was visibility eightmiles, clear, winds calm.

4. There were no upper air observations being conducted locally at the time of the sighting. Two rawinsonde releases were made during the day at Andrews AFB, the first was at 0500 eastern daylight time and terminated at 0540. The second was at 1700 and terminated at 1740. A pibal observation was made by US Weather Bureau, Silver Hill Maryland, at 1655 eastern daylight time and terminated at 1741.
