

UFOB INDEX CARD

AISS-UFOB-225-55

1. DATE 25 June 1955		2. LOCATION Tussy, Oklahoma		12. CONCLUSIONS <input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon <input type="checkbox"/> Was Aircraft <input type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft <input type="checkbox"/> Was Astronomical <input type="checkbox"/> Probably Astronomical <input checked="" type="checkbox"/> Possibly Astronomical <input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown	
3. DATE-TIME GROUP Local _____ GMT 25/1130Z June 1955		4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar			
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		6. SOURCE Civilian			
7. LENGTH OF OBSERVATION Five (5) Seconds		8. NUMBER OF OBJECTS One (1)	9. COURSE ESE		
10. BRIEF SUMMARY OF SIGHTING One (1) round, green object, the size of the moon with a fuzzy outline appeared thru the windshield of the observers' car for a period of five (5) seconds and then faded. The object seemed to have a orange colored tail that was approximately three (3) times the size of the object in length. The tail appeared to be "cut off" in a straight line and did not come to a point. The course of the object was a level flight path to the ESE				11. COMMENTS Due to the delay in transmission of the report no investigation was authorized. A check of maps and radio facility charts failed to reveal any beacons or flight paths in the area of sighting. The fading of the object and the close proximity of the two colors would tend to eliminate the reflection possibility. In the opinion of this hqs the sighting was generated by astronomical activity, i.e., meteorite. This report was received by AF Form 112.
