5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	6. SOURCE 6-5 Military & 1 Civilian	<input checked="" type="checkbox"/> Was Astronomical Venus <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical
7. LENGTH OF OBSERVATION 1 1/2 hours	8. NUMBER OF OBJECTS 1 to 3	9. COURSE SSW <input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown
10. BRIEF SUMMARY OF SIGHTING Object was observed by all. Was described as ranging fm round to oval and fm bluish-white to red in color. However, the almost precise elevations, directions, and azimuths given of the objects position identified it.		11. COMMENTS Definitely the planet Venus, now so bright that both newspapers and journals have commented on it (See clipping in UFO case file).
