Tape recording submitted by Mr. [REDACTED] of UFO sighting by
Mr. [REDACTED] (17 years), [REDACTED], Cheshire, Ohio
[REDACTED] 15 March 1959

Witness was walking across Tiger Hill when there was a burst of rain. It rained hard, but by the time he got to the top of the hill the rain stopped. Witness saw a strange light about 50' over [REDACTED] house which frightened him. Witness walked on down the road and saw an object about 50' over the road. The object took off like a shot out of a gun and then stopped. Witness was so scared he ran to a friend's house; the friend came out, but the object was gone. The friend discounted the object as a reflection. Mr. [REDACTED] began walking on home; as he walked around a curve he saw lights of a house, but to his right, about five to ten feet off the ground, he saw a luminous, oblong object with a cockpit-like arrangement on the top which seemed to be rotating. The color of the object was white like the moon. The object shot several beams of light toward the ground. This light struck witness' shoulder. There was no sound. The object took off, then slowed down, then went out of sight over a house.

This story was relayed to Mr. [REDACTED] by a Mr. [REDACTED] who also sighted an object on 16 March 1959, 2030-2100. - While driving home from a service call Mr. [REDACTED] noticed his car radio had static. He instinctively looked up for power lines and noticed an object about 300' up and about 75-100' in front of his car. He saw only the bottom of the object. He also noticed that his lights dimmed. He had the object in sight until he reached his home, where he called his family out to see it. By that time it was leaving at such a fast rate of speed no one could tell much about it.

1. Returned herewith is tape recording of Mr. [REDACTED]. We regret that the information contained on the tape was insufficient for us to come to any specific conclusion as to the cause of the sighting. The Air Force did not attempt to contact Mr. [REDACTED] due to the possibility of compromising you and the others as pointed out in your message on the tape. Any additional information which you have that would assist the Air Force in arriving at a solution to this sighting would be appreciated.

2. Due to the retirement of Colonel Gilbert, the tape was late in reaching ATIC. The tape was retained here for a reasonable period for possible correlation with other sightings during the same period and from the same location. This effort met with negative results.

Sincerely,

Philip C. Evans
