10. BRIEF SUMMARY OF SIGHTING Ltr to Secy of Defense asking for action , against flying saucers that are shooting down out planes and killing our sons. Two jets were attacked by saucers S of her farm. Sees them all time, usually from 7:45 pm to 8:50 pm. Tonight they were early so encounter with jets. After supposed attack on jets by saucers, jets threw in afterburner and escaped. Observation of preceding evening with surveyors transit. Also reported seeing atomic blast (mushroom cloud)				11. COMMENTS Witness probably saw something and ids- torted her impressions into above tale. Duration of over one hour for the sight- ings earlier in month are probably re- fraction of astronomical bodies. Any- thing this lady sees in air and cannot identify is a saucer. Sightings include; Mar 1 of Venus, Mar 2 Insufficient Data Mar 10 Venus. No reports of mushroom clouds; no reports from a/c were received.	

March 29. 61

Dear Sir: I don't you think it is about time our

Government pulled their head out of the sand and called a spade a spade. I don't think we will have any other of these "so called" investigations.

And get please some one our farm and some- what back of our place we suddenly saw one of

those flying saucers drive at the gate.

Who for the gate had left a nice Vespene trail but they decided not to chase it to avoid being hit and believe me they left a lot of

smoke smoke after that.

We have been watching these flying saucers for every night for 2 weeks and

it always came up with a bright light at 7:45 and left at 8:50 but last night

it met the gate at around 6:45 to 7:10 we took a camera and went

and watched it. It had hit the gate and fairly went "fire" that "it" was going to

inform you" line. I think it is so plain cannot recognize not to inform the

people what really happens or someone can be in the boat out for these

saucers. In the evening before (one) that thing was. Here and there like an arrow

pointing back. South west. Some times they seem to put on lights and what

them off as the signaling.

This thing is big enough and even enough to be seen by the naked eye but

with the last we can get a good light the thing. Also we have an accident

at least 7 feet of here a week ago Thursday 7:30. We saw a much more

suddenly in the sky on a bright clear day

BRIEF SUMMARY OF SIGHTING:

Letter to Secy of Defense asking for action against the flying saucers that are shooting down our planes and killing our "sons". Described incident where two jets were attacked by these saucers south of her farm. She sees them all the time, usually from 7:45 PM until 8:50PM, however tonight they were early so the encounter with the jets. After the supposed attack on the jets by the saucer, the jets threw in afterburner and escaped. Observation on preceeding evening was with surveyors transit. Occasionally they have lights that go on and off. She also reports what appeared to her to be an atomic blast in early march to the North of her location. (mushroom cloud).

EVALUATION: CASE CATEGORY:

CONCLUSION:

Witness probably saw something and distorted her impressions into the above tale. The duration of over one hour for the sightings earlier in the month are probably refraction of astronomical bodies. Anything that this lady sees in the air which she cannot readily identify is a saucer. March sightings from the Dakota's include one on March 1st of Venus, One on March 24 of insufficient Data, & another on March 10 of Venus. ~~again~~ XXX. No reports of mushroom clouds, and no reports from A/C were received. Assuming that any A/C would report action such as the lady described, this case is classed as an unreliable report.

which looked exactly as the pictures
of the bomb.

Sincerely

Mrs. ~~XXXXXXXXXX~~

Mellette, S. Oak

P. S. I'm not nuts - My husband
and son both happened to be
in the yard & all saw the same
thing. I just feel sorry for the
families who lose sons as we
also have a son and realize what
it means and also realize that
just by bushing things up you
will avoid accidents.
