21. How large did the object appear to you as compared to an object with which you are familiar?

Lower than a star and closer

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Could not determine this

23. Did the object disappear while you were watching it? If so, how?

Could not say.

Moved behind a

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A large star

25. Where were you located when you saw the object? (Circle One): a. Inside a building b. In a car c. Outdoors d. In an airplane (type) e. At sea f. Other <u>On dock at warehouse</u>	26. No change in color, just dimmed and faded away.				11. COMMENTS Witness located in suburb on Western edge of Dayton, therefore when looking to West there was no glare of city lights. The weather was cold, and the atmosphere such that any light in the sky would appear odd to the ground observer if the source was at or near the horizon and at extreme distance. It is possible that the witness was really looking at the moon, which was a thin crescent in the position noted by the observer. The slight movement attributed to the warm and cold layers of air.

SUBJECT: UFO Sighting

TO: SAFOI-3C (Major Coleman)

1. Attached is a copy of a letter from Mr. and Mrs. [REDACTED] in which they report a UFO sighting made by Mrs. [REDACTED]. For your information, also attached is a copy of the NICAP questionnaire on which Mrs. [REDACTED] made her report. This questionnaire leaves much to be desired as there are some important questions left unanswered. For this reason a valid conclusion cannot be made concerning the sighting. Suggest your office contact Mrs. [REDACTED] and ask her to forward the answers to the following questions to Foreign Technology Division, ATTN: TD-E.

a. In what direction were you moving at the time the object was sighted?

b. Was the object first sighted straight ahead, or was it a little off to the right or left?

c. What was the elevation of the object when first sighted? That is, was it halfway between the horizon and overhead, 1/3 of the way up from the horizon to overhead, etc.

d. Were the car windows down at the time?

2. Attached is a copy of a letter from Mr. [REDACTED] reporting the sighting of a UFO. A valid conclusion cannot be made from the limited information reported. Therefore, suggest your office send him an AFIC Form 164 for completion.

Palatka Fla

Dear Sirs,
While a short time ago sitting in my yard I saw two blue-white pulsating lights moving across the sky from east to west. At about 40 degrees off the western horizon they joined into one light and speeded up tremendously and turned Crimson red then made a sharp 180 degree turn. and headed again into the east. It then made another sharp 90 degree turn and headed North still glowing Crimson red and moving at a tremendous speed.

There was lighting in the south west and each time it flashed a silvery disc could be seen instead of the red glow.

This took place in about 3 minutes first sighted around 9.P.m thursday June 29 - 1961.

I am sure this was not a jet althrogh one had just passed from North to south in the sky. From the Unidentified object I saw I heard no sound but I did here the recently passed jet.

I am writing this letter in accordance with the Air technical intelligence Command's issuing of a statement for reports of such matters.

Thank you.
