EC# I

11:15 PM S 85° NE

[REDACTED]
[REDACTED]
Celina, Ohio.

To whom it may concern:

I am writing this letter because I feel that it is possible that someone else seen the same thing I seen, and it may help to confirm other reports.

I live on Rt. 197, 2 miles N-E of Celina, Ohio. On Wed. evening July 29, about 11:15 PM I was sitting on my front porch relaxing. Now I have a habit of looking at the stars quite often, but this particular night one of them stood out from the rest. It was very bright and seemed to move ever so little. It appeared about halfway up from the horizon in the South West.

At this time my attention was averted to an airplane that was traveling towards Lima, Ohio or N-E. After the plane was

(Next page)

out of sight, this object started moving toward the North and a little N-E. It moved out a steady pace making no sound at all. When it traveled past the Milky Way, it got very dim as though it went through it, or over it. Then it came to a complete stop for about 10 seconds and then disappeared very rapidly.

I have no idea if this letter will be of any importance to you or not but by writing it I may be able to satisfy my own curiosity.

Sincerely,

[REDACTED]

REPLY TO
ATTN OF: TDEW

SUBJECT: Request for UFO Information (██████████)

6 August 1964

TO: Hq USAF SAFOI-PB (Mrs. ██████████)
Wash 25, D. C.

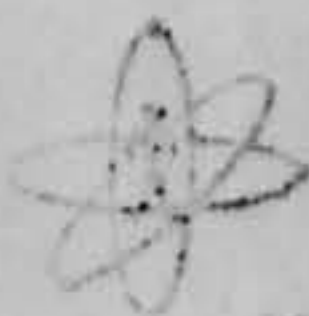

Reference the attached letter from Mr. ██████████, RR ██████████, Celina, Ohio. The observation by Mr. ██████████ on the evening of July 29th has been evaluated as Echo I. Echo passed over Celina at 11:15 PM Eastern Standard Time, to the south of the city at 88 degrees elevation heading northeast. The description of Mr. ██████████ observation is consistent with that of a reported satellite observation.

August 10, 1964

Dear Mr. [REDACTED]

This is in response to your recent letter in which you reported observing an Unidentified Flying Object on the evening of July 29th.

What you observed was undoubtedly ECHO I. This satellite passed over Celina at 11:15 p.m., Eastern Standard Time, to the south of the city at 88° elevation heading northeast.

Thank you for reporting this observation to the Air Force. We hope the above explanation will be of interest to you.

Sincerely,

M. M. JACKS
Major, USAF
