PROJECT 10073 RECORD

1. DATE - TIME GROUP 11-31 August 1965	2. LOCATION Houston, Texas Area
3. SOURCE Military and Civilians	10. CONCLUSION Reports followed the Great Planes Inversion sightings of 30 July - 4 August. This folder contains 59 reports submitted to Ellington AFB during 11-31 August 1965. The reports are evaluated as misinterpretation of conventional objects.
4. NUMBER OF OBJECTS Usually One	
5. LENGTH OF OBSERVATION Varied	11. BRIEF SUMMARY AND ANALYSIS 10 Reports are probably A/C 7 Reports are probably either Satellites or A/C 14 Reports attributed to a Satellite 5 Reports were Insufficient Data for Evaluation 4 Reports were of Meteors 14 Reports were probably Stars/Planets 1 Report contained conflicting data 1 Report regarded as an unreliable report 1 Report considered as due to psychological Causes 1 Report either a Balloon or Astro object 1 Report followed up with Form 164 59 1 Report stated that photos were taken. Negatives requested.
6. TYPE OF OBSERVATION (ALL) Ground-Visual	
7. COURSE Varied	
8. PHOTOS ☒ Yes(Negatives Requested) ☐ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a.Name [redacted] Addre[redacted]

Phone [redacted] Age 54 Occupation Salesman

b. Shape of Object round c. Color white

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
basketball e. Number of Objects 1

f. Formation, if more than one n/a

g. Unusual features of object

h. Was there a tail, vapor trail, or exhaust? no i. Any Sound no

j. What called attention to the observer watching star

k. What angle and elevation was the object on first observance 10 deg.
looking North - 30 deg elev

l. What angle and elevation was the object when disappeared 30 deg.

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object [illegible]
moving to East to South East.

n. How did the object disappear (instantly, to the north, no direction, etc.)
Faded out

o. How long was the object visible (5 min, 1 hour, etc.) 5 min or less

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
naked eye

q. Time and date of sighting 13 Aug 65 - 2015 hrs.

r. Light conditions (night, day, dusk) night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) [illegible]

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 90

v. OTHER INFORMATION not answered above:

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO [redacted]

3.a. Name [redacted] Address [redacted]

Phone [redacted] Age 49 Occupation Policeman CA 2035-1-8206

b. Shape of Object 1 Bright Star Round c. Color Bright light

d. Size (compare to ~~dime, quarter~~, baseball, basketball, or larger item) Size of Planet Venus e. Number of Objects 1.

f. Formation, ~~if more than one~~ No

g. Unusual features of object None

h. Was there a tail, vapor trail, or exhaust? No i. Any Sound No

j. What called attention to the observer Looking for satellite

k. What angle and elevation was the object ~~on first observance~~ 65° West.

l. What angle and elevation was the object when disappeared 75° East

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object West to East

n. How did the object disappear (instantly, to the north, no direction, etc.) went behind cloud,

o. How long was the object visible (5 min, 1 hour, etc.) 2 minutes

p. How was the object observed (naked eye, radar, telescope, ~~binoculars~~, etc.) naked eye

q. Time and date of sighting 1945 hrs 6 Sept 61

r. Light conditions (night, day, ~~dusk~~) Night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) west of Houston traveling East

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) broken clouds

u. Temperatures of day (80°, 90°, etc) 86°

v. OTHER INFORMATION not answered above: Guess 4 times faster than a satellite INCONSISTENT WITH PREVIOUS

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a.Name [redacted] Address [redacted] Houston, Tex

Phone _____ Age 18 Occupation None

b. Shape of Object flat circular disc c. Color silvery

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
size of 3 houses joined e. Number of Objects 1

f. Formation, if more than one n/a

g. Unusual features of object 2 light like things on each side

h. Was there a tail, vapor trail, or exhaust? ____ i. Any Sound Roaring (tornado)

j. What called attention to the observer Heard noise and looked up

k. What angle and elevation was the object on first observance Vertical - directly overhead.

l. What angle and elevation was the object when disappeared 1000 fts

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object West - going straight.

n. How did the object disappear (instantly, to the north, no direction, etc.)
Saw it disappear over horizon.

o. How long was the object visible (5 min, 1 hour, etc.) 30 min

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
naked eye - Used binoculars to observe departure.

q. Time and date of sighting 1100, 18 Aug

r. Light conditions (night, day, dusk) day, slightly cloudy

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) SW Houston

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) Broken clouds

u. Temperatures of day (80°, 90°, etc) 92°

v. OTHER INFORMATION not answered above: Hovered in field 3 blocks from home about 4 feet off ground then went --- Party hung up on the phone before other questions could be asked. Also, wanted to know if there would be an investigation. When When informed that such would be determined later, he lost interest.

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

f. Formation, if more than one None

g. Unusual features of object ONE Window, Triangler Shape

h. Was there a tail, vapor trail, or exhaust? No i. Any Sound No

j. What called attention to the observer She was looking up at the stars when She notice it.

k. What angle and elevation was the object on first observance
About a 60° angle of Elevation

l. What angle and elevation was the object when disappeared
Below the Horizon

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object Appeared to come from the NORTH and disappeared in the TREES toher night (Westerly Direction)

n. How did the object disappear (instantly, to the north, no direction, etc.)
Slowly and then picked up speed.

o. How long was the object visible (5 min, 1 hour, etc.) 20 Seconds

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
Naked eye

q. Time and date of sighting 18 Aug 1965 2230 hrs

r. Light conditions (night, day, dusk) Night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) West of Alandale

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 82°

v. OTHER INFORMATION not answered above: None

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

Le never like to investigate!

50

Investigation:

At approximately 1430 hours, 19 Aug, Mrs [redacted] called to report, in a very upset manner, that her daughter was still upset over what she saw the night before (see report on scene file). He said he had gone to the area (field across from his house) when his daughter thought she saw the "Love ship" land. He said there was a big bright and loud fast saucer. I attempted to calm him down and then asked him if would object to the Austin police investigate. He agreed, and I requested the police dept. to send a car to check out the area ASAP. At 1645 officers Rodales and [redacted] arrived and stated that he talked with Mr. [redacted] but his daughter wasn't at home. He investigated the area but couldn't find any tracks, footprints, or anything else suspicious. A check was completed with law enforcement. They had an "unknown" at 1112 hours which was later identified as a commercial airliner. However, the area under consideration is in the local ground clutter due to the terrain. No further action is planned.

[redacted]

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO [redacted]

3.a. Name [redacted] Address South Park, Texas

Phone [redacted] Age 36 Occupation Signal Oil and Gas Co.

b. Shape of Object Looked like a star c. Color White Glow

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
BaseBall e. Number of Objects ONE

f. Formation, if more than one None

g. Unusual features of object None

h. Was there a tail, vapor trail, or exhaust? None i. Any Sound None

j. What called attention to the observer He was looking up at the stars

k. What angle and elevation was the object on first observance
80° angle of elevation

l. What angle and elevation was the object when disappeared
40° angle of elevation

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object Traveled in a S pattern East to West about 4 O'clock High then turned to the north.

n. How did the object disappear (instantly, to the north, no direction, etc.)
High rate of Speed

o. How long was the object visible (5 min, 1 hour, etc.) less then 2 minutes

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
Naked eye

q. Time and date of sighting 19 Aug 1965 0105 hrs

r. Light conditions (night, day, dusk) Night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) west towards Houston

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 75°

v. OTHER INFORMATION not answered above: None

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

5/

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name [redacted] Address [redacted]

Phone [redacted] Age 15 Occupation Student

b. Shape of Object Round c. Color White

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
Dime e. Number of Objects 1

f. Formation, if more than one None

g. Unusual features of object

h. Was there a tail, vapor trail, or exhaust? No i. Any Sound No

j. What called attention to the observer Whistling

k. What angle and elevation was the object on first observance
Cockhead.

l. What angle and elevation was the object when disappeared East

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object West - East

n. How did the object disappear (instantly, to the north, no direction, etc.)
East

o. How long was the object visible (5 min, 1 hour, etc.) 5 Minutes

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)

q. Time and date of sighting 1920 - 10 Aug 57

r. Light conditions (night, day, dusk)

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.)

t. Weather (clear day, hazy, cloudy, broken clouds, etc.)

u. Temperatures of day (80°, 90°, etc) 90

(74)

SEE RPT #75

This was a result of my coordination with the Museum of Natural Science. It actually occurred on Aug 27 & not July 27th.

Texas Notebook

Splendor Out of the Night's Sky

Louis Hofferbert is still on special assignment. Today's guest columnist is Armand Yramategui of the Houston Museum of Natural Science.

BY ARMAND YRAMATEGUI

ON JULY 27, at 2:30 a.m., Mr. and Mrs. W. H. Janes Jr., 942 Thornton, were returning to Houston after a vacation trip. Traveling south on Interstate 45, Janes saw a spectacular sight. To his right and in the direction of Huntsville State Park he observed a brilliant object streaking down almost vertically. As the brilliant white sphere reached a point close to the horizon it seemed to explode and the country-side was momentarily bathed in white.

Rare Sight

His wife, asleep in the front seat, was awakened by the flash of light. No sound was heard. We frequently see "shooting stars" or, to use a better term, meteors, in the sky. To see one brilliant enough to cast shadows, however, is unusual and the average individual may see such a fireball one or twice during a lifetime.

Although many fireballs are blue-white in color, others are vivid red, green or orange. Sparks frequently fly in all directions from the fireball and a long trail will persist in the sky for several minutes.

If it is relatively close you may hear a rumble similar to thunder and possibly a whishing sound. The average meteoroid is usually smaller than a grain of sand and it is believed that it is debris left in orbit by a comet. As the earth whirls through space at a speed of nearly 70,000 m.p.h. these meteoroids are intercepted. When they strike the earth's atmosphere they burn completely and only a tiny cinder floats down to earth.

A fireball is a very brilliant meteor that because of its size is probably not cometary debris but possibly part of a shattered planetoid. Being larger, friction with the atmosphere would cause only its outer surface to burn and slough off. The remainder would strike the earth and this visitor from outer space is a meteorite.

Found in Fields

Meteorites are most likely to be found by farmers plowing fields in regions where there are no natural rocks. In order to keep it out of his way a farmer may place it alongside a fence line or may use it to tie down a fence. Some meteorites are of iron while others are stony.

Although of no commercial value, meteorites are valuable to science and their study adds to our understanding of the universe. When given to such organizations as the Houston Museum of Natural Science they are not only available for study by qualified scientists but available also to the public to see and enjoy.

The meteorite seen by the Janes may never be found since no other reports came in and these are necessary to help plot its path. It may have fallen as far west as San Antonio. If you see a fireball report it to your local newspaper. It is possible that others may yet thrill, though vicariously, to your visitor from outer space.

Houston Chronicle

What's going on?

What's going on? What's with the story . . . several weeks ago, "Martians Wonderful" (Post Aug 15) and all the flying saucer reports? Mainly the one when a man saw a spaceman come out of a saucer in Florida that several of Houston's main radio stations made so much of? Are these true or just a lot of fiction?

NAME WITHHELD

Houston

"A lot of fiction" may be oversimplifying it, Mr X, but Major Hector Quintanilla of the Air Force (Post Aug 29) says all these strange things aren't strange at all, and that so far they have all been explainable.

Atmospheric conditions play tricks on the human eye or on radar and, hey, there it is, a flying saucer!

Quintanilla says all the reports investigated in 18 years have turned out to be balloons, aircraft, reflections of ground lights, satellites (there are a number of these going around up there now), meteorites, fireworks, flares, chaff, satellite junk, birds, planets or other heavenly bodies, searchlights, jet exhausts, hoaxes, or mirages.—Editor.

u. Temperatures of day (80°, 90°, etc)

v. OTHER INFORMATION not answered above: OBJECT WENT FROM DOWNS → SOUTH ON HIGHWAY JUST AFTER PASSING & SOME PART SOUTH OF HWY 6. WHILE OBJECT WAS AFTER OBSERVED. FIRE ALSO SAW.

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.
IT WAS FIRST OBSERVED. APPEARED TO BE 6 TO 8 MILES DISTANT FROM ROAD.

OVER.

75

27 Aug.

Mr. [redacted] the Hunter Museum of Natural Science said this fitting sounds very much like a meteorite and will call Mr. [redacted] to get additional information. He will investigate and call me back on 30 Aug.

AL

30 Aug

Mr. [redacted] stated today that he talked with Mr. [redacted] and his description of the object has no doubt in his mind that this was a meteorite. He checked with the newspaper and police in the Huntsville area but could not find anyone else that saw it. He is putting an article in the Hunter paper on Thurs. (2 Sept) requesting anyone else that saw or heard it to contact him.

UNIDENTIFIED FLYING OBJECTS (UFO)
INFORMATION SHEET

1. Answers to the following questions will be obtained from persons calling in regard to the observance of an unidentified flying object (UFO). If person refuses to give answers to 3a, do not complete report.

2. Complete Information Sheet in duplicate and forward to BDO.

3.a. Name [redacted] Addr [redacted]

Phone [redacted] Age 17 Occupation student

b. Shape of Object Round c. Color white

d. Size (compare to dime, quarter, baseball, basketball, or larger item)
Quarter e. Number of Objects 1

f. Formation, if more than one

g. Unusual features of object Real Bright

h. Was there a tail, vapor trail, or exhaust? Yes i. Any Sound No

j. What called attention to the observer Sitting outside looking up

k. What angle and elevation was the object on first observance 30°

l. What angle and elevation was the object when disappeared 30°

m. What was the flight path of object (to north or south, to east or west) and were there any maneuvers of the object S/W

n. How did the object disappear (instantly, to the north, no direction, etc.)
Instantly W

o. How long was the object visible (5 min, 1 hour, etc.) 5 sec

p. How was the object observed (naked eye, radar, telescope, binoculars, etc.)
Naked Eye

q. Time and date of sighting 2230 27/6/66

r. Light conditions (night, day, dusk) Night

s. Geographical position of object (North of Houston, South of Pasadena, directly overhead, etc.) S/of Norman

t. Weather (clear day, hazy, cloudy, broken clouds, etc.) clear

u. Temperatures of day (80°, 90°, etc) 95

v. OTHER INFORMATION not answered above:

5. Thank caller for information, but do not promise that a return call will be made to confirm nor deny the observance of the object.

Lionel object observed at 20:15 hours 7 Sept 65.
Object seemed to come off of the moon and go
to the west very fast. It went higher and then
slowed down, then stopped. Then it started to
move up and down for a while. It then
started westward, change course and went
to the north and stopped again. Object
then went down towards the earth for about
10 min. Object disappeared at about 45°.

(155)

ADDITIONAL INFORMATION ON UFO SIGHTING

16 September 1965

The following additional information was secured from Mr. [redacted] over the phone on this date. Mr. [redacted]'s residence is located in the southern part of Houston, 3 miles west of the Houston International Airport.

Mr. [redacted] "On the night of 13 September 1965, between 7:10 and 7:15 p.m., my wife and I observed a round dazzling white object coming from the direction of the airport (Houston International) about 1000' high and traveling slow (estimated between 80 and 100 mph). The object was traveling in a southerly direction towards Galveston and changed altitudes up and down about 100' in each direction. It did not hover and there was no noise associated with its flight. It faded away as it traveled south. Object appeared to be about 1/2 the size of an airliner or about 100 to 150' in diameter. It was a clear night and I am sure that it was not an aircraft from the airport because I am used to seeing them fly over the house. Also, it did not seem to take the same path that most of the planes from the airport take. I am sure that this was not a reflection because the light was so bright that it almost hurt my eyes to look at it. There were no lights on the object other than the large bright light. The sun had gone down and it was dusk and therefore I do not believe it could be the reflection of the sun off an aircraft. Soon after losing sight of this object, other aircraft passed over the house in their landing patterns to the airport. No one else, to my knowledge, saw this object other than my wife and myself."

INVESTIGATION:

1. The statement contained in paragraph "Other Information" on the UFO Information Sheet "airliners made pass" does not refer to an airliner making a pass at the unknown object but to the aircraft passing over Mr. [redacted]'s house.

2. A check with the Supervisor (Mr. [redacted]) of the Houston International Airport tower revealed no information on their records indicating such a sighting as contained in this report, either on airport radar or visually by tower operators. Mr. Weitzel felt quite sure that if such an incident happened it would have been observed in the tower because of its close proximity to the airport. Ellington's AC&W radar also reported negative radar UFOs during this period. No further investigation is planned by this office unless directed by your section.

ADDITIONAL INFORMATION ON UFO SIGHTING

0900, 16 Sep 1965

Talked with Mrs [redacted] by phone on this date. She stated that when she was going outside the house to hang the wash she looked up in the sky and saw a large round object, estimated to be fifty feet in diameter, over her house. The object was very shiny and bluish silver in color and seemed to blend in with the sky. She could not tell exactly how high it was but stated that it was very low and compared in altitude to helicopters that occasionally passed over her house. She said there was no noise associated with the object and it was definitely not any type of aircraft which she has ever seen. I asked her to describe the shape of the object and she stated that it appeared to be two circles of the same size overlaid on each other with the possibility of windows where the two circles converge. The only other visible identifying feature was something sticking out underneath the object which looked like a TV antenna. She was not sure about the windows because she was so startled and nervous. There were no visible lights of any type. She said although the weather was clear and bright there were some clouds in the sky. The object appeared to go straight up for a while and then headed in a northly direction.

Mrs. [redacted] attempted to call one of her neighbors to show it to her but by the time the neighbor got there the object had disappeared. She has no knowledge of anyone else in the neighborhood seeing this object at this time.

Mrs. [redacted] saw a similar object 12 years ago (approximately 12 May 1953) when she was living in another house not too far from her present address.

I asked Mrs. [redacted] if she could draw a picture of the object and send it to me but she stated she was not very good at drawing pictures and could not do it. She reiterated the fact that she knows an airplane when she sees it and this was definitely not an aircraft. She further stated that both she and her husband observed numerous peculiar lights in the sky over her house last night (15 Sep 1965) which had peculiar flight paths not normally associated with aircraft she has seen flying at night.

INVESTIGATION:

Mrs. [redacted]s residence is located in the extreme northwest section of Houston and is not immediately adjacent to any active airport. On the map this area appears to be a well developed part of Houston; however, Mrs. [redacted]n stated that there are not too many homes around where she lives. A check with the Houston Tower radar and the local AC&W radar failed to disclose any UFOs reported in the area at the time of this sighting. Although I cannot come up with any explanation for this sighting, I do not plan to investigate any further unless directed by your office.
