8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

It was as bright as our brightest satellite which is to awfully bright

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other It was awfully small, so it would be hard to tell what the edges looked like!

13. Did the object:

| h. Disappear and reappear? | Yes | <input checked="" type="radio"/> No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

Yes. By speeding out of sight.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound *None*

b. Color *white (light)*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

all of it I suppose!

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?
 (Circle One) Yes No *It was faster than any aircraft I have ever seen.*
 IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?
 (Circle One) Yes No *It was higher than any aircraft I would be visible ~~to~~ naked eye!*
 IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
 (Circle One):
 a. Inside a building
 b. In a car
 c. Outdoors
 d. In an airplane (type)
 e. At sea
 f. Other on back porch

23. Were you (Circle One)
 a. In the business section of a city?
 b. In the residential section of a city?
 c. In open countryside?
 d. Near an airfield?
 e. Flying over a city?
 f. Flying over open country?
 g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:
 24.1 What direction were you moving? (Circle One)
 a. North c. East e. South g. West
 b. Northeast d. Southeast f. Southwest h. Northwest
 24.2 How fast were you moving? _____ miles per hour.
 24.3 Did you stop at any time while you were looking at the object?
 (Circle One) Yes No

25. Did you observe the object through any of the following?
 a. Eyeglasses Yes No e. Binoculars Yes No
 b. Sun glasses Yes No f. Telescope Yes No
 c. Windshield Yes No g. Theodolite Yes No
 d. Window glass Yes No h. Other _____

Dear Sir:

My senior year in high school I wrote my senior theme in English on U.F.O.'s. In my home town, recently, there have been reports of many unidentified flying object reports which I believe many are farce and have no authenticity at all!

I have observed many things in the sky in the past year — such as weather balloons, satellites, reflections, etc; and I reported one satellite last year to you because suddenly the light from the satellite disappeared. But it was explained and all was A-O-K.

But tonight, August 4, 1965 about 9:25 P.M. I was out looking for

some of these so-called flying saucers that so many people have reported!

I saw one! What a laugh! But in serious! This object was a dim red - it moved in a straight line due South - straight overhead - what seemed to be miles higher than any plane I have ever seen. It was visible at about a -1 magnitude.

This object moved half way across the horizon in approximately 10 seconds!

faster than any plane I have ever seen - to be that high up! Then it faded away because it wasn't bright enough to see to well.

Maybe this report sounds as crazy as all the rest you receive - But, I hope you will write back and tell me what it probably was I saw! I would appreciate it very much.

Sincerely,

4 AUGUST 1965

Observer was out looking for unidentified flying objects when at approximately 2125 hours a dim red object appeared and was moving due south, straight overhead. The light crossed half of the sky in ten to fifteen seconds. The light, about the size of a bright star, was moving faster than any aircraft the observer had ever observed. The object just disappeared by speeding out of sight. There was no sound or trail noted. The object wasn't bright enough to be seen clearly.

COMMENTS.

The presented data is characteristic of a meteor, however, no trail or tail was reported. As for being a satellite, balloon or aircraft, the duration and degree of arc through which the object passed discounts such an explanation. Observer has reported two other sightings to the Air Force. As such, with the information available, the case is considered as unidentified by the Air Force.
