

PROJECT 10073 RECORD

1. DATE - TIME GROUP 10 August 65 11/0115Z	2. LOCATION Orlando, Florida
3. SOURCE Civilian	10. CONCLUSION Astro (VENUS) ✓ VENUS near horizon in West setting at time of report. That object reflected light on lake indicates that it was at a low angle. Colors and motion in accord with the reported description. Motion and detail of vapor trail attributed to imagination of the witness.
4. NUMBER OF OBJECTS One	11. BRIEF SUMMARY AND ANALYSIS Round object with color changing from red to yellow-orange and white and back to red. Appeared round and moved like a gyroscope. Disappeared leaving a vapor trail. No sound. Would move when a/c neared object. Light reflected on nearby lake. Disappeared in West. WX described as a cloudy night. VENUS at 11.18 RA with Mag of -3.4. At 280 deg azimuth just above horizon in process of setting at time of report. Motion color change regarded as illusion and distorted by the imagination of the witness. WX reported as cloudy.
5. LENGTH OF OBSERVATION 20 - 25 Minutes	
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE West	
8. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
