

PROJECT 10073 RECORD

1. DATE - TIME GROUP 6 September 65 07/013Z	2. LOCATION Long Beach, New York
3. SOURCE Civilian	10. CONCLUSION 1. Satellite (ECHO II) ✓ 2. Photos No Image ECHO II was in area at time of sighting, however, observer did not report seeing satellite. Possible that observer is slightly off in direction. Observer felt that object was satellite.
4. NUMBER OF OBJECTS One	11. BRIEF SUMMARY AND ANALYSIS Wite light, like a star, horizontal flight across sky, moving SE to NW. Observer felt it was a satellite. Characteristic of a satellite except for direction. Possible error in direction. ECHO II was over New York at 812 PM EST (07/0113Z) North of city 44 deg above the horizon moving NE.
5. LENGTH OF OBSERVATION 3 Minutes	
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE SE to NW	
8. PHOTOS <input checked="" type="checkbox"/> Yes	
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

As above - about as bright as the brightest star visible

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred

- b. Like a bright star
- c. Sharply outlined
- d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|-----|-------------------------------------|------------|
| a. Appear to stand still at any time? | Yes | <input checked="" type="radio"/> No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | <input checked="" type="radio"/> No | Don't know |
| c. Break up into parts or explode? | Yes | <input checked="" type="radio"/> No | Don't know |
| d. Give off smoke? | Yes | <input checked="" type="radio"/> No | Don't know |
| e. Change brightness? | Yes | <input checked="" type="radio"/> No | Don't know |
| f. Change shape? | Yes | <input checked="" type="radio"/> No | Don't know |
| g. Flash or flicker? | Yes | <input checked="" type="radio"/> No | Don't know |
| h. Disappear and reappear? | Yes | <input checked="" type="radio"/> No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

No

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None

b. Color White - like a bright star (intensity of light did not change during sighting)

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

All of the object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

How do you draw a moving star?

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type) _____
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

A city block from both Atlantic Ocean & Reynolds Channel

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|----|----------------------|------------|----|
| a. Eyeglasses | Yes | No | e. <u>Binoculars</u> | <u>Yes</u> | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other _____ | | |

7x50

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A moving star!

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Yes - Fall of 1957 - New York
In 1952 while stationed at Warren AFB on a bright, clear moonless night, I and two other instructors saw a bright green object (turn to last page)

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

[Redacted]
[Redacted]
Long Beach, N.Y.

32. Please give the following information about yourself:

NAME [Redacted] [Redacted] [Redacted]
Last Name First Name Middle Name

ADDRESS [Redacted] Long Beach N.Y.
Street City Zone State

TELEPHONE NUMBER [Redacted] AGE 33 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

U.S. Air Force 1951-1955
Technical Training Instructor
1951-1953 - Warren AFB, Wyo
Group Training NCO
51st Comm. Gp., Korea
1953-1954
Chief Clerk & NCOIC - Comm Center
647th AC & W Sqn
Manassas, Va.
1954-1955

Presently employed as a programmer by Pan American Airways for their IBM 7080 real-time reservation system. (Output teletype & communications)
 (Have processed and handled many forms similar to this one while stationed in Manassas.)

33. When and to whom did you report that you had seen the object?

5 SEP 1965
Day Month Year

~~Brookline~~
Lt. Moon
Suffolk County AFB
L.I., N.Y.

Called base at 2130; waited until 2150; completed report at 2200

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
 Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire:

3

Day

Oct

Month

1965

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I again sighted a similar object on Sep 8, 1965 however the object was approximately 10° further North (more NNW) than the sighting on 6 Sep 65. The object, direction, weather etc was identical to this sighting, except the time was approx. 2115 hours. I again called Suffolk County AFB, was connected to the tower (they said) but information regarding the sighting was not taken by the NCO in the tower.

It is my belief that what I saw on both occasions was a satellite. However, the satellite could not have been launched from Cape Kennedy because of the direction of travel. ~~This page is blank~~

Two programmers who work with me at Pan Am have recently been transferred from Pan Am's Guided Missile Range Division (Pan Am handles down-range tracking) and they verified that unless direction was radically changed by 180° this satellite could not have been launched at the Cape.

However, we could not rule out launchings from Virginia, Vandenberg AFB, Calif. or the USSR.

30. (cont'd)

The object was too bright, too large (about the size of a match head at arms length) and much too fast to be the navigational light of an aircraft. The object travelled ~~etc.~~ through 135° in 3 or 4 minutes

Spotted at A, disappeared at the horizon.

The sighting was unreported - not one of us had (at that time) heard of satellites, UFO's.

We were just mystified and speculative for many days.

REPLY TO
ATTN OF: TDEW/UFO
SUBJECT: UFO Sighting, Cloverdale, Ohio

NOV 12 1965

TO: Hq USAF SAFOICC (Mrs Hunt)

Reference the attached report of an unidentified flying object from Mr [REDACTED]. Mr [REDACTED] lives at [REDACTED] Avenue, Long Beach, New York. The sighting by Mr [REDACTED] has all the characteristics of a satellite observation with the exception of the reported direction. There are no known satellites with a retrograde orbit. The satellite Echo II was over Long Beach, New York, at the exact time Mr [REDACTED] made his observation. It passed to the north of the city at 44 degrees above the horizon moving northeast. If there was an error in the reported direction, then the object was undoubtedly Echo II. If the direction reported by Mr [REDACTED] is correct, then it is likely that a high-flying aircraft was the cause of the sighting.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

DONT RECALL 1965
 Day Month Year

2. Time of day: DONT RECALL

Hour Minutes

(Circle One):

A.M.

or

P.M.

3. Time Zone:

(Circle One): a. Eastern
 b. Central
 c. Mountain
 d. Pacific
 e. Other _____

(Circle One): a. Daylight Saving
 b. Standard

4. Where were you when you saw the object?

[REDACTED]
 Nearest Postal Address

[REDACTED]
 City or Town

N.Y.
 State or County

5. How long was object in sight? (Total Duration)

0 10 —
 Hours Minutes Seconds

a. Certain
 b. Fairly certain
 c. Not very sure
 d. Just a guess

5.1 How was time in sight determined?

APPROXIMATION

5.2 Was object in sight continuously?

Yes No

6. What was the condition of the sky?

DAY
 a. Bright
 b. Cloudy

NIGHT
 a. Bright
 b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
 b. In back of you
 c. To your right
 d. To your left
 e. Overhead
 f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

NORTH STAR

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time? | <input checked="" type="radio"/> Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | <input checked="" type="radio"/> Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | <input checked="" type="radio"/> No | Don't know |
| d. Give off smoke? | Yes | <input checked="" type="radio"/> No | Don't know |
| e. Change brightness? | Yes | <input checked="" type="radio"/> No | Don't know |
| f. Change shape? | Yes | <input checked="" type="radio"/> No | Don't know |
| g. Flash or flicker? | Yes | <input checked="" type="radio"/> No | Don't know |
| h. Disappear and reappear? | Yes | <input checked="" type="radio"/> No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

NO

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound

NONE

b. Color

BRIGHT BLUE WHITE LIGHT - AS A STAR EMITS.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

ALL

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

c. Outdoors

d. In an airplane (type) _____

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other NAKED EYE

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

APPEARED TO BE A STAR MOVING ACROSS THE HEAVENS

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses: [REDACTED] WIFE

[REDACTED]

32. Please give the following information about yourself:

NAME [REDACTED] Last Name First Name Middle Name
ADDRESS [REDACTED] Street City Zone State N.Y.
TELEPHONE NUMBER [REDACTED] AGE 40 SEX M.

Indicate any additional information about yourself, including any special experience, which might be pertinent.

TRAINED AND CONDITIONED AS A NEW YORK POLICE OFFICER TO OBSERVE AND REPORT FACTS WITHOUT EMOTIONS OR SUPPOSITIONS ENTERING DETERMINATIONS.

33. When and to whom did you report that you had seen the object? SOUTH HAMPTON AFB.

DO NOT RECALL
Day Month Year

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 1 OBJECT
 Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire:

17 15 65
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

none

Dear Mr. [REDACTED]:

This is in reply to your report of an aerial observation on the night of September 6, 1965.

Your sighting coincided with the passage of the satellite ECHO II which was to the north of the city 40 degrees above the horizon traveling in a northeasterly direction. Erratic movements of satellites can be attributed to an illusion caused by atmospheric conditions.

Thank you for reporting your observation to the Air Force.

Sincerely,

Mr. [REDACTED]

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

6 9 65
Day Month Year

2. Time of day: 9 18
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[REDACTED]
Nearest Postal Address

Northport
City or Town

Suffolk County, N.Y.
State or County

5. How long was object in sight? (Total Duration)

_____ 5 _____
Hours Minutes Seconds

- a. Certain c. Not very sure
b. Fairly certain d. Just a guess

5.1 How was time in sight determined? wrist watch

5.2 Was object in sight continuously? Yes No _____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT clear
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left
b. In back of you e. Overhead
c. To your right f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- I did not see the moon from where I was standing.*
- a. Bright moonlight
 - b. Dull moonlight
 - c. No moonlight - pitch dark
 - d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same *slightly brighter*
- d. Don't know

11.1 Compare brightness to some common object:

Venus

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|-----|-------------------------------------|------------|
| a. Appear to stand still at any time? | Yes | <input checked="" type="radio"/> No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | <input checked="" type="radio"/> No | Don't know |
| c. Break up into parts or explode? | Yes | <input checked="" type="radio"/> No | Don't know |
| d. Give off smoke? | Yes | <input checked="" type="radio"/> No | Don't know |
| e. Change brightness? | Yes | <input checked="" type="radio"/> No | Don't know |
| f. Change shape? | Yes | <input checked="" type="radio"/> No | Don't know |
| g. Flash or flicker? | Yes | <input checked="" type="radio"/> No | Don't know |
| h. Disappear and reappear? | Yes | <input checked="" type="radio"/> No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

Later
 NO. Some moments. I was telephoning Suffolk A.F. Base

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind:

Jet Air Liner. There were two in the area moments apart during the sighting, head ~~N~~ NNE

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

a. Sound *None*

b. Color *greenish white light.*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

All of it.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? *Faster than a satellite*

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type) _____
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. in the business section of a city?
- b. In the residential section of a city? *town*
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|-------------------------------------|----------------|-----|-------------------------------------|
| a. Eyeglasses | Yes | <input checked="" type="radio"/> No | e. Binoculars | Yes | <input checked="" type="radio"/> No |
| b. Sun glasses | Yes | <input checked="" type="radio"/> No | f. Telescope | Yes | <input checked="" type="radio"/> No |
| c. Windshield | Yes | <input checked="" type="radio"/> No | g. Theodolite | Yes | <input checked="" type="radio"/> No |
| d. Window glass | Yes | <input checked="" type="radio"/> No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw

A very bright star traveling as described in sect. B19

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

I called the Suffolk A.F. Base AT point B

*6 or 7 young girls watched
To point B1. Trees blocked the
view at this point.*

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

*My son [redacted] reported that he focust his telescope
on it for a few moments and that he saw a number
of smaller lights entering from the direction
in which it was traveling and leaving in the opposite
direction. (Age 13) I could not see these lights
with the naked eye.*

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

[Redacted names and addresses] report

32. Please give the following information about yourself:

NAME [Redacted] Last Name [Redacted] First Name [Redacted] Middle Name [Redacted]

ADDRESS [Redacted] Street [Redacted] City [Redacted] Zone [Redacted] State N.Y.

TELEPHONE NUMBER [Redacted] AGE 39 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I was in the army Air Corps 1945-1946 served in the U.S. and Wiesbaden, Germany Hq. Sq.

33. When and to whom did you report that you had seen the object?

6 Day 9 Month 1965 Year O.D. Suffolk Air

Force L.I. N.Y.

34. Date you completed this questionnaire:

<u>12</u>	<u>10</u>	<u>65</u>
Day	Month	Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

My son [redacted] who was in a lighted bedroom with the shade up was the first to see the light. He and [redacted] went to the west side of the house and watched for a few minutes, they then called [redacted] and [redacted] and the other youngsters in the neighborhood who also watched for a few minutes. Then they called me: I did not think it unusual until it changed course. I sent [redacted] for my camera and [redacted] set up his telescope. I took three exposures and called the Air Force Base. The enclosed negatives show nothing to me, try your luck.

Sincerely
[redacted]

Dear _____,

Reference your unidentified observation of 5 September 1965. The information which we received was not sufficient for evaluation. Request you complete the attached FTD Form 164 and return it in the envelope provided. We would also appreciate receiving the original negatives to help in our analysis. These negatives would be returned to you upon completion of our evaluation.

We wish to thank you for reporting your observation to the Air Force.

Sincerely,

HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book

NOV 9 1965

TO: Hq USAF SAFOICC (Mrs Hunt)
Wash D C 20330

Mr. [REDACTED] of [REDACTED] Art, Northport, New York submitted a report to the Air Force of an unidentified flying object observed on the evening of 6 September. The sighting coincided with passage of the satellite Echo II. Echo II passed north of the city, 45 degrees above the horizon, heading Northeast. Mr. [REDACTED] submitted photographic negatives of an alleged object. Examination of these negatives fails to reveal any object. It is requested that these negatives be returned to Mr. [REDACTED] with your reply.

Mrs Hunt/sh/SAFOICC/72842/18 Feb 66

Dear Mr. [redacted]

This is in reply to your report of an aerial object which you observed and were unable to identify on the night of September 6, 1965.

Your sighting coincides with the passage of the satellite ECHO II which passed north of the city 45 degrees above the horizon heading northeast.

The negatives which you submitted with your report failed to reveal any object. They are returned herewith.

Thank you for reporting your observation to the Air Force.

Sincerely,

Mr. [redacted]

Sir:

I have tried to answer all questions clearly, concisely and completely. However, there has been a time lapse of one month and the only way of checking the information was by means of notes I took at the time. You will notice some corrections I made to the times. The date was 6 Sep 65 not 5 Sep 65 - because it was the evening of Labor Day - Monday evening.

My very best regards
~~XXXXXXXXXXXXXXXXXXXX~~

P.S. Your letter has actually made me feel "homesick" for the USAF! Does the Air Force need programmers for their Electronic Data Processing systems?
