

PROJECT 10073 RECORD

<b>1. DATE - TIME GROUP</b> 4 April 66 05/0030Z	<b>2. LOCATION</b> Corpus Christi, Texas (10073)
<b>3. SOURCE</b> civilian	<b>10. CONCLUSION</b> THIS OBJECT IS NOT FOR EVALUATION FTD Form 164 Form 10073, however, not returned after 30 days. However, more technical data needed to substantiate and identify sighting.
<b>4. NUMBER OF OBJECTS</b> one	
<b>5. LENGTH OF OBSERVATION</b> fifteen minutes	<b>11. BRIEF SUMMARY AND ANALYSIS</b> Obj was round like a pie pan, size of silver dollar increasing to about 1/2 inch diameter as the obj became closer to the observer. Color was blue-grey. It had a tail like a comet which was reported to have moved up and down with the obj. Disappeared by flying from observers with a description and time are right for a sighting. The wind direction is wrong for this. The obj was seen by an observer off aircraft, then was seen by another observer.
<b>6. TYPE OF OBSERVATION</b> ground visual	
<b>7. COURSE</b> north	
<b>8. PHOTOS</b> <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
<b>9. PHYSICAL EVIDENCE</b> <input type="checkbox"/> Yes <input type="checkbox"/> No	

MAY 5 1967

Dear Mr. [REDACTED]

I am inclosing the photographs of alleged unidentified flying objects (UFOs) which you submitted for evaluation.

Again, the images appear genuine (as opposed to photographic phenomena); however, it is not possible to determine the cause or nature of the objects.

These photographs are so similar to those submitted in your April 10, 1966 observation that we did not send them to our photographic analysts. Although it is just a guess, a likely cause for the imagery is a small man-made object thrown into the air and photographed.

Also inclosed is the 1967 report on Project Blue Book which I think you will find interesting.

Sincerely,

GEORGE P. FREEMAN, JR.  
Lt Colonel, USAF  
Chief, Civil Branch  
Community Relations Division  
Office of Information

REMARKS					
<p>Mr. ██████ submitted photographs of an alleged UFO. Photographic analysis revealed that a likely cause for the imagery was some type of man made object which was thrown into the air and photographed. Mr. ██████ informed of our findings by correspondence to you on 8 Feb 67.</p> <p>Mr. ██████ has written to President Johnson, Senator Phillip Hart, and Project Blue Book many times. Now he has sent ten photographs of alleged UFOs for us to analyze. These, again, look like something thrown into the air and photographed. Could you possibly send a letter to this fellow and have him get off our backs? I have inclosed the last group of photos. There is no need to send these to photo analysis.</p>

FEB 15 1967

Dear Mr. [REDACTED]

We have completed our evaluation of your April 10, 1966 observation and photograph of an alleged unidentified flying object.

Although the images appeared genuine (as opposed to photographic phenomena) it was not possible to determine the cause or nature of the object. It was interesting to note however that you state you were approximately 300 feet from the object which was estimated to have a velocity of 800 mph. Although you state there was no sound, a sonic boom would occur at that speed. Also noteworthy is the fact that although the foreground tree parts show no significant degree of "panning," the object exhibits rather clear outlines rather than smearing or blurring as would be expected when a fast moving object is photographed. Although it is a matter for conjecture, a more likely cause for the imagery is a rather small man made object which was thrown into the air and photographed.

It appears that the photograph is not of the object observed by the witness as concluded from the above analysis. A positive identification of the object observed has not been made. There is no evidence to indicate that any extraterrestrial vehicle was observed.

I am inclosing your negative and prints. We appreciate your interest in our program.

Sincerely,

GEORGE P. FREEMAN, JR.

PHOTO (SMALL MAN MADE OBJ THROW INTO AIR)

Garden City, Mich. 10 April 66

Proposed reply to letter from [REDACTED]

Dear Mr. [REDACTED]

Reference your 10 April 1966 observation and photograph of an alleged unidentified flying object. Although the images appeared genuine (as opposed to photographic phenomena) it was not possible to determine the cause or nature of the object. It was interesting to note; however, that source stated he was approximately 300 feet from the object which was estimated to have a velocity of 800 mph. Although he stated that there was no sound, a sonic boom might well have been expected. Also noteworthy is the fact that although the foreground tree parts show no significant degree of "panning," the object exhibits rather clear outlines rather than smearing or blurring as would be expected when a fast moving object is photographed. Although it is a matter for conjecture, a more likely cause for the imagery is a rather small man made object which was thrown into the air and photographed.

It appears that the photograph is not of the object observed by the witness as concluded from the above analysis. A positive identification of the object observed has not been made. There is no evidence to indicate that any extraterrestrial vehicle was observed.

TDET/UFOD OFFICIAL FILE COPY

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

*NONE OF THESE WAS JUST THICK CLOUDS*

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

*WAS DIMMER THAN A AIRPLANE UNDER THESE CONDITIONS*

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

13. Did the object:

(Circle One for each question)

- |   |                                      |                                     |            |
|---|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time?           | <input checked="" type="radio"/> Yes | No                                  | Don't know |
| b. Suddenly speed up and rush away at any time? | <input checked="" type="radio"/> Yes | No                                  | Don't know |
| c. Break up into parts or explode?              | Yes                                  | <input checked="" type="radio"/> No | Don't know |
| d. Give off smoke?                              | Yes                                  | <input checked="" type="radio"/> No | Don't know |
| e. Change brightness?                           | Yes                                  | <input checked="" type="radio"/> No | Don't know |
| f. Change shape?                                | Yes                                  | <input checked="" type="radio"/> No | Don't know |
| g. Flash or flicker?                            | Yes                                  | <input checked="" type="radio"/> No | Don't know |
| h. Disappear and reappear?                      | Yes                                  | <input checked="" type="radio"/> No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

STOP DIVE STRAIGHT DOWN STOP AND GO STRAIGHT UP  
VERTICALLY

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what  
it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes  No Don't Know. IF you answered YES, then tell what  
in front of: ONLY WHEN IT DISAPPEARED

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color DULL GRAYISH SILVER

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

$\frac{1}{4}$  OF IT

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)  Yes No

IF you answered YES, then what speed would you estimate? ABOUT 800 MPH

21. Do you think you can estimate how far away from you the object was?

(Circle One)  Yes No

IF you answered YES, then how far away would you say it was? 300 FEET

22. Where were you located when you saw the object?  
(Circle One):

- a. inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other \_\_\_\_\_

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- |                 |     |    |                |                                      |    |
|-----------------|-----|----|----------------|--------------------------------------|----|
| a. Eyeglasses   | Yes | No | e. Binoculars  | <input checked="" type="radio"/> Yes | No |
| b. Sun glasses  | Yes | No | f. Telescope   | <input checked="" type="radio"/> Yes | No |
| c. Windshield   | Yes | No | g. Theodolite  | Yes                                  | No |
| d. Window glass | Yes | No | h. Other _____ |                                      |    |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

TDETR  
Office of Record

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
 Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? (Circle One) Yes  No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes  No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [REDACTED] [REDACTED] [REDACTED]  
Last Name First Name Middle Name

ADDRESS [REDACTED] GARDEN CITY 15135 MICHIGAN  
Street City Zone State

TELEPHONE NUMBER [REDACTED] AGE 15 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object? PROJECT BLUE BOOK

13 JULY 1966  
Day Month Year

34. Date you completed this questionnaire:

8      August      1966  
Day      Month      Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

SUBJECT: UFO Sighting, 10 April 1966, Garden City, Michigan

TO:

Mr. [REDACTED]

1. Reference your unidentified observation of 10 April 1966. The negatives which you forwarded to the United States Air Force in Washington, D.C. have been forwarded to the Project Blue Book office at Wright-Patterson AFB, Ohio. In order to perform an analysis on your negatives, further information is needed:

- a. Type and make of camera **KODAK BROWNIE STARMITE II**
- b. Type, focal length, and make of lens
- c. Brand and type of film **KODAK VP 137**
- d. Shutter speed used
- e. Lens opening used; that is, "f" stop
- f. Filters used
- g. Was tripod or solid stand used
- h. Was "panning" used
- i. Exact direction camera was pointing with relation to true **WEST** north, and its angle with respect to the ground.

2. If supplemental information is unobtainable, the minimum camera data required are the type of camera, and the smallest and largest "f" stop and shutterspeed readings of your camera.

3. Upon completion of analysis we will return your negatives, one print and the evaluation on your sighting. We wish to thank you for reporting your observation to the Air Force.

Dear Mr. [REDACTED]

In order to analyze a photograph, it is necessary that we have the original negative and pertinent camera information. Upon completion of the analysis, the negative and a copy of the report will be returned to you.

It is requested that the attached FTD Form 164 be completed as fully as possible and returned with the negative.

Your interest in Air Force matters is appreciated.

Sincerely,

### U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

UNCERTAIN MARCH 1966  
Day Month Year

2. Time of day: 2 30  
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

~~\_\_\_\_\_~~ GARDEN CITY MICH  
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

\_\_\_\_\_ 2 15  
Hours Minutes Seconds

a. Certain  
b. Fairly certain

c. Not very sure  
d. Just a guess

5.1 How was time in sight determined? WATCH

5.2 Was object in sight continuously? Yes X No \_\_\_\_\_

6. What was the condition of the sky?

DAY  
a. Bright SCATTERED  
b. Cloudy CLOUDS

NIGHT  
a. Bright  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you ALL  
b. In back of you THREE  
c. To your right

d. To your left  
e. Overhead NONE  
f. Don't remember OF THESE

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

B.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

B.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight -- pitch dark

- f. Flying over open country?
- g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes  No

25. Did you observe the object through any of the following?

- |                 |     |    |               |             |    |
|-----------------|-----|----|---------------|-------------|----|
| a. Eyeglasses   | Yes | No | e. Binoculars | Yes         | No |
| b. Sun glasses  | Yes | No | f. Telescope  | Yes         | No |
| c. Windshield   | Yes | No | g. Theodolite | Yes         | No |
| d. Window glass | Yes | No | h. Other      | <u>None</u> |    |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 2

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

ONE OBJECT  
ACTUALLY BEHIND  
THE OTHER SEEMED  
TO OBEY THE OTHER

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No MARCH 1966

31. Was anyone else with you at the time you saw the object? (Circle One) Yes  No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes  No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [REDACTED] [REDACTED] [REDACTED]  
Last Name First Name Middle Name

ADDRESS [REDACTED] GARDEN CITY W35 Mich  
City Zone State

TELEPHONE NUMBER [REDACTED] AGE 16 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

\_\_\_\_\_  
Day Month Year

34. Date you completed this questionnaire:

24      MARCH      1966  
Day              Month              Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

ONE OBJECT BLEW UP AND  
APPEARED TO DISINTEGRATE

14. Did the object disappear while you were watching it? If so, how?

Yes faded about 45° speed off toward west  
gaining altitude total time taken about 1-15 seconds

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes  No Don't Know. IF you answered YES, then tell what  
it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes  No Don't Know. IF you answered YES, then tell what  
in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound None

b. Color Dull GRAY

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

about  $\frac{1}{4}$

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes  No

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes  No

IF you answered YES, then how far away would you say it was? 100 1/2 MILES

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other \_\_\_\_\_

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes  No

25. Did you observe the object through any of the following?

- |                 |                           |                                     |               |                           |                                     |
|-----------------|---------------------------|-------------------------------------|---------------|---------------------------|-------------------------------------|
| a. Eyeglasses   | Yes <input type="radio"/> | No <input checked="" type="radio"/> | e. Binoculars | Yes <input type="radio"/> | No <input checked="" type="radio"/> |
| b. Sun glasses  | Yes <input type="radio"/> | No <input checked="" type="radio"/> | f. Telescope  | Yes <input type="radio"/> | No <input checked="" type="radio"/> |
| c. Windshield   | Yes <input type="radio"/> | No <input checked="" type="radio"/> | g. Theodolite | Yes <input type="radio"/> | No <input checked="" type="radio"/> |
| d. Window glass | Yes <input type="radio"/> | No <input checked="" type="radio"/> | h. Other      | <u>NOTHING</u>            |                                     |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A MAGNIFYING GLASS

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 2

### U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?  <u>April 22-24</u> <u>April</u> <u>1966</u> Day                      Month                      Year		2. Time of day: <u>12</u> <u>30</u> Hour                      Minutes  (Circle One):      A.M.      or      P.M.	
3. Time Zone: (Circle One): <u>a. Eastern</u> b. Central c. Mountain d. Pacific e. Other _____		(Circle One): a. Daylight Saving <u>b. Standard</u>	
4. Where were you when you saw the object?  <u>[REDACTED]</u> <u>GARDNER CITY</u> <u>Missouri</u> Nearest Postal Address      City or Town      State or County			
5. How long was object in sight? (Total Duration)      _____ Hours                      Minutes                      Seconds  <u>a. Certain</u> c. Not very sure b. Fairly certain                      d. Just a guess 5.1 How was time in sight determined? <u>BY WATCH</u> 5.2 Was object in sight continuously?      Yes <u>X</u> No _____			
6. What was the condition of the sky?  <u>DAY</u> NIGHT <u>a. Bright</u> a. Bright b. Cloudy                      b. Cloudy			
7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object? (Circle One): a. In front of you <u>d. To your left</u> b. In back of you                      e. Overhead c. To your right                      f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

\_\_\_\_\_

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

13. Did the object:

(Circle One for each question)

- |   |                                      |                          |            |
|---|--------------------------------------|--------------------------|------------|
| a. Appear to stand still at any time?           | Yes                                  | <input type="radio"/> No | Don't know |
| b. Suddenly speed up and rush away at any time? | <input checked="" type="radio"/> Yes | <input type="radio"/> No | Don't know |
| c. Break up into parts or explode?              | Yes                                  | <input type="radio"/> No | Don't know |
| d. Give off smoke?                              | Yes                                  | <input type="radio"/> No | Don't know |
| e. Change brightness?                           | Yes                                  | <input type="radio"/> No | Don't know |
| f. Change shape?                                | Yes                                  | <input type="radio"/> No | Don't know |
| g. Flash or flicker?                            | Yes                                  | <input type="radio"/> No | Don't know |
| h. Disappear and reappear?                      | Yes                                  | <input type="radio"/> No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

YES BY A SUDDEN BURST OF SPEED

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes  No  Don't Know. IF you answered YES, then tell what it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes  No  Don't Know. IF you answered YES, then tell what in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color GREEN

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

$\frac{1}{2}$  OF THE OBJECT

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? NO  
 Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

PHOTO ANALYSIS REPORT

NR 66-52

PAGE 1 OF 2 PAGES

DATE OF REPORT 28 November 1966

SUBJECT UNIDENTIFIED FLYING OBJECT

LOCATION Garden City, Michigan

DATE 10 April 1966

PHOTOGRAPHY

AF \_\_\_\_\_ IR \_\_\_\_\_ QUALITY Poor

P NRS Two negatives (B&W) and two 8x10 prints

1. PURPOSE: This report is in response to a request by Major Quintanilla (TDETR) to determine the most likely cause of the images in subject photography.

2. ANALYSIS: Although the images appeared genuine (as opposed to photographic phenomena) it was not possible to determine the cause or nature of the object. It was interesting to note, however, that source stated he was approximately 300 feet from the object which was estimated to have a velocity of 800 mph. Although he stated that there was no sound, a sonic boom might well have been expected. Also noteworthy is the fact that although the foreground tree parts show no significant degree of "panning", the object exhibits rather clear outlines rather than smearing or blurring as would be expected when a fast moving object is photographed. Although it is a matter for conjecture, a more likely cause for the imagery is a rather small man-made object which was thrown into the air and photographed.

REPLY TO  
ATTN OF: DCO-OP

5 April 1966

SUBJECT: UFO

TO: AFSC (FTD)

The following UFO report is submitted in accordance with AFR 200-2:

a. Description of Object(s):

- (1) Shape: Round like a pie pan.
- (2) Size: Of a silver dollar, increased to a 30 ft diameter as it became closer to observers.
- (3) Color: Blue-Gray
- (4) Number: 1
- (5) Formation: N/A
- (6) Any discernible features or details:
- (7) Tail, trail, or exhaust: Tail like a comet with exhaust.
- (8) Sound: None.
- (9) Other pertinent or unusual features: Had a cone shape top and a flat bottom.

b. Description of Course of Object(s): Direction towards Taft on Highway #9 near Nueces Bay, Corpus Christi.

- (1) What first called the attention of observer(s) to the object(s)?  
Saw object with no wings moving real fast toward him.

- (2) Angle or elevation and aximuth of object(s) when first observed:  
It moved up and down with sudden turns.

[REDACTED]  
[REDACTED]  
Brookville, Indiana 47012

Dear Mr. [REDACTED]

Reference your letter of 5 May 1966 reporting your 12 April observation of an unidentified flying object over the Brookville, Indiana area.

I regret this delay in answering your inquiry, but due to the present heavy workload I am just beginning to catch up with my correspondence.

Your description is consistent with that of an aircraft. All aircraft have a rotating beacon used for anticollision purposes. This beacon is red in color and would definitely give the appearance of a beacon on a police car.

You mentioned the fact that the object appeared to reflect sunlight at midnight. After having contacted Aircraft Specialists at Wright-Patterson AFB, I feel that you could have observed an aircraft that had turned on its landing lights. These landing lights are quite bright and would have given the impression of sun being reflected from its surface.

Thank you for reporting your observation to the Air Force.

Sincerely,

*H*

I

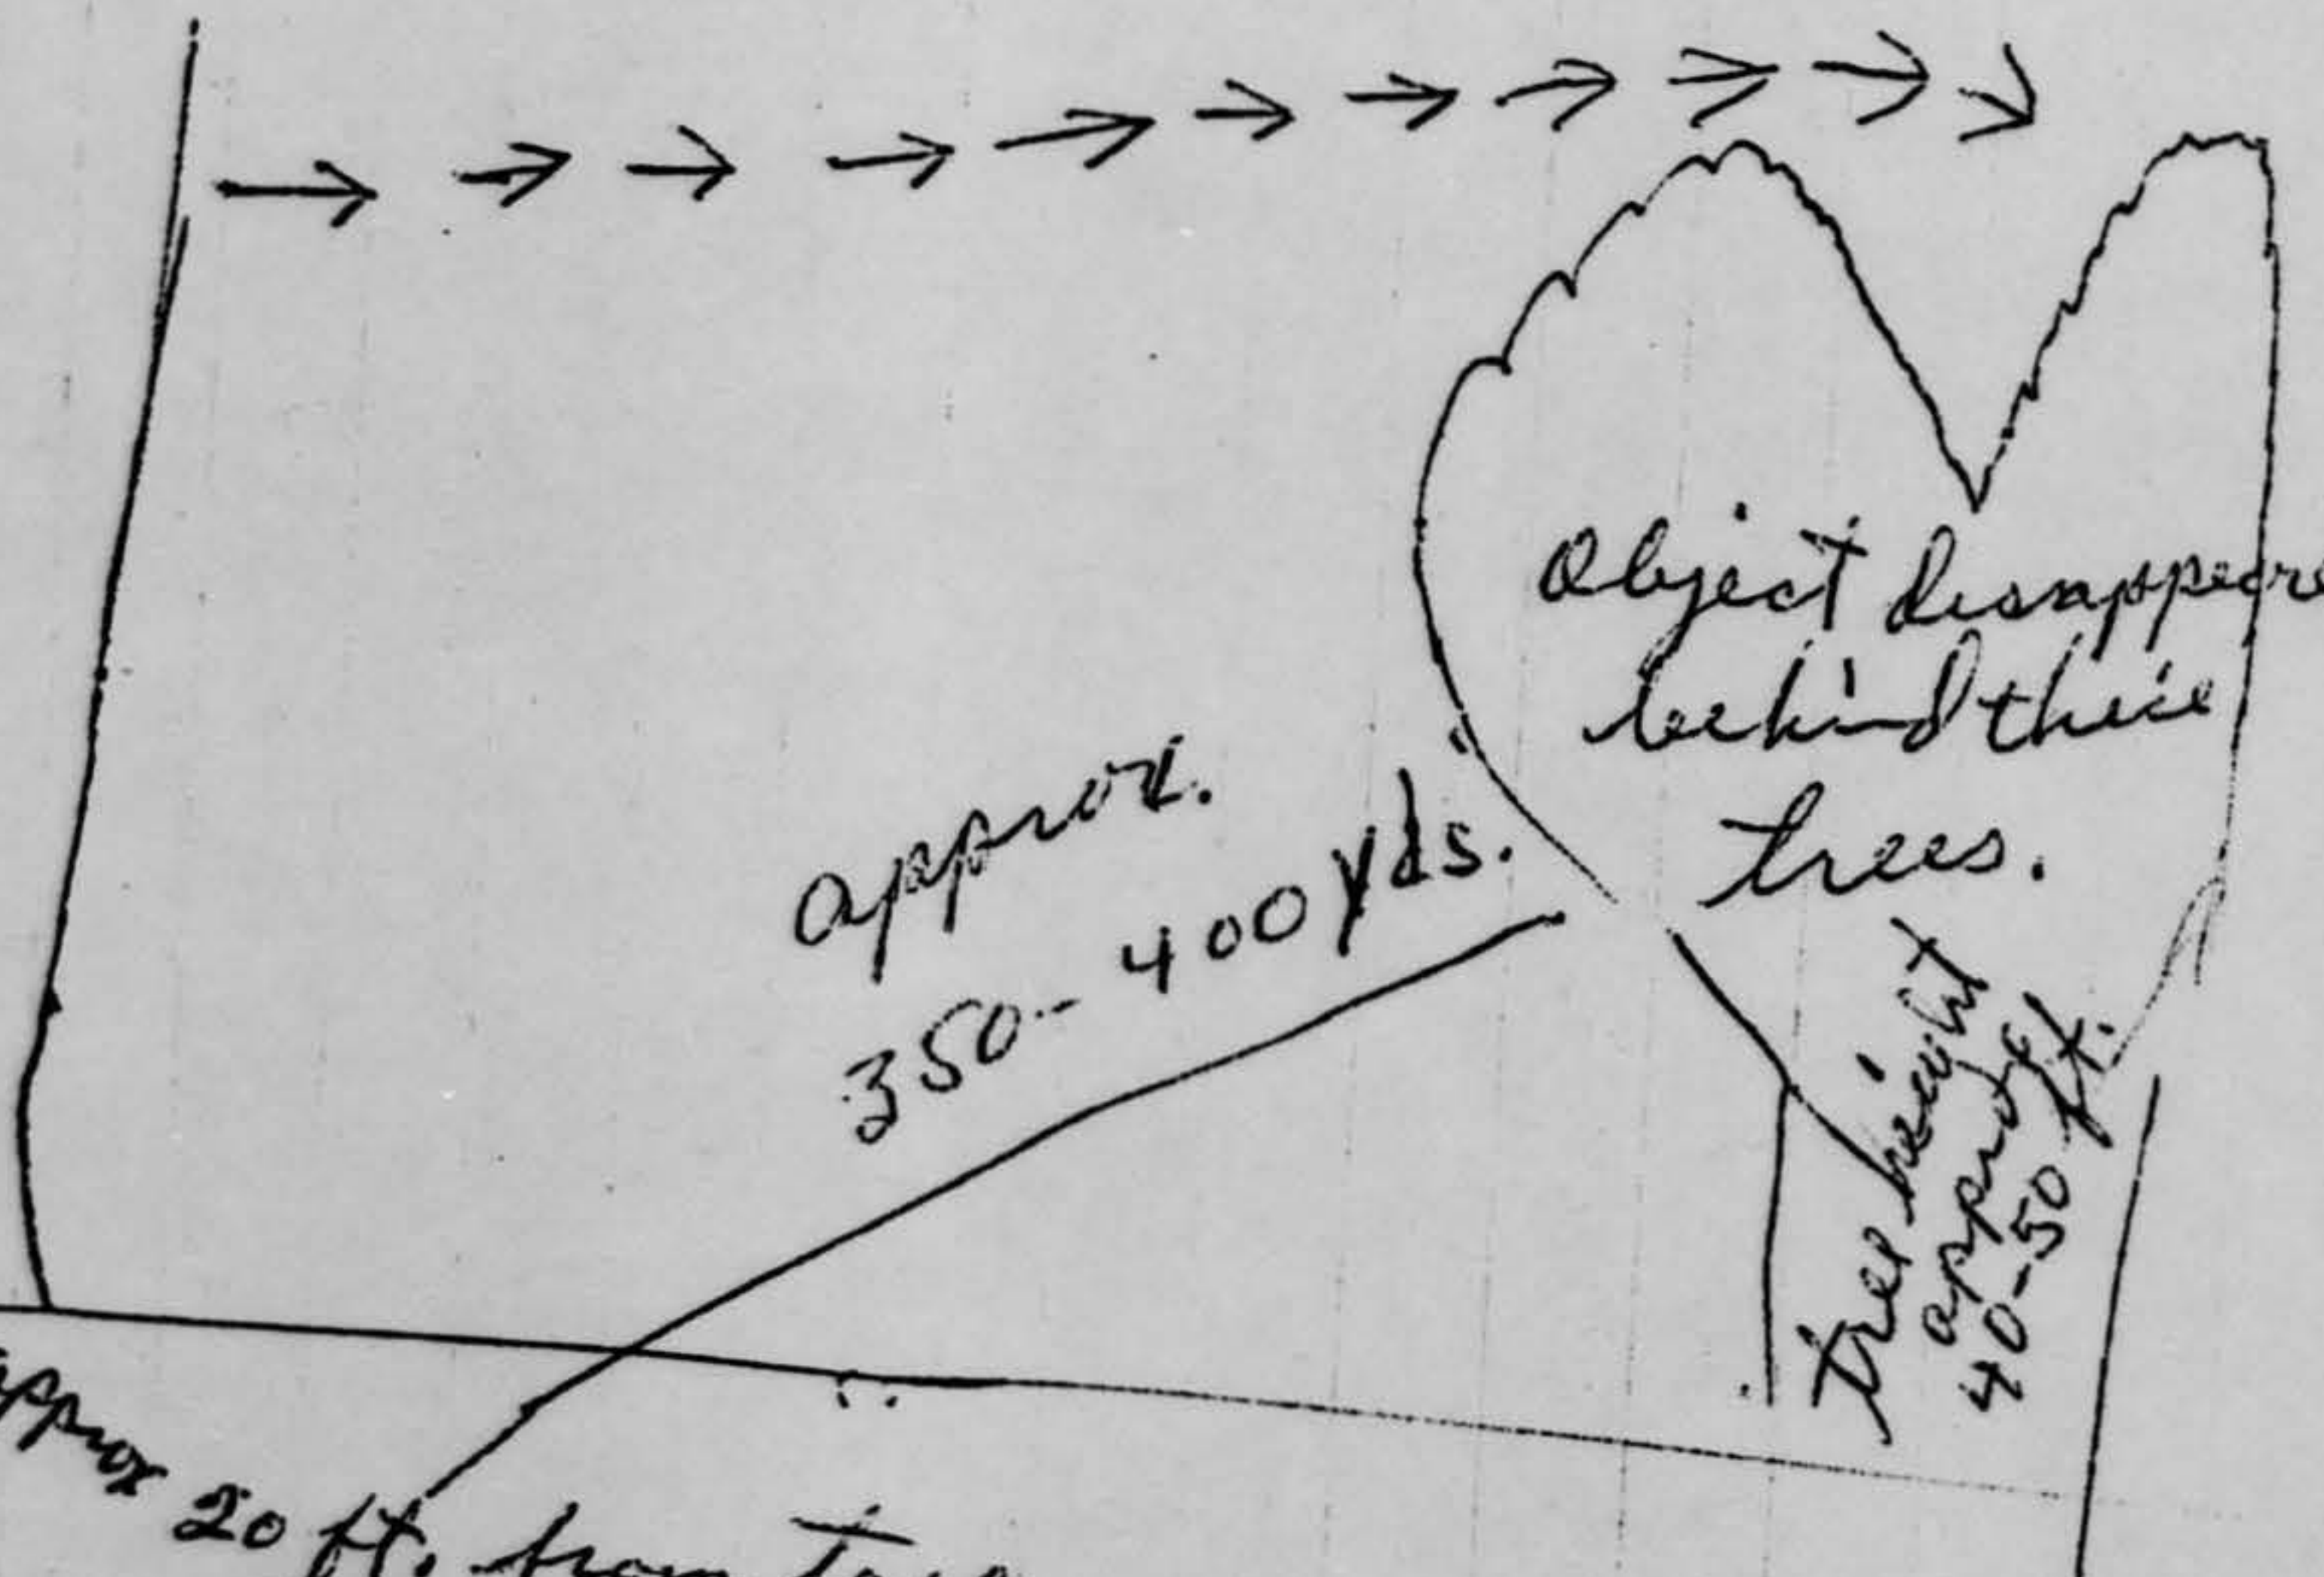

5/12/66

Gentlemen;

After thinking this matter over since April 12th I've decided to write you at approx. 12<sup>05</sup>AM 4/12/66 I saw what I thought to be a satellite except it had a pulsating red light. The red light, it seemed, never went completely off but looked like the red flasher light on a police car. It was traveling at approx.  $40^{\circ}$ - $45^{\circ}$  to the horizon and came from S.W. to N.E. The estimated time I watched this was probably  $3\frac{1}{2}$  min. There's a walnut tree in my garden and it traveled along in parallel with the first

limb on this tree and about  
350<sup>400</sup> yds. ne of this tree it  
went out of sight behind some  
trees that form a vee shape.  
I've discounted this being a  
meteorite as I've seen many  
of these and they only last  
a few seconds. Fires do not  
have flashing red lights, I  
do not have illusions. If I  
knew we had aircraft that  
would reflect sunlight at mid-  
night I wouldn't have bothered  
to write you. I felt I should  
however after all the news recent-  
ly. I do not want you to release  
this letter or any part of it to any-  
one. After you are finished with  
it please destroy same.

time observed approx.  
3 1/2 min

approx 20 ft. from tree  
(Me-X)

tree height  
approx  
40-50 ft.

time observed approx.  
3 1/2 min

III

I will sketch on back of this paper the approx. distances  
If you want more accurate measurements I live 1/2 mile west of Mt. Carmel, Indiana State Route 252

I work Monday through Friday 7 AM - 5 PM. I'm usually home Saturdays and Sundays  
I have no phone.

[REDACTED]

Brookville, Ind.

If you have any information on planes or other reports at this time I sure would like to know of them.

1 June 66

Contact was made with the 17th BW, WP AFB, Ohio, concerning a sighting over Brookville, Indiana. There were no aircraft from Crimson Star in the area. Crimson Star is a refueling track on which the 17th BW oftens participates.

Dear Miss [REDACTED]

Reference your unidentified observation of 26 April 1966.  
The information which we have received is not sufficient  
for evaluation. Request you complete the attached FTD  
Form 164 and return it in the envelope provided.

We wish to thank you for reporting your observation to  
the Air Force.

Sincerely,

  
HECTOR QUINTANILLA, Jr, Major, USAF  
Chief, Project Blue Book

(3) Angle or elevation and azimuth of object(s) upon disappearance:

Same as #2.

(4) Description of flight path and maneuvers of object(s):

Headed north towards Taft in direction of Nueces Bay.

(5) How did the object(s) disappear?

Flew from observers with increased speed.

(6) How long (were) the object(s) visible?

About 15 minutes.

c. Manner of observation:

(1) Use one or any combination of the following items: Ground-visual, air-visual, ground-electronic, air-electronic: Ground-visual with binoculars 7X50

(2) Statement as to optical aids, used and description thereof:

Binoculars 7X50

(3) If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed and home station: N/A

d. Time and Date of Sighting: Between 1830 & 1845 - 4 April 66.

(1) Zulu time-date group of sighting: 0030/0630Z, 04 April 66.

(2) Light conditions: Very clear with the sun shining behind him.

e. Location of Observer: (Latitude and longitude, and/or geographical position) [REDACTED], Corpus Christi, Texas

Estimate of reliability

g. Weather and Winds - Aloft Conditions at Time and Place of Sightings:

(1) Observer(s) account of weather conditions: Clear.

(2) Report from nearest AWS or U. S. Weather Bureau Office of wind direction and velocity in degrees and knots at:

Surface Winds from north at 360<sup>o</sup> 7 knots  
6,000'  
10,000'  
16,000'  
20,000'  
30,000'  
50,000'  
80,000'

(3) Ceiling: Clear.

(4) Visibility: 15 miles.

(5) Amount of cloud cover: None.

(6) Thunderstorms in area and quadrant in which located: None.

(7) Vertical temperature gradient: Dew Point 37<sup>o</sup> F

h. Any other unusual activity or condition: N/A

i. Interception or identification action taken: N/A

j. Location, approximate altitude, and general direction of flight of any air traffic or balloon releases in the area which might possibly account for the sighting: N/A

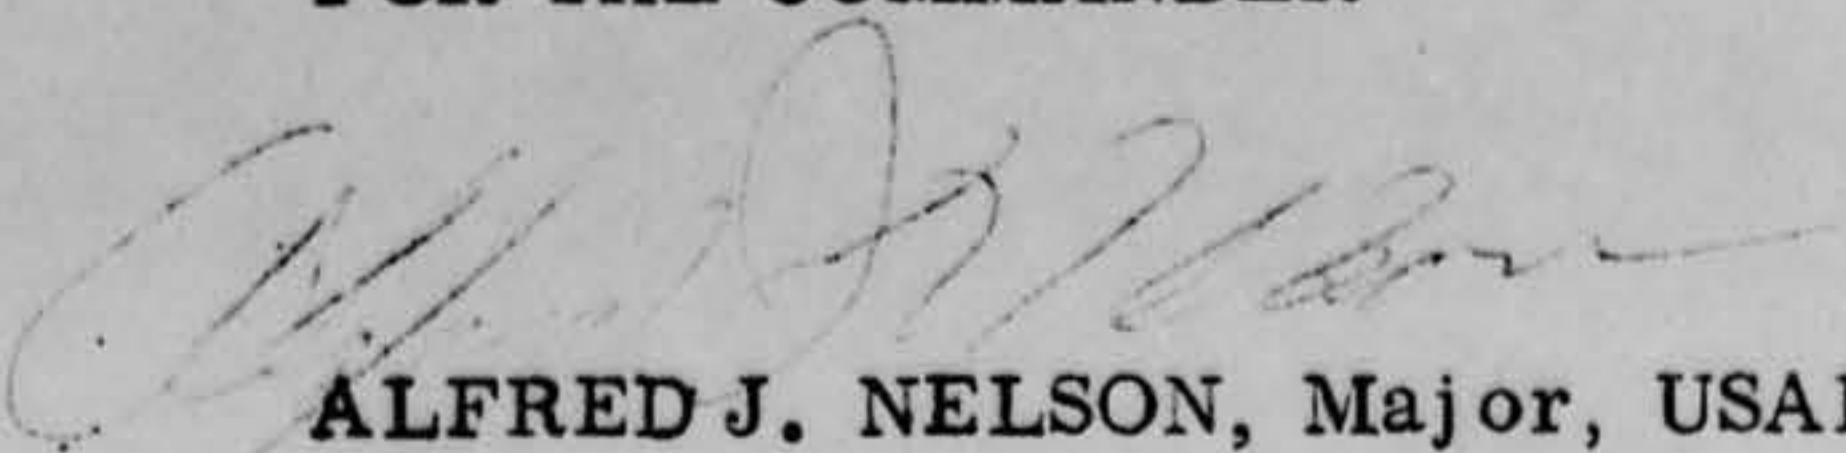

k. Position title and comments of the preparing officer, including preliminary analysis of the possible cause of sighting(s):

2d Lt Santana, OD: Persons making the report seem reliable persons. Lt Commander Hageman from Corpus Christi first received the report as it was relayed to him by FAA supervisor. He then relayed the report to this command post. The general description and movement of the object does not seem to coincide with any type of known aircraft. Aside from that I have no idea of what could have caused the sighting.

l. Existence of physical evidence, such as materials and photographs.

None.
