8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid - *pulsating lights*
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

*very bright*

11.1 Compare brightness to some common object:

*About the same as ten full moons.*

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

13. Did the object:

(Circle One for each question)

- |   |            |           |            |
|---|------------|-----------|------------|
| a. Appear to stand still at any time?           | <u>Yes</u> | No        | Don't know |
| b. Suddenly speed up and rush away at any time? | <u>Yes</u> | No        | Don't know |
| c. Break up into parts or explode?              | Yes        | <u>No</u> | Don't know |
| d. Give off smoke?                              | Yes        | <u>No</u> | Don't know |
| e. Change brightness?                           | <u>Yes</u> | No        | Don't know |
| f. Change shape?                                | Yes        | <u>No</u> | Don't know |
| g. Flash or flicker? - <i>pulsated</i>          | <u>Yes</u> | No        | Don't know |
| h. Disappear and reappear?                      | Yes        | <u>No</u> | Don't know |

14. Did the object disappear while you were watching it? If so, how? *Yes*  
*has accelerated to an unbelievable speed.*

15. Did the object move behind something at any time, particularly a cloud? - *Not out of visible sight.*  
(Circle One):  Yes No Don't Know. IF you answered YES, then tell what it moved behind: *It followed me while I was in an automobile.*

16. Did the object move in front of something at any time, particularly a cloud?  
(Circle One): Yes  No Don't Know. IF you answered YES, then tell what in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:  
a. Sound *There was absolutely no sound.*  
b. Color *Varied from Orange - Red - Blue - Green back to Orange*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?  
*Fractional part, very little of the actual ~~object~~ object would have been covered.*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

*Pulsated - the craft was definitely structured.*

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes and  No

*The object went out of sight  
in less than 5 seconds.*

IF you answered YES, then what speed would you estimate?

*100 miles per second*

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes No

IF you answered YES, then how far away would you say it was?

*Vertical Distance 50 ft.  
Horizontal Distance 100 to 200 ft.*

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b.  In a car *> both*

c.  Outdoors

d. In an airplane (type)

e. At sea

f. Other \_\_\_\_\_

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c.  In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? *60-120* miles per hour. *Varied*

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other \_\_\_\_\_

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*Nothing I have ever seen looked like the object which I witnessed.  Domed shaped pinwheel with pulsating patterns of lights.*

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? ONE

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

The object pulsed with bottom looking like a couple of small dome shaped pods. The object also tilted and made certain jerky movements.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? (Circle One) Yes  No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes  No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [Redacted] [Redacted] [Redacted]  
Last Name First Name Middle Name

ADDRESS [Redacted] Greenville  N.C.  
Street City Zone State

TELEPHONE NUMBER NONE AGE 22 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

*I have had some experience in photography as well as the Civil Air Patrol, I know most all types of conventional air craft; commercial, military, and privately owned planes. I also know the swamp gas and St. Elmo's Fire which is sometimes common in the area of Eastern N.C.*

33. When and to whom did you report that you had seen the object? No ONE - I was too scared

\_\_\_\_\_  
Day Month Year

*at first. Then I realized no one would believe me*

34. Date you completed this questionnaire: Monday 1<sup>st</sup> August -1966  
 Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Sir:

I know my recent encounter was with an object or craft not of natural origin. I also believe if it had a plane or test ~~or~~ craft that it would have not played funny little games with me. This object seemed to be observing me for its own personal interest.

The object can be suggested off as a natural phenomena or a misinterpreted air craft. But this was clearly an object that was intelligently guided and propelled by a power source unknown to our technology.

I would never insult the opinion of your organization, but I know what I saw was no natural happening. The next day ~~—~~ two people in Greensboro and High Point witnessed U.F.O. similar to the one I saw. It seems highly unlikely that the physical description would so closely correlate with mine, unless the object was of the same origin.

These ships or crafts could possibly be interplanetary vehicles visiting us on friendly bases. Why would they want to destroy us when they are many times more advanced than us.

TO: FTD (TD-ETR)  
Wright-Patterson AFB, Ohio 45433

1. An attempt to reach the photographer, Mr. [REDACTED], has failed as he is on leave until 15 September 1966. Personnel at the Eliamna, Alaska Flight Service do not know where he can be reached.
2. A letter has been dispatched to [REDACTED] requesting the required information, by telephone, upon his return.

FOR THE COMMANDER

A handwritten signature in cursive script, reading "Thomas B. Johnson", is written over the typed name.

THOMAS B. JOHNSON, Colonel, USAF  
ACS/Intelligence

This of course is only an assumption by me, which means nothing from your viewpoint.

I would like to summarize my encounter again.

I was traveling from Greensville to Vanceboro, N.C. I saw a funny red glare in a wooded area, I stopped the car to see if it was a fire. (The area was extremely dry.) I smelled no smoke heard no noise or crackling of fires. I returned to my car and continued my trip.

I then noticed a strange red glare in my rear view mirror. I immediately increased my speed to 90 then 120 M.P.H. Then came to a full stop in trees to 400 feet. The object stopped and hovered over my car. I left the car and took under the rear part. The object was about 50 feet of the road 100 yds. back. The basic structure didn't change just the arrangement of lights did - pulsating and ~~changing~~ <sup>changing</sup> position. The craft wobbled on its ~~axis~~ <sup>axis</sup> after making absolutely no sound. It then approached the car (about 100 feet away) and finally rose and vanished among the stars in less than 5 seconds. I was so frightened I couldn't call or tell anyone. I returned to ~~by~~ my place and thought it over. I told myself no one would believe me so I kept it silent except my letter to you.

P.S.

Sir: would you please reply to my report and to my comments if it is possible. Thanks again

Sincerely,

~~\_\_\_\_\_~~  
Greenville, N.C.

Visible for about 10 minutes at close range.

EAST CAROLINA COLLEGE  
GREENVILLE, N. C.

July 27, 1966

Nector Quintanilla, Jr. Major, U.S.A.F.  
Wright Patterson A.F.B.  
Dayton, Ohio

Dear Sir:

On the night of July 24, 1966 a strange  
an unexplained event happened to me. While driving  
between Greenville and Vanceboro, N.C. I encountered  
a large glowing disk-shaped object or vehicle. About  
six miles east of Greenville I noticed a strange  
glow coming from a wooded area to my left.  
The weather has been dry so I thought it might  
be a forest fire, I stopped my car to check it  
out. There was no smell of smoke but the  
bright glowing orange-red color continued, it  
was fascinating, but I soon lost interest and  
returned to my car and continued my trip.

Two miles down the road, I saw the same  
vivid light in my rear view mirror. This scared  
the hell out of me, so I increased my speed to  
90 M.P.H. the glow continued to follow me. This  
continued for 10 miles; not gaining, not losing any  
distance. At one point I was running 120 M.P.H.

the object continued pursuit. (I slammed on my brakes and stopped in about 3-400 feet. It would be highly unlikely for any type of conventional aircraft to make such an ~~abrupt~~ abrupt stop, even a helicopter.)

I stepped from my car and hid under the trunk between the back tires. The object hovered about 50 feet over the road about 100 yd. behind me. Finally I emerged and got a better look at the object, it was large, about 100 feet in diameter with a dome shape top. The object changed colors in a pulsating manner, from orange to red to blue to green. It rock on its axis without making a sound of any kind.

The object approached my car and came within 100 feet of me. At this distance I could get an extremely good look at the craft.

It was spherical with a meshy type of glow. like a neon light behind a mosquito net. The craft emitted no heat no sound what so ever.

The object hovered at close range for about 2 minutes and rose and disappeared among the stars. The ~~acceleration~~ <sup>acceleration</sup> of the object was ungodly, the goddamn vanished in

EAST CAROLINA COLLEGE  
GREENVILLE, N. C.

in less than five seconds.

I know all types of crafts, commercial and military. This was no plane, helicopter, satellite, or natural happening of any kind. It was a structured craft defying the laws of gravity. This experience happened about 2:00 A.M. on the morning of the 25<sup>th</sup>.

I am a geography major at East Carolina College. I have a sound reputation and not likely to write something that didn't actually happen to me. Will your department please reply to my experience at once.

Sincerely,

  
Age 22

  
Greenville, North Carolina

Sir:

Please reply as soon as possible. I  
can't sleep at night with the concern of the  
object.

REPLY TO  
ATTN OF:

ALNT

SUBJECT:

UFO Sighting, 20 July 1966

TO:

AFSC (FTD)  
Wright-Patterson AFB, Ohio 45433

1. The UFO was first sighted at Nondalton, Alaska, and observed by Mr. [REDACTED]. The object headed south and was observed at Iliamna, Alaska, by [REDACTED], a passenger in [REDACTED] airplane. Particulars are provided in paragraph 2.

2. The following information is submitted in accordance with AFR 200-2.

a. Description of the object:

- (1) Round.
- (2) Approximately 8 ft. in diameter.
- (3) Transparent, silvery.
- (4) One.
- (5) N/A.
- (6) Drooping.
- (7) Able to hover, move against the wind, climb and descend at the same rate as a Cessna 180.
- (8) None.
- (9) None.

b. Description of Course of Object:

- (1) Visual sighting.
- (2) None at first; second sighting at Iliamna was 27 degrees between  $3\frac{1}{2}$  to 4 miles.
- (3) Observers do not know.
- (4) From Nondalton to Iliamna, 18 miles south. Mr. [REDACTED] said

send 1645

his aircraft was moving at 100 MPH and the object was moving away from him. The Cessna aircraft climbed 500 feet to 1500 feet per minute and could not catch the object.

(5) the object was not seen to disappear as the aircraft were landed before visual contact was lost.

(6) 10 minutes at Nondalton by pilot Smith and by people on the ground for 30 minutes; by numerous people at Iliamna for 30 minutes.

c. Manner of Observation:

(1) Ground visual, air visual.

(2) Binoculars.

(3) Cessna 5892 Tango from Nondalton; Cessna 180 from Iliamna. (Owner, Mr. Olsen).

d. Time and Date of Sighting:

(1) 21/0627Z.

(2) Daylight; bright and clear.

e. Location of the Observers:

(1) Nondalton, Alaska (6001 N 15450 W).

(2) Iliamna, Alaska (5945 N 15455 W).

f. Identifying Information on Observers:

(1) Mr. [REDACTED] Anchorage, Alaska; professional pilot with 12 years experience.

(2) [REDACTED] Iliamna Flight Service Station, Chief of Flight Service.

g. Weather and Winds:

(1) Surface winds calm.

6,000 feet 140 degrees at 08 knots.  
10,000 feet 120 degrees at 13 knots.  
16,000 feet 120 degrees at 18 knots.  
20,000 feet 120 degrees at 26 knots.  
30,000 feet 120 degrees at 43 knots.  
50,000 feet 120 degrees at 08 knots.  
80,000 feet calm.

(2) General weather was clear with unlimited visibility.

h. None.

i. None.

j. None.

K. Analysis of the information, as stated above, points towards the possibility of the object being a balloon, possibly weather. All Agencies in Alaska with this function have been contacted without a claimant for a balloon in this vicinity.

(1) Existence of Physical Evidence:

(1) M██████████ took 35mm slides of the object. A strip of this film is attached. Some scratches are on the film but do not obstruct the object. The analysis value of this film is negligible.

FOR THE COMMANDER

THOMAS B. JOHNSON, Colonel, USAF  
ACS/INTELLIGENCE

1 Atch  
35mm film

This case contains 13, 8"x10"  
photos and 5, 8" strips of  
motion picture film.
