1. DATE - TIME GROUP 25 Jan 67 ^{26/0320} 20/1420Z	2. LOCATION Morrisville, Penn. (4 witnesses)
3. SOURCE Civilian	10. CONCLUSION AIRCRAFT SATELLITE (POSSIBLE)
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION 3-5 minutes	11. BRIEF SUMMARY AND ANALYSIS Observer stated that object appeared as a light with some sort of a tail that was very brighter. Observer stated that it appeared to be brighter than a star. It had no visible sides. The color was intense, bright light, (Blue-White) and strange. Object appeared to be moving in a northwest to north direction.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE Northwest-North	
8. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	

It didn't even resemble a plane or jet.

I can't say how fast it went as it seemed to stand still or move at a slow rate of speed, then increase its speed, all in a few minutes.

The color of this bright, intense light is something very different, I do feel it was something "special".

A plane can not stand still in mid-air and disappear that fast before your eyes. Stars are not that large, the object was too well handled.

This report is done to the best of my knowledge. I hope I've been some kind of help to you.

 Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I was coming home from a movie I happened to notice a strange object in the sky to my left. I called it to everyone's attention and they saw it directly in front of us. We pulled the car to the side of the road and got out. Meanwhile the strange object had moved to our right and seemed to stand still. We stood there looking up, the first thing that came to our minds was it must be a "Flying Saucer". It gave us an odd feeling. It was so different, something we had never seen before. Then it dashed (like a flash) off into space.

I felt it should be reported to someone so we called Millam from our station. We kept this quiet. I can't seem to get it out of my mind. I'm very much interested in this. I shall be waiting for some kind of a reply from you.

I do know that it was not a plane or a shooting star. We looked for remaining or fading lights as on a plane then we were none. (over)
