The light was brighter than stars and passed behind a cloud. At some time during the sighting the object was in the south eastern sky. The object passed out of sight gradually to the south. Since page 5 of the 164 was blank an uncertainty exists as to the elevation of the object, however, the TMA gives the elevation as 35 degrees.

1. Reference your message, unclassified XPCP 00194 SEP 67, subject unidentified flying object report received at Lowry AFB 2 Sep 67. Request you comply with all aspects of the basic reporting format as outlined in AFR 80-17 and AFR 80-17A. In particular, we would appreciate comments from the preparing officer as to what stimulus might have possibly caused the sighting. Also, in the comments section, it is helpful to our analysts if you would include those areas that you have checked, such as:

a. RADAR PERSONNEL - whether they had any identified or unidentified blips at the time of the observation.

b. CONTROL TOWER PERSONNEL - statement as to whether the control tower operator observed anything unusual at the time of the observation.

c. LOCAL LAW ENFORCEMENT AGENCIES - often, they can provide information as to the reliability of the witness. Also, they may have received a UFO report, or additional information that may provide you with the stimulus of the UFO observation.

2. It is important that you provide this information in your report so that our office does not duplicate your investigation.

3. Your report, paragraph B2 and B3, Description of Course, stated 35 degrees. Was this the azimuth or elevation of the object?

1. Attempts are made to comply with all provisions of AFR 80-17 and -17A. The majority of sightings reported to this base are received from off-base callers who are unable to furnish complete information. Buckley ANG Base is always contacted for corroboration of information; however, due to the small number of radar and control tower personnel at Buckley, the assistance rendered in this area is extremely limited. In the past, law enforcement agencies have not been of material assistance in determining reliability of witnesses.

2. Reference paragraph 3, your letter, the reading of 35° referred to elevation of the object.

3. This office will continue its efforts to furnish all possible information on each sighting reported.

4. A copy of our UFO report form is attached for your information.

Dear Major:

In reference to your request for comments on the observation of Mrs. Catherine Manter made on 2 September 1967, at Boulder, Colorado, I would say that the evidence clearly points to the planet, Saturn. The "dead giveaway", I believe, is given in item 26: "A star, but with no rays". The planet Saturn would be quite bright, but would not twinkle as stars do.

The fact that the object was in view for one hour and forty-five minutes, appeared as a "star but with no rays" and that the night was essentially clear, leads me to consider Saturn to be the stimulus for this report. I discount the statement that the object moved in several directions since nothing is said of the magnitude of this motion, and could easily be ascribed to the well-known illusion which arises from watching a point source of light for a protracted time.

The report has several minor inconsistencies in it but, all in all, there is nothing in the report that would seriously contradict the evaluation of the planet Saturn. The statement that the elevation was 35° , whereas Saturn was approximately 20° elevation is, I believe, another example of the general tendency of people to estimate horizontal angles greater than they actually prove to be.

Sincerely yours,

J. Allen Hynek

COLONEL MANATT,

I'VE JUST RECEIVED YOUR LETTER TODAY. I'LL
BE GLAD TO ANSWER YOUR QUESTION.

QUESTION: WHY DIDN'T YOUR (MY) GIRLFRIEND'S MOTH-
ER AND HER SISTERS ALSO SEE THE UFO?

ANSWER: DEBBIE'S MOTHER WAS PAYING MORE ATTENTION
TO DRIVING THAN TO WHAT WAS IN THE SKY. IF SHE DID
NOTICED SHE PROBRABLY THOUGHT IT WAS A JET. HER (DEB-
BIE) SISTERS WERE FOOLING OR PLAYING AROUND IN THE
CAR. THEY DIDN'T EVEN NOTICE IT.

WHEN EVER THERE'S A CLEAR NIGHT (THATS WHEN I
SPOT THEM MOST OF THE TIME) I LOOK TOWAEDS THE SKY.
MY BOYFRIEND (GARY C.) DOES THE SAME THING, TOO.

YOURS TRUELY,

Location: Town of Henrietta on Jefferson Rd.

Time: Between 6 and 7:30 P.M. The sun was still up (about ready to go down) and the moon was also out.

Weather: Sunny and chilly. Few clouds were in sight. I was in a car with my girlfriend and her mother and sisters. They were ^{talking me} going home when I first ~~noticed~~ ^{noticed} it. We were returning from a park. The speed of the car was 45 to 55 M.P.H.

Position of object: It was in front of me at first. Then ^{on the left} they we turned right & could still see it. (It got the attention of my girlfriend, & she also seen it.) Then some trees were in the way. After a while I was able to see it again. It wasn't beside us any more. It was out (away) from us. The (when) last time I saw it, it seemed to bank right. I moved very slow.

(2)

Description: It look like a yard stick
* held in the air on top of a
two story school building. When
it banked right ^(IT DID NOT TURN) it looked like it
had a oval shape to it.

Color: It looked like what a jet's white ex-
haust would look like behind a jet but it
kept its distance the same until it was a
head of us then it got smaller.

(It is the one that sent in ^{the} five objects
in four sightings of August 25, 1967)

able to say is it looked like a white streak
in the sky. She might not remember the incident.

I have a magazine that's put out by the
Dell Company. The title is Flying Saucers U.S.A.

O. Reporter & it has a section about people
that have to do with U. S. & S. F. in
is about ~~the~~ Dr. O. Laro Pontes who
predicts a U. S. & S. F. wave (big) this month.
Should this have any effect on my sightings.

Question 30:

The objects in the Washington D.C. area were also traveling South. They were of similar size and their speed appeared to be extremely fast. They had a similar formation - more of a cross or X shape though. Length of time under observation was around 7 or 8 seconds - instead of moving out of sight they made a 90° turn (toward ground) and disappeared from sight.

They were not white - an amber or yellow color. Height seemed to be similar to the ones in Colorado - if the size was close.

ONE OBJECT THAT SEEMED TO CHANGE
INTO ANOTHER

On the night of Sept. 28 at 8:00 P.M. Three of us were sitting on the bank of the Colorado River, we were facing dead west. The night was very clear and bright, we could see the North Star to our right. The moon was directly behind us but had not risen yet. We were at the 33 mile marker, 33 miles below Hoover Dam, 8 miles below Eldorado Canyon. Then directly across the river and at a distance of about two miles this bright object suddenly appeared, we all saw it at the same time. It was as clear and bright as a television screen. The object was silver white, extremely clear and bright, it had a small bright light in the center that shined like a diamond. The object was exactly square. My first thought was to get the binoculars, they were in my boat which was 50 feet away. I got the glasses, we all took turns watching. The object remained stationary and bright for about five minutes, then it seemed to give off a blue green haze that came from the lower left side of the object. The haze kept becoming more bright and formed into an object about the size of the moon. As this was formed the bright white object seemed to slowly disappear, but the blue green object remained and became very bright. We could see the reflection in the river, it looked like the moon. Then from the lower right side of the object a bright beam of light shined down toward the ground, in the binoculars we could plainly see moving smoke or dust in the beam, also there was some kind of light coming up from the ground at this time. This object remained stationary and bright for about 20 minutes then very slowly it faded away. Our estimate of the distance may not be accurate, but it definitely was under five miles as there was a high mountain range about five miles away, and it was definitely between us and the mountain.

The following day when we returned to Las Vegas I reported the incident to Nellis A.F.B. Later I talked to many people in Las Vegas who had seen the same object the same nite at the same time, but they had seen it higher in the sky and moving slowly at a westerly direction. I was so interested in the object that the following week I went back to the area in the daytime and hiked in two miles to see if I could find any evidence of any thing on the ground. We did not make a good search, we found nothing, but we did see areas where you could hide a battleship.

In August of 1965 I was fishing 100 miles east of Las Vegas, I was with [REDACTED]. At about three in the morning on a bright moonlight night we were both looking up at two extremely bright stars, suddenly one of them started slowly moving to the right, then it came straight down, very slowly, when it neared the ground it went to the left and slowly went alongside the lake. The object was very bright, lots of color, blue, green, orange. We had binoculars and took turn watching it for about five minutes, then it went behind a low mountain and seemed to land there. NNE of where we were. About an hour later we saw an enormous explosion which looked as if it could be an atomic blast, this seemed to be about 10 miles away, due east which would be near Pierces Ferry, Very remote country. When I returned to Las Vegas I phoned the newspaper and told them what I had seen and I asked if any planes had been reported missing as I thought the explosion could have been a plane crash. There had been none.

Exactly two weeks later in the same spot we saw three more U.F.O.S. Two were silver and one was the color of the first one seen and it followed the same general pattern except it came down farther to the east, but it seemed to land where the first one landed. The silver ones did not land and flew from west to east. We were in an area where many planes flew over we could always hear thair motors and they were clearly different.

1. All were seen on a clear moonlight nite.
2. All were seen in totally remote country.
3. They could not have been an airplane.
4. They were not a falling object.

These last two sightings were on Lake Mead in the area past Ice Burg Canyon in a spot called Rattle Snake Cove. I would gladly take someone in and spend the night with them. Most fishermen who have spent nights on the lake have seen similar objects.
