Subject: Report of U.F.O.

Date: 6/1/95

Ref: IRIS 149 31/12/94

See (in)

Duty Sergeant :-

In accordance with Standing Order 36-81.

I must report as follows :-

- A) About 0330hrs Saturday 31st December 1994 until 0445hrs that day.
- B) One object. As the object ^{was} closest to the informant it appeared to be a ball shape with lights around its outside. These lights were flashing on and off and were coloured red, green and orange.
- C) In attic of home address, stationary, Map ref. 6239 2198
- D) Observed with naked eye and binoculars.
- E) The object was seen moving North from South having come from the sea.
- F) 45°
- G) Not known
- H) Nil.
- J) Fine, dry, clear night, no cloud but cold.
- K) None, the object moved very slowly across residential area.
- L) Police - 999.
- M) Section 40 Frinton-on-sea, Essex.
- N) None known.
- O) Wife and daughter of informant. The object was seen by myself a great distance from where the informant had just seen it. I could not make out a shape, only saw red, green and amber flashing lights. It appeared to be moving very slowly.
- P) Reported to Police at 0424hrs 31/12/94.
Standing order attached.

REPORT OF UNIDENTIFIED FLYING OBJECT

A. DATE, TIME AND DURATION OF SIGHTING

Saturday 31st December, 1994 @ 0645 hrs. Duration approx 30-45 seconds.

B. DESCRIPTION OF OBJECT

Number of objects - 2, described as bright white lights which were seen to move quickly, vertically before hovering and disappearing.

C. EXACT POSITION OF OBSERVER

At eastern end of the larger of the two waterways at Hula Moss, Gretna, Berwickshire. Observer was out of doors and stationary. LANDRAIGER SPAN 14 MR (705490)

D. HOW OBSERVED

With both naked eye and binoculars.

F. DIRECTION IN WHICH OBJECT WAS FIRST SEEN

In an 11 o'clock position, towards Darrington Little Law.

F. APPROXIMATE ELEVATION OF OBJECT

Estimated height only

G. DISTANCE OF OBJECT FROM OBSERVER

Described as being beyond Darrington Little Law at " 11 o'clock position

H. MOVEMENTS OF OBJECT

See Section B.

J. WEATHER CONDITIONS

Dark at the time but with moving clouds. Snow showers reported in area.

K. NEARBY OBJECTS

No other objects in immediate vicinity.

L. TO WHOM REPORTED

Lothian and Borders Police, Police Station, Duns.

1. At 1215 hrs we received a call from Section 40 who reported a "UFO" sighting to West Drayton earlier this week; West Drayton told him to report the sighting to the MOD.
2. At 1705 hrs on Wednesday 21 December in Suffolk outside his home he saw a very bright light which was at very high altitude at high speed. It was pulsating and moving in a zigzag manner; the night was very clear and frosty and the sighting lasted 5 minutes. Section 40 brother also witnessed the sighting.
3. I advised Section 40 of our interest in such sightings and told him that if an explanation was forthcoming, that I would let him know.
4. His details are as follows:

Unident. Flying Object Report!

Not really

Reported by **Section 40**

Whilst at a night clay pigeon shoot at Whiston Lads Club, 2nm from Seelby, he saw a large, heavy jet etc pass overhead - possibly a Tomado. The jet was heading NE, and at low level.

It was followed after approx 5 secs by a round orange light, after the jet had passed, the light continued and overtook the jet at high speed. The light vanished to the NE.

He has a frequent visit to airshows and the like, since the following year he appears to be an etc, and was seen by several other experienced pilots, who were also unable to account for it.

He is hoping that somebody might be able to inform him of what it was. He was not asked to make a low flying complaint.

As this is a low flying aircraft, but complaints cell, or a relevant etc. can't be made!

NOA

As this, in my opinion, is not a "UFO" report, neither is it a low flying complaint - even though what was seen was more than likely a military jet(s) or manoeuvres, I do not intend to undertake further action nor deem it necessary to write from "The UFO office" nor would be puzzled to receive a letter from the "UFO office" and neither a low flying complaint cell as he did not make a complaint.

Dear **Section 40**

In writing, on behalf of the Officer Commanding, to acknowledge your telephone call of 19 December 1994 regarding the sighting aircraft and lights you saw in the sky at Wistow. I am sure that the sighting must have been very disconcerting especially as you do not know if the lights belong to aircraft or not.

Such sightings are dealt with by a department within the Air Traffic Control Centre at Westcott which has been set up to investigate such incidents as you described. The information is then passed on to the Ministry of Defence, so you may well receive a reply in the near future.

Once again, I thank you for your concern and for reporting the sighting.

Yours sincerely

F I L E N O T E

1. Section 40 called AB on 19 Dec 94 (pm).

2. On Wednesday 14 December at 1900 hours in the Hope Valley Section 40 saw a vivid green ball which hovered then flew away in a dead straight line and there did not seem to be a period of acceleration. There was no apparent sound. Section 40 said that he is used to Tornado aircraft low flying in the area and it definitely was not one of them. In relation to the apparent lack of acceleration he thought that an ordinary aircraft could not physically perform the manoeuvre this craft seemed to.

20 Dec 94

F I L E N O T E

1. At 1500 hrs received phone call from Section 40 of Forrest Hill. At 0330 hrs on 15 December a craft with 3 green lights in a triangular formation hovered for 1-2 minutes over his house. It made a loud humming/screeching noise. The craft hovered at 300-400 ft in the air and then, rather than the craft moving away he said the lights just seemed to go out. The evening was very clear.
2. Did not accept that it could have been a helicopter. He said he would know a helicopter, and besides he did not feel the downdraft. I pointed out that he may not feel one if the craft was 400 ft in the air. Section 40 said his friend also witnessed the event but he did not want his name revealed to the MOD.
3. The most obvious possible explanation was that it may have been a civil/police helicopter.
4. Section 40 details are as follows:
 Section 40
 Forrest Hill
 SE23
 Section 40
5. I said I would get in touch with him if an explanation was forthcoming.

ENCLOSURE
194

REPORT OF AN UNIDENTIFIED FLYING OBJECT

17 Dec 94, 7pm
"Quite a while"

1. Date, Time and Duration of Sighting	
2. Description of Object (No of objects, size, shape, colour, brightness)	One "Bus sized, round shaped object with bright lights of many colours".
3. Location (indoor/outdoor stationary/moving)	Outdoors, moving: Sighted at Carmen, Manitoba, Canada.
4. How observed (naked eye, binoculars, other optical device, still or moving)	Naked eye while "crop dusting". Object moved vertically up in front of pilot
5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Not known
6. Angle of Sight (Estimated heights are unreliable)	90° vertical upwards then down to ground and up again!
7. Distance (By reference to a known landmark)	Informants were very close to object.
8. Movements (Changes in 5,6 & 7 may be of more use than estimates of course and speed)	Vertical movements
9. Met conditions during observations (Moving cloud, haze, mist, etc)	Cold, clear night, visibility some 20 miles!
10. Nearby objects (Telephone lines, high voltage lines reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or Radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	None specified
11. To whom reported (Police, military, press, etc)	MOD Air Force Operations Room.

12. Name and Address of Informant Name Address	Section 40 [Redacted]
13. Background of informant that may be volunteered	Pilots (Crop Dusters)
14. Other Witnesses	Section 40 [Redacted] <u>Same Address</u>
15. Date, Time of Receipt	180118Z Dec 94
16. Any Unusual Meteorological Conditions	None
17. Remarks	This was an unusual call at such an early hour. The caller had been given AFOR tel no by the Canadian National Defence. <u>No-one apparently believed them</u> and were not willing to assist them in any form. This includes the USA authorities. The caller was very excited and had captured the event on video camcorder.

MODUK AIR FOR AFDO. SUBJ UFO REPORT RECEIVED FROM Section 40
Section 40 HEACHAM, KINGS LYNN. Section 40 TO DUTY OPS OFF
AT RAF MARHAM. REPORT CONSISTS OF 3 SIGHTINGS. THE MOST RECENT OF
WHICH PREEMPTED THIS REPORT. FIRST SIGHTING WAS ON A SATURDAY IN
JUN 93 AT 2355HRS. THE OBJECT LANDED ON HER BUNGALOW AND MADE A
TERRIBLE NOISE SIMILAR TO THE SOUND OF A VERY LARGE DRILL TRYING TO
GET THROUGH THE ROOF. THE POLICE WERE CALLED AND MADE A REPORT.
SECOND SIGHTING WAS A SATURDAY IN JUN 94 AT 2355 HRS. SHE SAW AN
OVAL SHAPE WITH HUNDREDS OF WHITE SPARKLING LIGHTS ON THE CRAFT. IT
APPROACHED FROM NORWICH AT A HT OF 150FT, CAME DOWN THE ROAD TO
AN AREA OF TALL TREES AND DISAPPEARED INTO THE TREES WITH A LOUD
TINKELING NOISE IT APPEARED TO GO THROUGH THE TREES. THIRD SIGHTING
ON 142225 DEC 94 SHE SAW A SHAPE ABOVE HER HOUSE, STATIONARY
EMITTING A HIGH PITCHED SOUND, HEARD ABOVE THE NOISE OF HER
TELEVISION AND DOUBLE GLAZING. NO ACTION HAS BEEN
TAKEN BY DUTY OPS O AT RAF MARHAM

REPORTED "UFO" SIGHTING

Received a call from Flt Lt Section 40 CRO Cottesmore Section 40. He had been contacted by the Coalville police about a reported sighting in the Coalville area early Thursday morning Section 40 (14 December). Time of sighting 0130-0145 hrs, WPC Section 40 was driving and saw a bright blue vapour trail emitting from an aircraft.

Cottesmore were closed and nothing was flying from there. The local ATC could not account for the sighting; however, it could have been other civil air traffic which was not flying in controlled airspace.

Coalville Police Station: Section 40

Explained to Section 40 that unless were received any evidence to substantiate the existence of a threat we would not be pursuing the matter.

Section 40

A large black rectangular redaction box covering the bottom left portion of the page. The text 'Section 40' is visible at the top left corner of the box.

+ None

Dear Madam,

+ As an investigator with the above association I now find it necessary to make an approach to the M.O.D. with regard to an unusual event on the 17th of November 1994.

The event took place near Paxton village at about 5pm and again near Preston village at 6pm. These villages are both in Berwickshire. I will now describe the object which at least four people saw that night. The object was disc shaped and black in colour. It had two large spot lights on either side of the disc with red and green lights which were on constantly. There were other lights on the side of the object in particular a small but very bright light which again was on all the time. This object had the capability of hovering fifty feet above the ground in total silence and was at least four times the size of a Tornado fighter jet, at approximately two hundred yards away.

+ None

The second event took place on the 20th of November 1994 at about 7pm. This object was of a different design. It was triangular with sharp edges, being black at one time during the sighting then changed to a dark red. It came slowly in from the North sea at a height of 20 feet and up the estuary of the river Tweed. It then stopped, hovered, turned a dark red and lit the water underneath, a bright red colour. Again, this object was silent. Having hovered for approximately 3 minutes it shot off at an incredible speed passing underneath all three bridges which span the river.

I would now like to ask the M.O.D. if there were any aircraft in these areas which could fit the descriptions given above? I also wish to ask if there were any unexplained blips on the R.A.D.A.R installation at Boulmer on these nights or any other early warning system on the east coast of the U.K? We at B.U.F.O.R.A would be very grateful for any information no matter how small you care to give us. Thank you for taking the time and trouble to read this letter and I would like to wish you all a very merry Xmas and a happy New Year.

Yours Faithfully,

DETAILS OF OCCURRENCE

POSS UFO SIGHTING

1. A possible UFO sighting was reported to Derbyshire Police Control Rm at 2050hrs by;

Section 40

Hope
Derbyshire

Section 40

2. Incident occurred near the A47, Snake Rd, north of Lady Bower Damm. Section 40 reported seeing a large orange light moving horizontally and dropping slowly until it went below a line of hills. A cloud of smoke was seen to billow out from the light and it then disappeared behind Kinder Scout. The light did not reappear.

3. No other sightings reported.

ACTION TAKEN

1. Derbyshire Police contacted Manchester Airport ATC who couldn't confirm any aircraft were operating in the area and could offer no explanation for the sighting.

2. Info FCF AM 09/12/94

5 Dec 94

FILE NOTE - Reported Sighting

The Suffolk Police called at about 0900 hrs. A Section 40 called at 0815 hrs this morning. He and three other witnesses saw a very large round object which was "red and hot looking". There was a bright light under the object and it looked as though it was "covered in cling film". There were 4 bright lights near it.

The sighting lasted 10 minutes, and was seen with naked eyes. After 10 minutes it soared up into the sky to about "75,000 feet".

Sighting occurred over Stowmarket, Suffolk, which is east of Bury St Edmonds. The police officer said that this place is very close to Wattisham. They (the police) contacted Wattisham and Wattisham were not aware of any unusual radar traces.

* * * * *
** TOTAL PAGE 000 **
The lights seem to be appearing in a 5 yearly cycle around the same area of the Rhondda Valley. The informant saw the lights for the first time in 1979. An ex neighbour claims to have seen them in 1985 and the informants fiancée saw them in July 89. They were expecting to see them in the summer of this year yet nothing appeared. The friend who claims to have seen the latest sighting knew nothing of the previous sightings over the years.

Apparently they have had an explanation that the lights were from a balloon, yet they are not convinced.

Would be interested to hear another explanation if there is a feasible one and not to be told it's a balloon.

Reported Sighting - 1005 hrs Mon 5 Dec

Section 40
[Redacted]

Hutton
Brentwood
Essex

At 0515 hrs this morning until 0740 hrs saw a very bright light, bigger and brighter than a star. No noise with a tiny red light under the base. Her neighbour said he thought it was a weather balloon. She ruled it out as a helicopter because she could hear no sound. She could not say how far it was away from her.

I explained the MOD's interest. She wanted to get in touch with BUFORA so I offered her the telephone number.

Section 40

Dear Sir/Madam,

I am writing to you regarding a U.F.O sighting which I witnessed near Warrminster, Wiltshire where a friend of mine lives. The reason for my writing is that during the sighting it occurred to me that this ~~was~~ was all happening in sight of areas used by the M.O.D, and I am concerned as to what this ministry is doing (if anything) about these incidents.

The sighting itself occurred 9th August 1994. Being an Amateur astronomer I am well acquainted with the night sky. It was a clear night so I decided to take a stroll, intending to move out of the street lights interference of Warrminster and visit a darker sight to view the 'perseid' meteors. It was the early hours (I had no watch, approx 1 AM) and I settled down in a field away from the main road to Westbury. After a few minutes I noticed a low humming sound and as I looked around for a possible mechanical source a 1/4 second white flash lit the whole area and flickered off 'Cradle' hill. The noise continued, and then after two brilliant meteors I noticed a greenish light approaching from the West, not very bright. My heart started pounding as it became a shape. The hum had by now diminished into a quiet whine. The object itself looked eerie, a pale green-blue cigar with orange lights above it in a pattern. After about a minute and a half it was almost overhead and slowed down and started descending. Quite suddenly one of the several orange dots shot off and approached Cradle hill and a flash emitted from it. The main object was still descending, and the ejected orange light just disappeared over the hill. The whining intensified. I struggled to remain calm so disturbing was the sight of this thing which had by now become a pulsing flat disc - though it was eerily pale. The orange lights just faded above it as it leveled off. The object was now only 250 feet approx from my position, and about the same altitude.

Then the most incredible thing happened. It flipped to a vertical position and raced toward the hill (300 MPH?) and then shut up and was gone in a matter of a few seconds, in which time the whine ceased abruptly. Shook up I went back to my friends, who is a sceptic and doesn't want to talk about U.F.O.s at all.

Frankly, I don't know what the hell it was. But I know what it wasn't - it wasn't anything natural (eg. ball lightning) or anything of our making.

All I can safely say is that it was an intelligence behind lights. Since I have read up on U.F.O.s and discovered there are hundreds of sightings around government installations. What is going on?

If it's no trouble I would like some feedback from you as to what is being done to investigate these matters.

Thank you for your time,

Yours sincerely,

ESSEX POLICE - ESSEX POLICE - ESSEX POLICE - ESSEX POLICE

Station: Clacton on Sea

Officer: PS [Section 40]

Subject: REPORT OF U.F.O. SIGHTING

Date: 28 November, 1994

To The DUTY INSPECTOR

I have to report with reference to Standing order 36 paragraph 81

- A. 28th November 1994 1700hrs for approx. 3 - 4 minutes
- B. one unidentified flying object described as triangular in shape and of very large size, no distinguishable colours, having two large bright white lights and the object being surrounded by pulsating red lights. described as being silent.
- C. firstly observed by informant in his car in [Section 40] then continued to be observed in the informants garden of his home address at [Section 40] Clacton on sea, Essex
- D. observed with the naked eye.
- E. Towards the direction of Thorpe le soken.
- F. approximately 45 degrees from ground
- G. described as being about aeroplane normal flying distance away
- H. described as cruising speed towards the general direction of Thorpe and Colchester.
- J. clear night sky
- K. informant states there was an aeroplane in his sight of vision at the time of observation which he claims was higher in the sky than the u.f.o. but travelling in another direction. There were no other objects nearby to interfere with the observation.
- L. reported to Clacton Police control, Ps [Section 40]
- M. [Section 40]
- N. None known.
- O. Informants mother also witnessed the event [Section 40] of the same address
- P. Report received at 1711hrs 28.11.94

I ask that this report be forwarded for the attention of A.C.C.(A) for onward transmission to
Ministry of Defence, Air Force Operations
Main Building [Section 40] Whitehall
London SW1A 2HB

[Section 40]

Police Sergeant [Section 40]

Station: Clacton on Sea

Officer: Inspector [Section 40]

Subject: Report of U.F.O. Sighting

Date: 28 November, 1994

To the Divisional Commander

The attached report from Ps [Section 40] is submitted in accordance with Standing Order 36/81.

It will be seen from the IRIS incident 736 of 28.11.94, that objects were seen by other observers. Police Officers included. The crew of [Section 40] Pc's [Section 40] felt that they were watching a low flying aircraft. Pc [Section 40] saw an object from a moving vehicle on The Avenue of Remembrance at Colchester. There is no way of telling if the officers are describing the same object. [Section 40] [Section 40] reported seeing an object at Thorpe le Soken, Essex, which apparently ties in with the account from the original informant. I have been unable to recontact [Section 40] to question her in detail about direction of flight, angle of viewing etc, as the only reply from her home is an answerphone.

No enquiries have been made from this station with any establishments who may have had aircraft in the area at the time of the sightings, which may offer explanations of what was actually seen.

I ask that these reports be forwarded via ACC(A), in accordance with Standing Orders, to the Ministry of Defence.

[Section 40]

RAF MANSTON - REPORT OF AN UNIDENTIFIED FLYING OBJECT

Please reply.

- A. Date, time and duration of sighting. (Use local times)

22 NOV 94 - FROM 0230 TO 0400 - 10 MINS + DURATION

- B. Description of object:

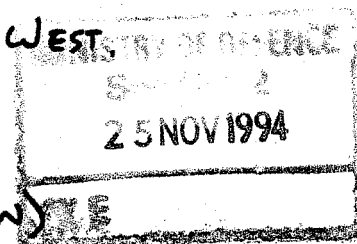

Number 1
 Size NOT KNOWN
 Shape ELONGATED DIAMOND
 Colour WHITE
 Brightness NO ESTIMATE
 Sound NIL

PLOTTED
 copied to D155
 reply sent

- C. The position of the observer. (Geographical location, indoors or outdoors, stationary or moving.)

INDOOR, FIRST FLOOR, LOOKING SOUTH WEST.

- D. How was the UFO observed?

Naked eye ✓
 Binoculars
 Still camera ✓ (COLOUR FILM, PHOTOS TAKEN)
 Movie/Video camera

- E. In what direction was this object first seen? (A landmark may be more useful than a badly estimated bearing)

SOUTH WEST OF BIRCHINGTON, KENT

- F. Angle of sight. (Estimated heights are unreliable)

60°

- G. Distance. (By reference to a known landmark if possible)

6 MILES, POSSIBLY MORE.

- H. Movements. (Changes in E, F and G may be more useful than estimates of course and speed)

STATIONARY.

- J. What was the weather like? (Moving clouds, cloud level, haze, mist, drizzle, rain etc.)

NOT NOTICED BY OBSERVER, HOWEVER, MANSTON WEATHER WAS SKY CLEAR, WITH GROUND HAZE.

K. Nearby objects. (Telephone lines, high voltage lines; lake, reservoir, river, swamp or marsh; high buildings, tall chimneys, steeples, spires, TV or radio masts; airfields, generating plant, factories, pits or other sites with floodlights or other night-lighting)

FILE

Dear Sir,

Acting on the advice of Section 40 author, I am writing to tell you of a sighting I had last week which he said would possibly interest you.

My occupation is that of Section 40 and I am currently seconded to the Prison Service. I work in the Section 40

On Tuesday, 15th November, I was in the Probation General Office which is located in the administration building known as The Facade. Norwich Prison occupies a position on Mousehold Heath about a hundred feet above the level of the City. The building faces W.S.W. directly towards the C.E.Cathedral.

At approximately 4.15 p.m. a member of the Support Staff asked me whether I could identify a row of bright lights to the West. Together we looked at a map of the City and concluded that the lights were on the ground in the vicinity of the University. They appeared to be the kind of lights used on a sports ground. My colleague had not noticed them before.

The next day, Wednesday, I was in the office, the time being approximately 7.45 a.m. I looked once again at the map of the City and having done so went to the window to see whether I could identify where it was that we had seen the lights on the previous day.

The morning was exceptionally bright, the sky clear of cloud. The air temperature was mild, there was little, if any, breeze. There was no haze over the City.

While I was searching the sky-line to the right, or W.N.W., my eyes were made conscious of a light to my left, two lights in fact. I enclose a sketch I made a couple of minutes later which will give an idea of the position of the images in relation to the spire of the Cathedral. The sketch is made sight-size.

At first I thought the scene was ordinary enough; the rising sun was already strong and it seemed that I was seeing two hot air balloons, formed from a silvery material. They were identical

in size and perfectly round, about 1/4" to 3/8" diameter. They appeared solid, faced directly to the sun I neither expected to see nor did I see any lessening of reflected light to the edges of the images and so they appeared not to be spherical. Neither of the images showed any movement during the minute or so that I observed them.

I noticed that there were no baskets beneath the balloons and although they appeared to have little altitude I saw no bursts of flame as I should have expected. The brightness of the light coming from the surfaces of the objects made it impossible for me to estimate their distance.

There was neither sight nor sound of aircraft, neither was there, after the images ceased to be visible, any cloud or indication of their presence. The objects appeared to be substantial, to be reflecting light and not emanating it.

Without the objects having moved in relation to the buildings beneath them, after about a minute they both vanished in an instant; they did diminish in intensity of light or size but vanished from view. *not*

The windows to the office had been cleaned two or three days before the sighting. There was no light on in the office and neither was any of the office equipment switched on. What I saw was not a reflection on the window from within the room.

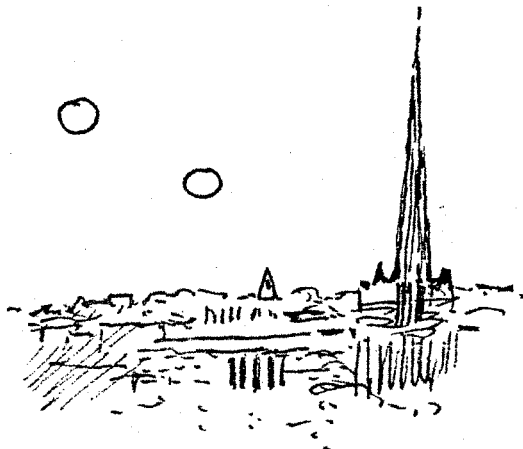

The sketch was made immediately after I saw the images and drawn from the same position in which I had stood. At no time while watching the images or objects did they make any kind of movement.

If I am able to help you in any way in connection with the matter described will you please contact me. If you need to do so by telephone please will you do so after 7.00 p.m.

Yours faithfully,

21 November 1994

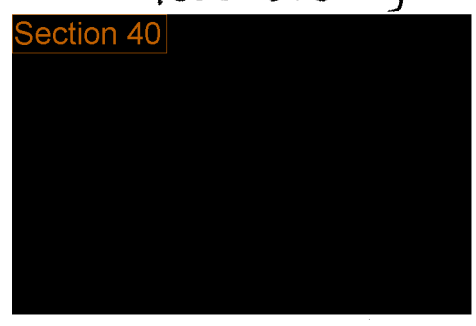

Dear  Section 40

Many thanks for your letter, and please find enclosed my report. While I was composing the report, I was wondering what happens to the report once it reached you, and who examines the contents?

I would be most grateful if you could tell me who are where to contact, as I would be interested in helping to conduct UFO investigation for the Ministry of Defence, especially those cases involving UFO crashes and extraterrestrial body recovery, as in Nevada 1947.

Many thanks for your time.

Yours sincerely

UFO REPORT

Date: Unknown

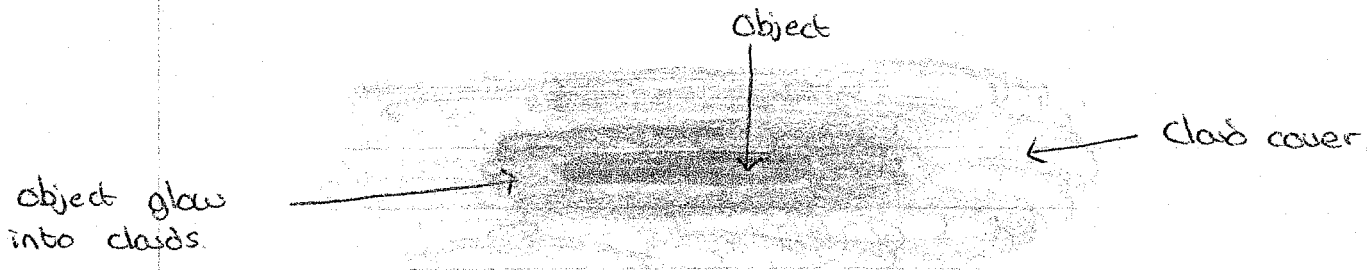

Time: about 0100 hrs.

A group of us from the Barrack Block at RAF Brawdy were called out late at night to man up 4 tonners and head for the Black mountains, to guard the crash site of a Tornado aircraft. All of us were split into shifts and formed a guard perimeter around the site.

In the early hours of one morning I was on guard, the wind was blowing, and I decided to shelter in a small dip in the ground out of the wind.

I noticed about $1\frac{1}{2}$ miles away in the thick blanket of cloud, a red glowing disc-shaped object, stationary. I had no binoculars and so observed with the naked eye. The glow of the object penetrated the immediate cloud around it. I watched it for about 30 minutes, and then like a light going off it vanished.

The object did not re-appear to my knowledge. I thought of telling someone, but left it as I considered it un-important.

Please note that the object was in the clouds, but the shape could be made out.

16/NOV/94.

Dear Sirs/Madam,

I am sorry to bother you once again on reporting such minor or trivial matters as these, but I felt urgent to write to you once again!

I would like to report the following 3 highly unusual incidents that happened over my home area outside of the town of Workington, Cumbria, the North West region of the country.

INCIDENT ONE:- DATE:- 15/NOV/94

..... TUESDAY, NIGHT, TIME:-

8:45, ATMOSPHERICAL CONDITIONS; CLEAR AT TIMES, I was looking out of our roof light window from where we can see all over the Solway, and Scottish Hills, and the water, in order to see if it was still raining, or not! I suddenly noticed a very powerful amber globe of light hovering low over the town area, I opened the north window to see if I could hear cont/

any aircraft noise, there was none to be heard at all. At first I took this light source to be the planet Venus setting low over the Horizon, but it was more over our Town area, and the light did not flicker as a star would! Then the dark grey clouds passed over the light, and then the light source just wasn't there anymore to see, it vanished! * (I have another local witness who observed this same 'odd light form' on Monday night, this week.)

INCIDENT TWO :-

DATE :- TUESDAY;
15/NOV/94.

.....
NIGHT, TIME :- *ABOUT; -8:45, CONDITIONS, SCATTERED CLOUDS OVERHEAD, I looked out of the same roof window, when to my amazement, I observed some round circular lights moving across a dark cloud, these went around 'circular' about twice, then the light shadows shot across the Solway on to another cloud formation; I checked to see if anyone was using a powerful torch directed at the clouds, but I saw no one at all! There are no lighthouses on our side of the coast, I don't think! This was very unusual indeed!

INCIDENT THREE:- DATE:- 15/NOV/94,
.....

NIGHT, TIME;- * ABOUT :- 10:55, CLEAR SKY.

Tonight, again, I noticed a very bright 'Silver object' shoot low down under the full moon, it was too big for a meteorite or a shooting star, and it zoomed across the sky at low altitude, over the old closed down NATO base at Broughton Moor, and Conerton area; Seaton village! This went faster than a jet would, and there was no noise made at all!

* Also late last night, at 15/NOV/94, my Mother could not sleep much, so she walked passed the roof-window, when she saw about 5x high altitude aircraft about 40,000' F.T. up she guessed, these aircraft exhibited only one single 'Amber coloured' light, and they were very close together indeed! And we all wondered if this was natural for any aircrafts, or Military ones?

Please could you check if any highly unusual aircraft where about on those dates and times enclosed, and let me know as soon as is possible? As it is very important indeed, as I have to let a reporter know for the 'Times & Star' newspaper in Workington! (As two firstman had seen something at 1:45 in the morning
CONT 1-

on a Tuesday at a place called
Crosscanarby, Aspatia! A few weeks
ago! This object was a light with a
spinning top, I think, or recall!

please excuse this lengthy report, as I
have a rough copy at home for my own
records on file!

*please also could you check these events
with any USAF, or RAF bases in our area
and any local airports, if you can?

I shall look forward to your
reply, if any, on these matters! And I am
apologising in case I'm wasting the MOD's
or Air Staff's time on these trivial matters!

Yours faithfully,

Contacted by a **Section 40** [redacted] Last night at about 1900 hrs his **Section 40** [redacted] nephew saw a 60 foot object 200 feet above the ground in Romford, Essex. There was lights which were rotating in an alternating fashion. The evening was a foggy but still one. The object made no noise hovered then dramatically sped upwards and out of sight.

I have had no other reporting sightings in the Romford area. I undertook to get back to him if it became apparent what it was.

ANNEX A TO
SOP 502

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, Time and Duration of Sighting	12 Nov 94 2200Z
2. Description of Object (No of objects, size, shape, colour, brightness)	One bright, crown-shaped object with a pathway type entrance under the object.
3. Location (indoor/outdoor stationary/moving)	Outdoor Moving (hovering)
4. How observed (naked eye, binoculars, other optical device, still or moving)	Naked eye
5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Heading north to north-west.
6. Angle of Sight (Estimated heights are unreliable)	Very high, over 80°
7. Distance (By reference to a known landmark)	Very high in the sky
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	Circular type movements, appeared to be searching for a place to land.
9. Met conditions during observations (Moving cloud, haze, mist, etc)	Clear sky, stratocumulous cloud.
10. Nearby objects (Telephone lines, high voltage lines reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or Radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Nil
11. To whom reported (Police, military, press, etc)	MOD AFOR

12. Name and Address of Informant Name Address	Section 40 [Redacted] Coulsden, Surrey Section 40 Section 40 [Redacted]
13. Background of informant that may be volunteered	Nil
14. Other Witnesses	Section 40 [Redacted]
15. Date, Time of Receipt	122235Z Nov 94
16. Any Unusual Meteorological Conditions	Nil
17. Remarks	A sizeable gathering were watching this strange apparition. All persons were serious, sober and were most perplexed.

REPORTED UAP SIGHTING

Section 40 [redacted] called me this morning at approx 0900 hrs to say that she and her boyfriend Section 40 [redacted] were out driving in their car between Bently, Odiham and Reading (down country lanes) on Saturday evening at 1800 hrs when they saw a sighting 30 feet up in the air at an angle of 45 degrees 30 feet away from them.

It followed their car for 10 miles and was made up of 3 circles of light which seemed to be surrounded by clouds. There was no sound and the shape rotated anti-clockwise.

The evening was clear and the sighting occurred over fields. Section 40 [redacted] was certain it was not a hovering helio or any aircraft.

I explained our limited role and said I would let her know if anyone else reported the sighting, especially if it revealed an explanation to put her mind at rest.

About half an hour later Section 40 [redacted] rang back as she was concerned that ufos might emit radiation and were she and her boyfriend at risk. I told her that the MOD did not have evidence to support the existence of spacecraft of extra-terrestrial origin and therefore it was highly unlikely that they were at risk from radiation.

3 November 1994

Dear Sir or Ma'am.

Sometime when I was based at RAF Brawdy, a Tornado crashed in the mountains of Wales. We were called out of our barrack block, loaded up 4 tonnes and set off to guard it.

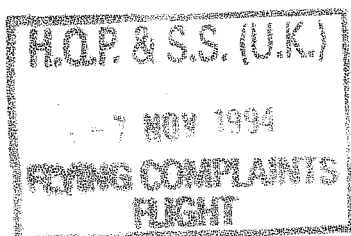

During the early hours of one morning while I was on guard, I saw a red glowing disc about 1 1/2 miles away. There was very thick cloud cover, and this object was in the clouds, as the red light penetrated the immediate cloud around the disc.

I watched it for about 30 minutes, and it vanished. I would like to submit a proper report to the MOD and I would be grateful if you could provide the official paperwork.

Many thanks

Yours sincerely

"UFO" REPORTS FROM RAF LEUCHARS

1. Unusually, in the space of 4 days we received 5 "ufo" reports via RAF Leuchars. They were spread across a very wide area. I spoke to the Community Relations Officer at Leuchars, Flight Lieutenant Section 40 who in the first instance was not aware that the reports had been sent to us.

2. I asked if there was any unusual exercise, or night flying taking place, and he said there wasn't. He had not seen any reports in the Press either, and they were usually pretty hot on picking things like this up.

3. He was content that there was not any untoward activity taking place in the area.

COMM-CEN
- 1 NOV 1994
R.A.F. FYLINGDALES

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time and duration of sighting.	30 Oct 94, 2100 to 2145Z.
2. Description of object.	Up to 20 white lights moving up, down and sideways and every 10 seconds or so forming a circle then breaking up again.
3. Exact position of observer.	From indoors and in garden. Stationary.
4. How observed.	Naked eye.
5. Direction in which object first seen.	Towards Leeds and Dewsbury over a forest.
6. Angle of sight.	Approximately "half way up the sky".
7. Distance.	Unknown.
8. Movements.	As para 2 above.
9. Met conditions during observations.	No stars visible. Light rain after start of event. Sky turned orange at end of event and there was a distant noise (not thunder) for a few seconds.
10. Nearby objects.	Lights seen over the forest. Emaley Moor TV mast is nearby but was behind the informant.
11. To whom reported.	Reported to Wakefield Express in 31 Oct 94. They were not interested and suggested that she report it to the RAF.
12. Name and address of informant.	Section 40 [REDACTED] WAKEFIELD Section 40 [REDACTED]
13. Background of informant that may be volunteered.	None given.
14. Other witnesses.	Husband and young son.
15. Date and time of receipt.	31 Oct 94 at 1605Z.
16. Any unusual met conditions.	None.
17. Remarks.	1. 30 mins before event, lights in informant's house, and that of their neighbour, flickered and failed although TV did not. 2. When formed into a circle, the lights had an apparent diameter of about 3-4" (measured against window from inside house). 3. At end of event, a beam of light appeared to emit from the object and reach the ground. The lights then disappeared completely.

From: Space Information Officer

Section 40

Section 40

FYD/1816/1/Ops

November 1994

1. Flight Lieutenant **Section 40** has passed me all of the information of your report of a sighting of a possible unidentified flying object. The information has now been passed on to offices at the Ministry of Defence which examines all such reports. However, their task is limited to checking for a potential threat to the security and defence of the United Kingdom. You may be contacted if they require further information.

2. The direction of the event suggests that this may have been a staged event in either Leeds or Dewsbury, especially when the start time is considered. It could have been either a firework or laser display, probably the latter. The descending light at the end of the display suggests that it could have been a circling helicopter but such an effect can be created in laser shows. The fact that there were no stars and that rain fell during the event suggests that low clouds could have been present, which would have made a laser show even more spectacular. The orange colouring of the sky and the distant sounds could have been enhanced by the mixing of fireworks with the light show. A search of the weekend's local papers may find a suitable source.

3. Thank you for your report and I hope that I have set your mind at rest with a possible solution.

Section 40

Dear **Section 40**

Thank you for your report to RAF Coltishall concerning a sighting at night by three young ladies of two unidentified flying objects.

Accordingly, I have sent the report to the Ministry of Defence, Main Building, Whitehall, London. The Ministry of Defence does not investigate sightings except to establish any defence interest. However, if the phenomenon spotted by your daughter and her friends is a known one, a reply will be forwarded.

Last, please pass on my thanks to the youngsters concerned for a very clear picture painted of the phenomenon under what were frightening circumstances to them.

Yours Sincerely

ANNEX A TO
SOP 502

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, Time and Duration of Sighting	2359A hrs 15 Oct 94
2. Description of Object (No of objects, size, shape, colour, brightness)	Un unspecified number of lights that just illuminated.
3. Location (indoor/outdoor stationary/moving)	Outdoors
4. How observed (naked eye, binoculars, other optical device, still or moving)	Naked Eye
5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Heading North East
6. Angle of Sight (Estimated heights are unreliable)	Above rooftop
7. Distance (By reference to a known landmark)	Not Known
8. Movements (Changes in 5,6 & 7 may be of more use than estimates of course and speed)	Stationary at first, then veered sharply to the right. Then disappeared.
9. Met conditions during observations (Moving cloud, haze, mist, etc)	Clear night
10. Nearby objects (Telephone lines, high voltage lines reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or Radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Nil
11. To whom reported (Police, military, press, etc)	Air Force Operations

12. Name and Address of Informant Name Address	Section 40 Holloway, N London
13. Background of informant that may be volunteered	Nil
14. Other Witnesses	None
15. Date, Time of Receipt	160900Z Oct 94
16. Any Unusual Meteorological Conditions	Nil
17. Remarks	Nil

Date: 16 Oct 94

NOA

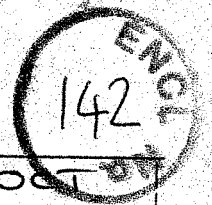

Section 40

called back 11 Oct 94. He was calling from a Public Call Box - (his wife didn't want him calling from home) - I had to call him cause he didn't have enough money.

- He was worried what to do with the piece that fell off.
- Said we were contact no threat to security of nation - no other reports in same area.
- Suggest he not worry himself - to throw the piece away - no one else he needs to bring this to the attention of.
- Suspect could be something which fell from a helicopter.

REPORT OF UNIDENTIFIED FLYING OBJECTS

MATS 6 - 13

A. DATE, TIME, AND DURATION OF SIGHTING
LOCAL TIMES TO BE QUOTED.

Sat August 13 Approx 11.00 P.M.
Duration Approx 10 minutes

B. DESCRIPTION OF OBJECT

NUMBER OF OBJECTS, SIZE, SHAPE, COLOURS, BRIGHTNESS, SOUND,
SMELL ETC.

See Notes

C. EXACT POSITION OF OBSERVER

GEOGRAPHICAL LOCATION, INDOORS OR OUTDOORS, STATIONARY
OR MOVING.

Seated in car at all times, Stationary & moving
See Map

D. HOW OBSERVED

NAKED EYE, BINOCULARS, OTHER OPTICAL DEVICE, STILL OR
MOVIE CAMERA.

Naked Eye

E. DIRECTION IN WHICH OBJECT WAS FIRST SEEN

A LANDMARK MAY BE MORE USEFUL THAN A BADLY ESTIMATED BEARING.

Probably W/SW See Map

F. ANGULAR ELEVATION OF OBJECT

ESTIMATED HEIGHTS ARE UNRELIABLE.

Could be seen from a seated position through car door
window. My estimate would be 30-50ft above ground

G. DISTANCE OF OBJECT FROM OBSERVER

BY REFERENCE TO KNOWN LANDMARK WHEREVER POSSIBLE.

Mostly between 20 - 40 yards except for M.62
Roundabout when it was 200-300yds ahead of us

H. MOVEMENTS OF OBJECT

CHANGES IN E, F AND G MAY BE OF MORE USE THAN ESTIMATES
OF COURSE AND SPEED.

Moved at same speed as our car. Stopped when we did.
Followed our course precisely. Always stayed level with
drivers or passengers side windows. From Roundabout

Note B.

On driving along Royds lane I noticed excited movement & lights to my right/front. My instant thought was the Northern Lights but I rejected this, and as we were approaching a 90° bend I asked my wife to look, and stopped the car. We could see a number of lights. They were circular and dull, coloured white with a green tint (my wife thought blue tint). These circles of light seemed to be held within a large circle, but we saw no outline or form. As the lights were just above/behind some cottages we decided it was a laser show in one of the gardens, but as they seemed so weak and colourless (just poor were my actual words) we set off round the corner. We had only gone a hundred yards or so when I again saw excited movement to my right. It was like a time lapse film of clouds that film directors use, but when I turned my head to look properly I saw that the cloud, or haze contained the lights and it was they that gave the impression of movement/excitement. While still held within the larger circle they were swirling & mashing around within this larger shape. I was really thinking of every possible explanation by now, and I said to my wife "Will you look over here and tell me if these lights are here, or am I going ----- mad."

My abiding memory is of the speed and swirling movements of the lights, when they were still you would hardly notice them, but when moving they caught my eye even from the side, when I was looking forward and concentrating on the road. They followed alongside us until, after we passed a long row of pylons on the M.1, I looked to my right and they were gone. I do not know what we saw, but I would be willing to undergo hypnosis to try and remember more clearly.

Section 40

24-8-94

J. METEOROLOGICAL CONDITION DURING OBSERVATIONS
MOVING CLOUDS, HAZE, MIST, ETC.

General clouds were broken, medium to high altitude.
They appeared static compared to the movement of the object

K. NEARBY OBJECTS

TELEPHONE OR HIGH VOLTAGE LINES: RESERVOIR, LAKE OR DAM;
SWAMP OR MARSH: RIVER: HIGH BUILDINGS, TALL CHIMNEYS,
STEEPLES, SPIRES, TV OR RADIO MASTS: AIRFIELDS,
GENERATING PLANT: FACTORIES: PITS OR OTHER SITES WITH
FLOODLIGHTS OR OTHER LIGHTING.

Nothing until long line of pylons on M.1 shortly after which contact
was lost

Restaurant in Wakefield uses Lasers. My [redacted] has since been
to have a look at these and dismissed them without hesitation

Section 40 122

Tel/FAX 26. 8. 94

Dear Section 40

Thanks for the Section 40 122 info. It looks like a good case, despite the location of the witnesses at the time!

Section 40 and Section 40 have submitted very lucid reports, obviously written independently. It's my impression that they were probably standing towards the rear of that Glastonbury Festival concert audience at the time of the sighting. It's not too surprising that no one else paid much attention to a happening overhead in those circumstances. In their diagrams the witnesses have depicted the direction of the object's circling motion differently, but then one can't be clear about the viewpoint taken by each. It's interesting that Section 40 remembers the coloured lights displayed by the object to have been square, whereas no mention of this is made by her companion. (Such differences in reports could be dependent on the relative sharpness of the eyesight of the witnesses --- and your current questionnaire doesn't ask whether glasses are usually worn or were being worn).

The timing of the event is excellent, beginning only 6 minutes after a predicted delivery from a sunset-orientated track, 54-degrees inclined. (See attached numerical computer output sheet).

By the way, I've recently taken the time to review my collection of those computer-processed runs which resulted in positive correlations with the Astronautical Model (which accounts, in part, for the slowness of this response from me). They cover the period 1950 to present day and there are 342 in total. 317 are British. Using my sort program, I've been able to identify the ground tracks most commonly followed by the hypothetical delivery/retrieval vehicles during that period of time. As you will see from the attached map, there are 26 of them -- ignoring those shown but not listed; but the favoured ground tracks are linked with only 9 of the possible 21 'orbit' options covering British latitudes. Together, these tracks relate to 293 (92.4%) of the viable sightings.

The Glastonbury happening relates (time-wise and geographically) to the tracks labelled 54°/65°E (delivery) and 58°/51°E (retrieval) on the map.

Where tracks converge it could be expected that such locations might have the characteristics of 'ufocals'. Of special interest (in view of the Sturminster Marshall, Dorset, LITS event of 9.8.93) is the convergence of tracks north of Poole. Of special interest, also, is that they've got London surrounded! My various evaluations of London events in which I've identified the tracks used should make more sense to you now [redacted]. Have I convinced you yet that we really are dealing with an astronautical activity?

Section 40 Best wishes,

Section 40

Copy to 1000

On the evening of the 24 Aug 94 at approx 2100hrs [redacted] decided to look to see if she could see the lights again. This time she thought she could see 3 lights - one bright large one and 2 smaller lights. They appeared stationary for a time and then began to move around.

- a) up
- b) down
- c) side to side
- d) Spiralling

12 SEP 1994

The speed was variable from looking like a shooting star to slowing completely down. An aircraft went by and they appeared to move out of the way. I believe it disappeared and came back again. This was seen with the naked eye. This was continued to 22.25hrs. The evening was again clear but not as bright.

24 Aug 94 -

Section 40

Section 40

[redacted] then came onto the telephone and informed me that he had observed this evening's sights through binoculars. He believed that it was not one light but a cluster of lights. When on the move it appeared to adopt a figure 'A' or an arrow head. It seemed to change shape. He went outside and there did not appear to be any noise coming from it but he could not give me a distance.

Section 40

23 Aug 94

On the evening of the 23 Aug 94 at approx 2130 hrs

Section 40

was watching TV in their front room. The curtains were not drawn and she noticed a bright white light in the sky. She went upstairs for a better look but could not see anything. At approx 2330 hrs she went to her bedroom and noticed 2 lights in the sky near Crich stand (war memorial). Eventually one shot across the village and behind a hill were as the other remained stationary until about midnight. She could not really estimate the distance or size and she only saw it with the naked eye.

It was a clear, dry night with stars in the sky

Additional Information

1. Crick Church - illuminated spire.
2. Crick Stand - high hill with lighthouse
3. Sister Section 40 has made drawings of sightings.
4. RAF Newton is the only contact made at present.
5. There have been other sightings from people in village.
6. Father may have seen lights once previously before when walking his dog.
7. Castle Donnington Airport is near by ^{maybe a} ~~holding~~ pattern.
8. They believe they would recognise low flying aircraft as they have many going overhead during the day.
9. Were advised that this report would be passed over in the morning for onward transmission to relevant authorities?
10. They were welcome to contact RAF Newton & the civilian police if it was to happen again.

LETTER FROM Section 40

Section 40

Section 40

1. Further to telecon Section 40 earlier today, I attach as promised the letter from the above initially passed to us by APS/S of S for reply that we discussed.

2. As you can see, the writer touches on a wide range of issues some of which might be seen as "scientific" eg. anti-gravity, flying saucers, etc.. Clearly however the main thrust of his letter is his desire for a job and what appears to his belief that "C Summers" (?) has rejected his application for a "career in the Security Services".

3. As discussed therefore it seems more appropriate for CM to lead in replying.

4. For the record, we are not aware of any research into "anti-gravity" at British Aerospace Preston or elsewhere. As for "the enigma of the so called flying saucers" possibly Sec(AS)2a, to whom I have copied this correspondence, may have some views.

I attach letter(s) which the Secretary of State has received from members of the public, and which  have not been acknowledged by this office.

2. I should be grateful if you would arrange for the appropriate action to be taken, including a reply as necessary. Since the Secretary of State attaches importance to such letters addressed to him being answered promptly, any reply should be sent within two weeks of the date of this minute. If, exceptionally, this should prove impossible an interim reply should be sent within the same timescale.

3. The Open Government Code of Practice came into force on 4th April 1994. You should ensure that all replies to members of the public are provided in accordance with the procedures as set out in the Code. A full explanation of the Code of Practice is contained in DCI(Gen) 112/94; further information is available from Man S(Org)1 telephone extension 

Section 40

For APS/Secretary of State

Section 40

5, august 1994.

Section 40

The Right Honourable Malcolm Rifkind M.P.,
House of Commons,
LONDON.

Dear Mr. Rifkind.

I recently wrote to: Section 40
The C.V. was simple and to the point, I was applying after
£72,000 of education to go into my well prepared for and well
sought after career in the Security Services.

Section 40

the point is Mr. Rifking they have said there are no suitable
vacancies, with all that education and knowledge I clean some
ones house and mow lawns for less than two pounds fifty an hour.

The point I am making to you is simple why has all £72,000 of
education been paid for by Lancashire County Council and when
I reach fruition I can not put my self to working for the society
that has paid for me for the last twenty two years.

How do you feel that £72,000 of your tax money has gone into educating
myself and now I am not allowed to get some work done?

I have offered to do something for them for free to show
them that I am legitimate in my yearn to work in National Security
they can't even take the trouble to send me a security pass to
do some research for them.

Will you try to resolve this dispute, i.e. that they will at least
give me a contact and an interview so that I may be of some value
to the society, after all I have been wanting to do the job for
twelve years and worked hard.

I take this opportunity to congratulate you on making the changes
you did recently in reducing the size and capability of our defences;
this will pave the way for a better, safer future, where peace
will be the watch word and not war.

Your duty to our country is very demanding at best and I
sympathise with you that often progress is difficult to forge,
but for those who are willing to work for our National Security
through a sense of loyalty and patriotism please let them do so.

I further, take this chance to wish you every success in imple-
menting further changes to radically reform our defence, for a
long time things have been running "inefficiently" with many people
chasing paper in the MOD and you have weeded them out, good on
you.

Second Page, Final Page.

I wish there was more I could do for my country but if the Security Services won't even interview people before passing judgment, then I can't foresee that our projects of a sensitive nature will ever be secure. Too many secrets find their way under the door, I don't like that and I deeply would like to do something about it; sadly the people who could give me the opportunity are being difficult.

The research that I would like to access at British Aerospace at Preston in Lancashire concerns anti-gravity. The application could be made practical within the next thirty years, and I believe we may solve the enigma of the so called flying saucers simultaneously.

You have always been a hard worker Mr. Rifkind, and so you can appreciate that it grieves me that I have worked hard and can't seem to embark on the career I am destined for.

I am your obedient servant,

REVIEW
 PLOTTED
 DISSE

About 23.50 hours on Saturday 30th July, 1994, the afternamed was watching an electrical storm from the playing fields at Armadale Academy, West main Street, Armadale when his attention was drawn to what he describes as a large round object in the sky travelling towards him from the south. Although unsure of dimensions when passed his witness estimate that this object was some 30-40 feet in the air and about 10 feet in length. As this moved towards the witness it stopped some distance away for only a few seconds and thereafter continued southwards out of sight. Obviously intrigued by this the witness drove his vehicle to an isolated road known locally as the

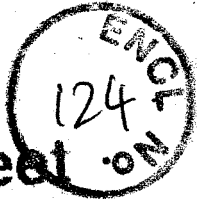

Northway Road this witness
the towns Armadale and Blackridge. As
drove onto the from the west he
is aware of the same object passing
his vehicle moving northward at the
night as before. He alighted from
vehicle and watched as the object
drove north stopping approximately 1/2 mile
away. At this the object moved towards
ground up again and sped off
towards. The witness contacted the police
on a mobile phone he carried. During
incident also, the vehicle and torchlight
had suffered electrical failure.
no time was there sound or light
emitting from the object.
Weather conditions were good, a high
cloud cover and good visibility.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time and duration of sighting.

16th Aug 94 0100 (2) 10 mins could have been more

2. Description of object.

Being dark very hard to do so, but the object had three lights 2 on outside 1 in middle which was coloured. No noise at all. Red.

3. Exact position observed.

In front of house flew over house

4. How observed.

From bedroom windows

5. Direction in which object was first seen.

From observant's porch towards Oakhanger.
Alton

6. Angle of sight.

N/K

7. Distance.

N/K

8. Movements.

Seem to hover for a while then moved slowly

9. Meteorological conditions during observations.

Sky clear.

10. Nearby objects.

17th August 1994

SENT BY FAX PAGE 1 of 3

REPORT OF U.F.O. SIGHTING

DATE: 14th August 1994

PLACE: Southampton City Centre

TIME: Approximately 11.15 pm

DURATION: 10 minutes

HEIGHT: Approximately 1000 feet

WEATHER: Clear and no wind

Dear Section 40

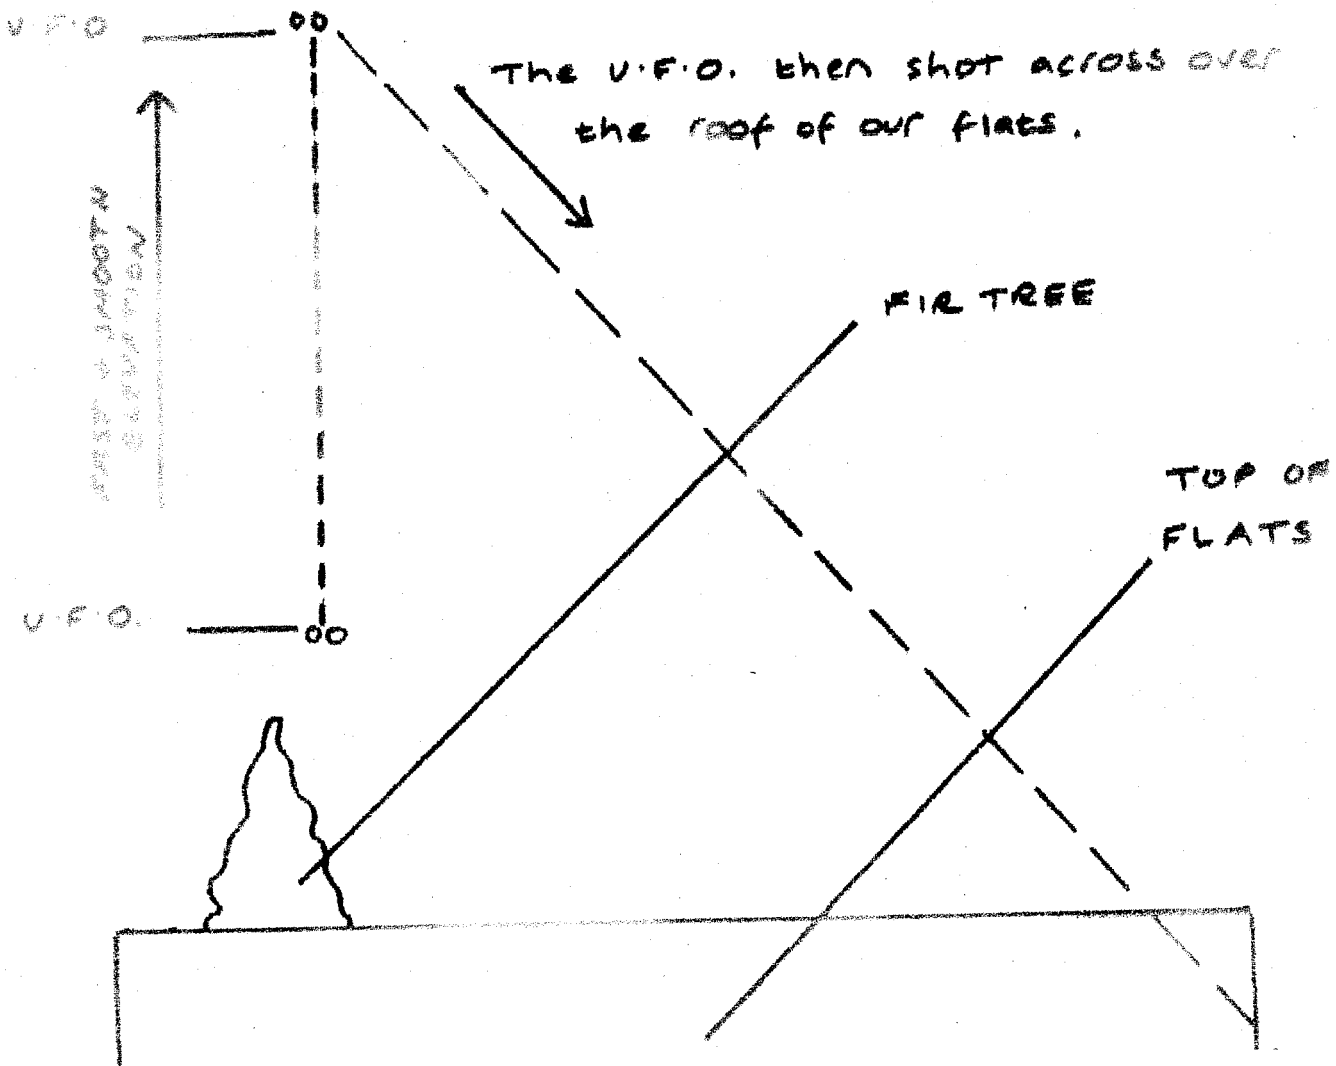

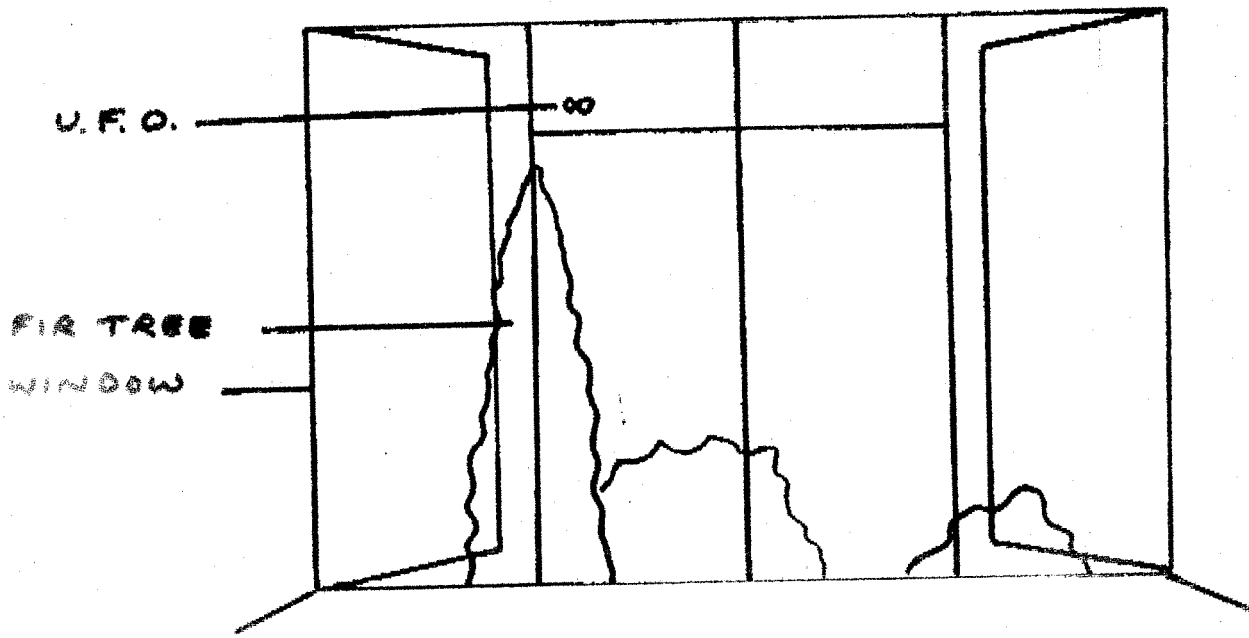

Section 40 and myself noticed two bright lights hovering over Southampton. They were extremely close together - without beam and like balls of light. Being an ex-RAF I thought it could only be a harrier or helicopter. The lights did not get nearer or larger, no hovering was deduced. I grabbed my camera and the flash took ages to warm up which was unusual as I had been using it okay whilst on holiday two days previously. About a minute later, at approximately 11.20 pm, leaning out of the window, the picture was taken and then the film jammed - shot 31 out of 36 which was strange. As soon as the flash went off, the craft rose smoothly and quickly upwards, paused and then flew at great speed towards and over the flats from where we were watching. As it passed overhead, and the camera was jammed, it appeared to have a few red lights underneath. These lights were not flashing as per normal aircraft. The sound it made was of a jet-like quality, not a helicopter, but was more of a deep, resonating force.

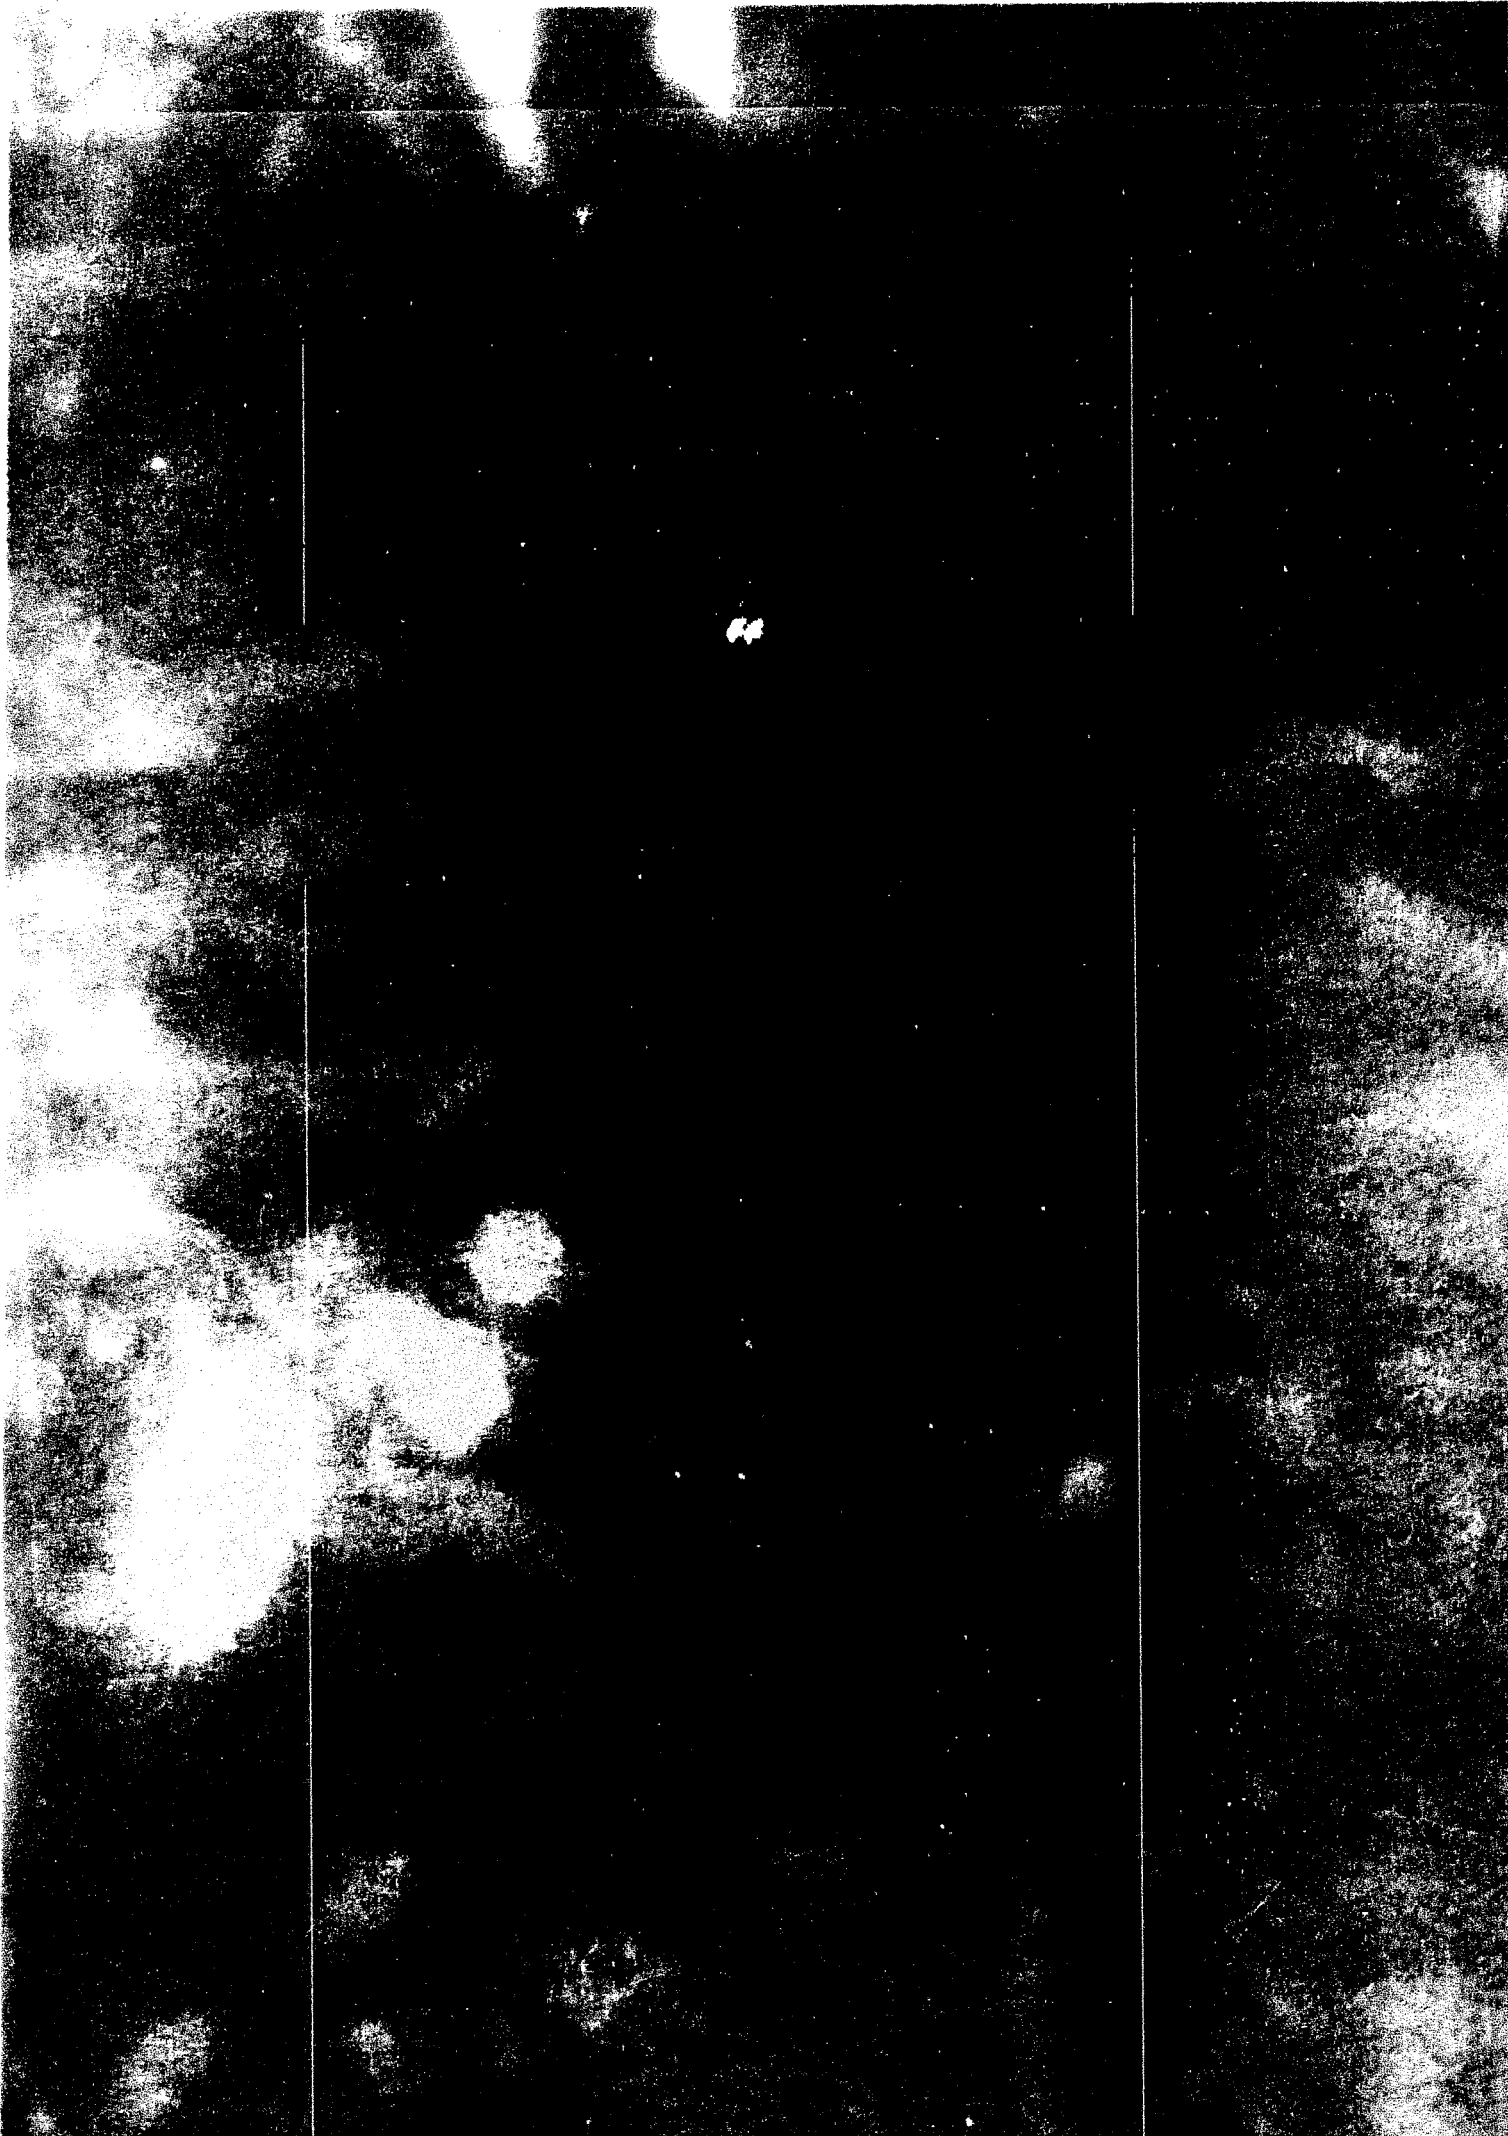

Eastleigh airport was closed at 9pm and no night flights should have been passing over Southampton. City police reported that their spotter plane was not over the city and no air ambulances were about either. Bournemouth International was also closed at 9pm and Gatwick and Heathrow report that if there were any flights using Southampton airspace, it would not have been low. Only West Drayton have the facilities to monitor the airspace above Southampton when Eastleigh is closed. Before going to the press, we would like to know what West Drayton's radar report at that time concludes. Following is a diagram and the photo. We look forward to your call as soon as possible.

Yours sincerely

Section 40 [Redacted]

"Prisoners can face loss of privileges, segregation or loss of remission," said the spokesman.

He said screening the ground and first-floor cell windows, in line with the second-floor windows facing Knox Road, would be considered.

Enlightening news on that mystery

THE mystery of the strange, eerie lights spotted along the coast of Norfolk has been solved.

Dozens of people inundated the police, RAF and the Evening News with tales of whirling lights and UFOs appearing everywhere from Great Yarmouth to North Walsham and the Broads.

But the explanation is a more down-to-earth — new laser lights on the roof of a Hemsby amusement arcade!

Keen-eyed readers helped us trace the answer to the Hemsby area. Keith Bush, of Marham, told us: "You can see the lights clearly from here when the clouds are right."

Terry De'ath, owner of the Las Vegas arcade, has admitted that his lights, installed with permission from the Civil Aviation Authority, have caused all the fuss.

"They can be seen five or six miles away, and it has put us on the map," he said.

new home.

The Feek family, of George Pope Road, Catton, say a daily tirade of abuse, threats and violence has left them living in fear.

Stones and eggs have been thrown at their council-owned home and two family cars have been destroyed, they claim.

Mother-of-four Deborah Feek, 31, says the relentless campaign of hatred even caused her to have a miscarriage last year.

"We can't live normally. I'm in such a state, it's beyond a joke," she said.

Now the family, who used to live at Mile Cross, are on tenterhooks waiting to hear if their application for an emergency house transfer has been successful.

Mrs Feek's husband, Shaun, 27, said: "We've spent our last money on a minibus. We watch it all the time. If that gets damaged we'll have nothing."

Neighbour Liz Burne claims to have suffered similar abuse: "I can't let my children out to play in the garden anymore," she said.

Violent threats assaults on the Feek children — Joanna, seven, Roseanna, seven, Roseanna, seven months — left the family ~~terrified~~ housebound. 106/18

Constant noise in smashing window anonymous phone added to their misery.

"We've complained to council and turned to Citizens Advice Bureau and the Citizen's Bureau," said Mrs Feek "no one can help us."

She added that a booklet on tenants' rights contained information on the council: "The council will be here tomorrow if we can't get Mrs Feek. "If we can't know what we'll do."

Alison Smith, Norfolk Council housing officer, said: "We have given Mrs Feek a lot of advice and information and explained how she could pursue their action."

Fatal glider crash

AVIATION experts today began investigating last night's death of a veteran Norfolk glider pilot.

Michael Harvey, 64, from Scottow, near Coltishall, was flying the single-seater glider when it suddenly dropped, hit an electricity pole and crashed into a cornfield.

Experts have travelled to Norfolk to begin a detailed investigation into

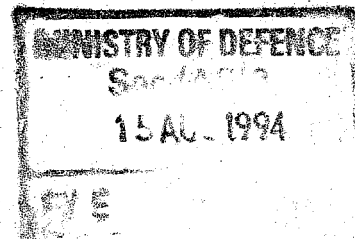

the accident, which occurred shortly after 4.30pm.

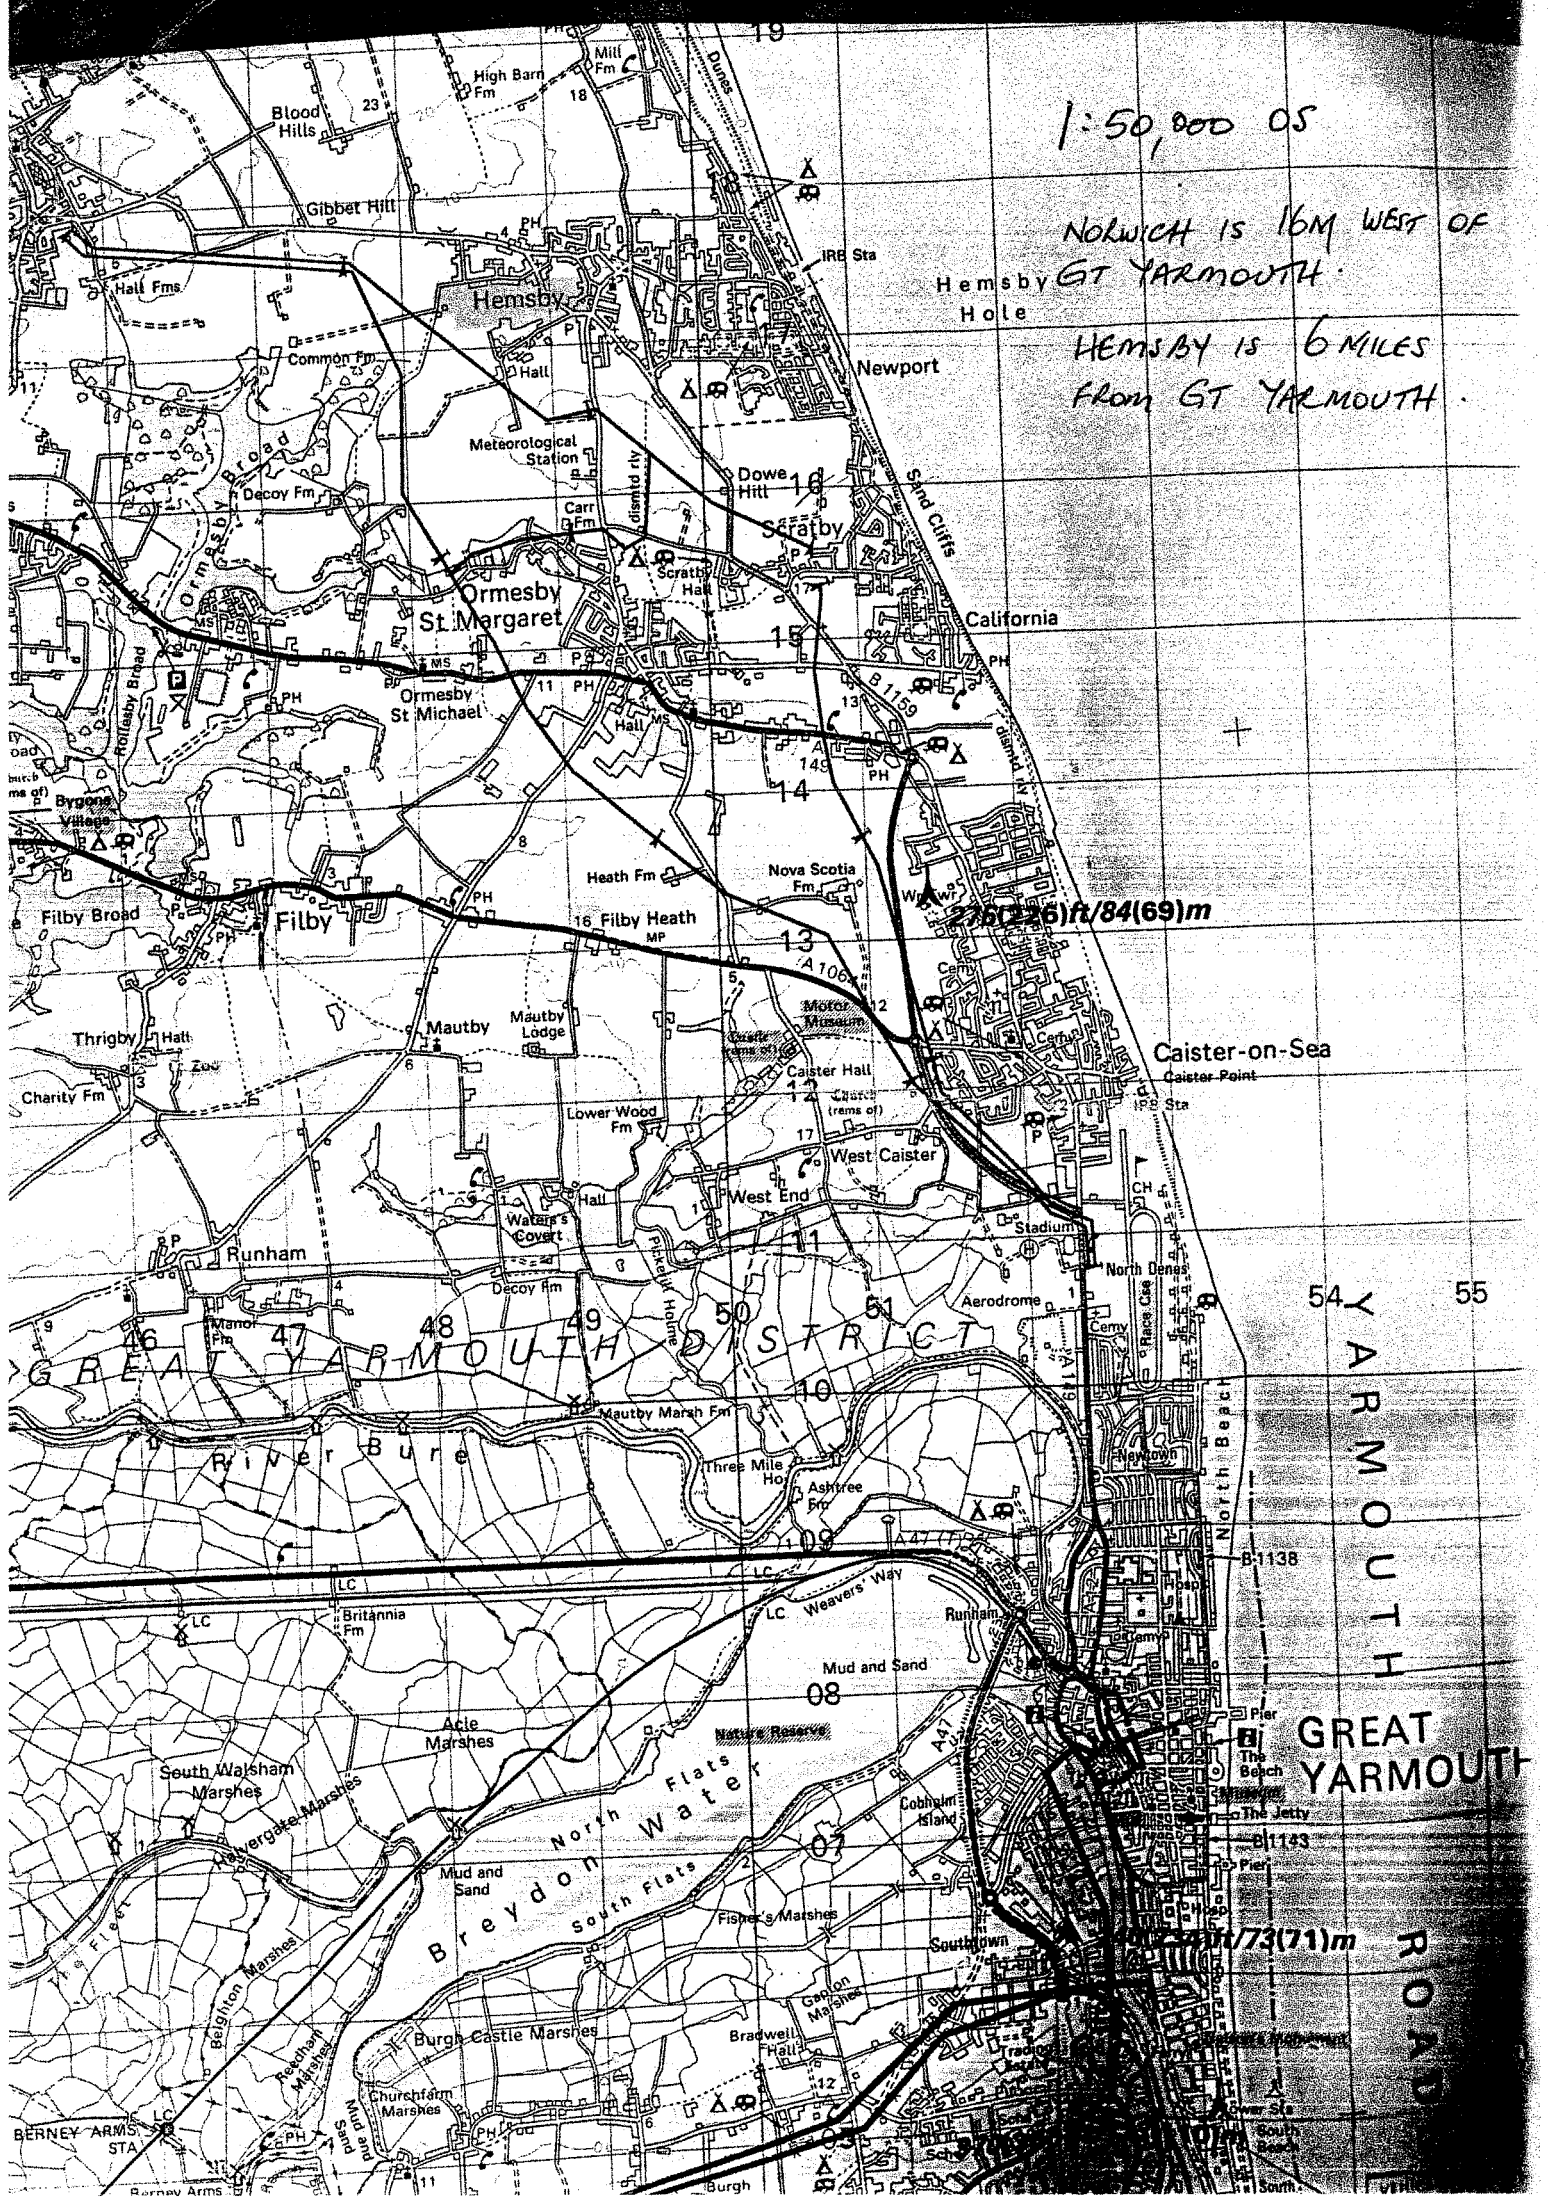

Mr Harvey, a member of the Norfolk Gliding Club, was flying the glider minutes earlier from a field, near Long Street.

Horried gliding club members watched his glider crash into a field near Bunwell Road, Bunwell.

SECTION B Written Account

Please write an account of what happened to you

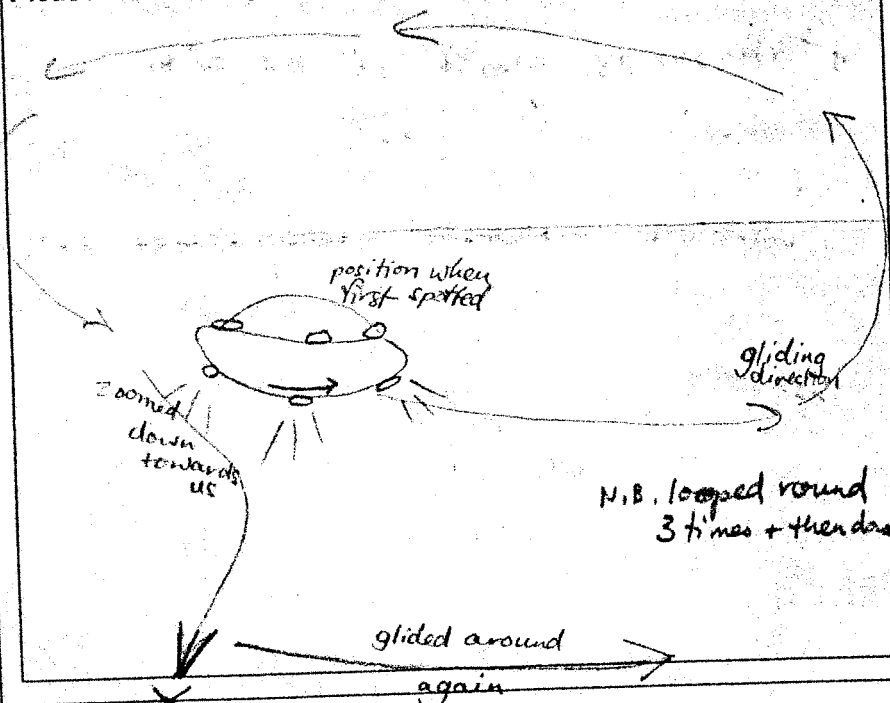

Section 40

Myself + [redacted] were standing soberly in the Jazz field in a N.W. direction at Glastonbury Somerset when at around 11-30 we looked up + saw a twirling set of moving lights attached to what must have been a circular object. It was unlike anything we knew + so I immediately said it must be a UFO/space-ship. What made me feel this was the case was that the lights were below + flashing in a way that was communicating to us — not above like on a helicopter, where they might have them near the propellers. It was also silent + the way it glided was the smoothest most effortless motion I had seen in the sky. The lights now are hard to remember the exact colours but I recall a yellow, red + green. It moved around in a circle + we were

continue on a separate sheet of paper if required

SECTION C Object Characteristics

Please use this space to sketch what you saw

Please complete the following

Number of objects seen

1

Colour(s) of object(s) seen

white with flashing coloured lights

Brightness of object(s) seen

bright lights perfect clarity

Compared to brightness of full moon

Sound of object(s) seen

silent but we were surrounded by loud music

Smell of object(s) seen

None

myself + Section 40

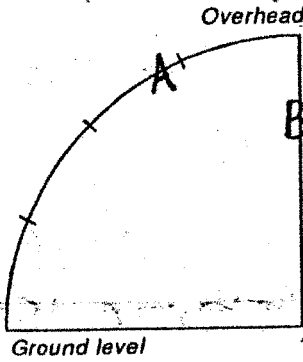

g thing more convinced it was a UFO - we became totally locked ^{transfixed} into it. And it was as if once we had both agreed it must be a UFO that it swirled around + glided down straight towards us, ^{crazy as this sounds} As this happened, we really became quite frightened but awestruck. Hair stood on end on my arms + my heart was pounding. It then glided to the right + away again. We looked at each other in a panic + naturally agreed that we needed to check this out with the people standing around us, because we knew we were completely lucid ^{we nudged did not} ^{to surely} ^{to their people} ^{would have} ^{noticed it}. However, the three people ^{wanted} to know, they didn't look hard enough or take it seriously, + it made us just think that we had been honoured to have experienced this special encounter + citing ourselves. We had tuned into it even if no-one else had noticed it. Everyone else was looking towards the stage it was just ^{at that time} that we looked up at the sky perhaps, that we saw it. It then disappeared + we continued to just get on with the evening.

→

I should also ^{specifying} denoted the circular nature
lights appeared of the object, I didn't particularly see
a white haze of an object. It was the
the way it glided that made it look
like a flying saucer type vessel & when
it came towards us it came down
like a spacecraft landing, as we know
from the movies - a kind of effortless
flutter downwards ^{not a joggedly}
motion of a helicopter, - And besides
we would have heard something
if it would have been a helicopter.
The fact that other people thought
later could have been a helicopter, ^{we were that} that
once occurred to myself or Section 40 that
how convinced it was something other
wordly.

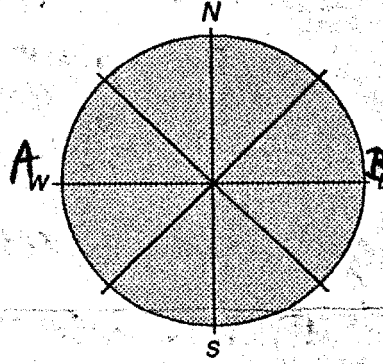

SECTION D Object Position

Object altitude

Imagine yourself at point 'x'. Mark the curved line with an A where you first saw the object and a B where the object was last seen.

Object direction

Imagine yourself in the middle of the compass dial. Mark the compass with an A where you first saw the object and a B where the object was last seen.

SECTION E The Physical Characteristics of the Observation

1) Date and time of the observation

Day	Date	Month	Year
FRI	24	6	94

Time	AM	PM
11.30	<input type="checkbox"/>	<input checked="" type="checkbox"/>

circle one option

2) Duration of observation

Duration more than 4 mins./secs.

But less than 5 mins./sec.

estimate if unsure

3) Regarding questions 1 and 2. How did you gauge the time and duration?

It seemed like a long time, because we were transfixed but in all reality it must have been about 2 mins.

4) Where were you at the time of the incident? including nearest street, town or village

Jazz Stage
Glastonbury
Somerset

5) What first brought your attention to the object(s)?

Just happened to look up at the night sky

6) How did the object(s) disappear from view?

We looked away + it must have glided away

7) Comparing the size of the object(s) you saw to that of the full moon, was it:-

Smaller
give details

I didn't notice the moon that night

circle if appropriate

The same size

Larger

give details

8) Was the object(s) photographed, filmed or video recorded?

if yes, give details

Not to my knowledge

9) Were there any other witnesses to the object(s) you saw?

if yes, give names, addresses and telephone numbers where possible

Yes - Section 40

SECTION F Other Characteristics Relating to the Observation

10) Did you, or the surrounding environment, suffer any physical effects which you consider to be attributable to the object(s) seen?
if yes, give details

No

11) Were you aware of the passage of time around the time of the observation?
if no, describe

No - we were so focused on the object

12) If you have had any other 'unusual' experiences in your life please describe them
you may feel unable to describe such events; if so, please indicate that there are matters you wish to discuss in a meeting with the investigator

Yes - being in the presence of bad energies, evil forces perhaps + having to overcome them by sheer positive strength or "white/magic" - ie: being challenged + visited on 2-3 occasions in this way. III

13) Other than the event you have reported, did anything else 'odd' or 'out of place' occur around the time of the observation?
if yes, describe

No

14) Did any other witnesses experience anything in relation to questions 10, 11, 12 and 13?
if yes, describe

SECTION G Prevailing Weather during your Observation

i) Clarity of atmosphere	<input checked="" type="checkbox"/> Clear	Hazy	Foggy		
ii) Cloud cover	<input checked="" type="checkbox"/> None	Quarter	Half	Three Quarter	Total
iii) Atmospheric temperature	Freezing	Cold	Cool	<input checked="" type="checkbox"/> Mild	Warm
iv) Precipitation	<input checked="" type="checkbox"/> Dry	Rain	Snow	Lightning	Other
v) Wind strength	<input checked="" type="checkbox"/> Still	Breeze	Strong Wind	Gale Force	
vi) Visible astronomical objects	Stars	Moon	Sun	Aurora Borealis	Shooting Stars

Didn't notice the moon.

SECTION B Written Account

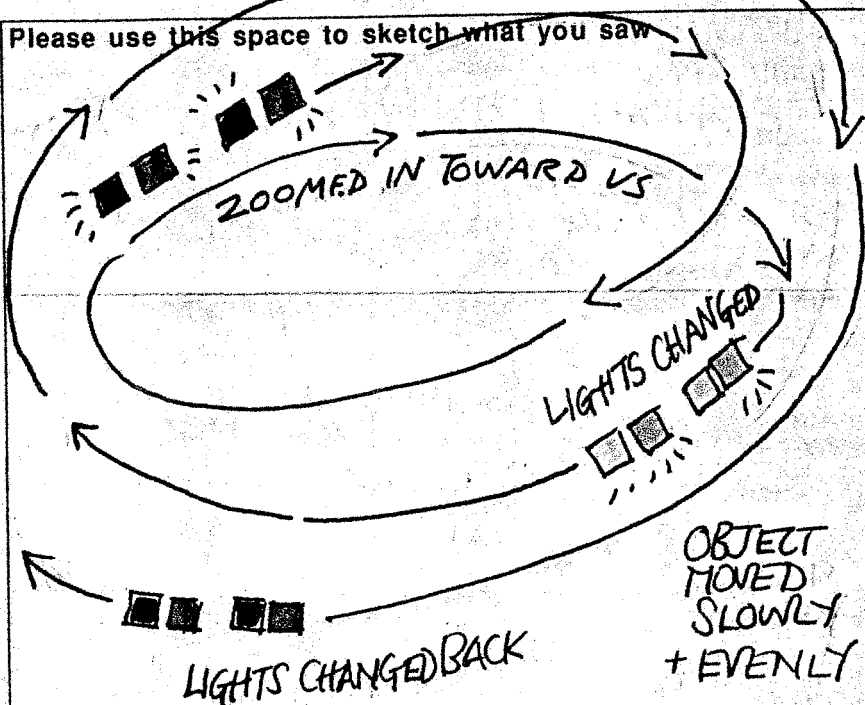

Please write an account of what happened to you

IT WAS AROUND 11.30 AT NIGHT, SOMETHING IN THE SKY MOVED + CAUGHT MY EYE. IT WAS A STRONG RED AND ORANGE LIGHT, AND ON CLOSER INSPECTION THESE LIGHTS APPEARED SQUARE, AND IN PAIRS. THE OBJECT GLIDING IN THE NIGHT SKY WAS SILENT AND FELT CIRCULAR. ALTHOUGH I COULD NOT SEE THE OUTLINE OF THE OBJECT FLYING. ON NOTICING IT, IT SEEMED TO ZOOM IN ON MY FRIEND AND I. IT APPEARED TO BE COMING TOWARDS US. AFTER A WHILE, AND QUITE SUDDENLY IT CHANGED COLOURS. IT WENT FROM RED AND ORANGE TO YELLOW + GREEN. THIS REALLY HAD AN AMAZING IMPACT ON ME BECAUSE I WAS WEARING YELLOW AND GREEN. I REMEMBER THE COLOURS VIVIDLY BECAUSE OF THIS. AFTER APPROX. 60 SECONDS IT CHANGED BACK TO RED AND ORANGE, CIRCLED SLOWLY ABOVE US 3 TIMES AT A SLIGHT ANGLE AND AFTER THE FOURTH CIRCLE IT WENT OFF INTO THE DISTANCE + OUT OF SIGHT.

Continue on a separate sheet of paper if required

SECTION C Object Characteristics

Please use this space to sketch what you saw

Please complete the following

Number of objects seen

1

Colour(s) of object(s) seen

RED + ORANGE THEN
YELLOW + GREEN.

Brightness of object(s) seen

VERY CLEAR + BRIGHT

Compared to brightness of full moon

Sound of object(s) seen

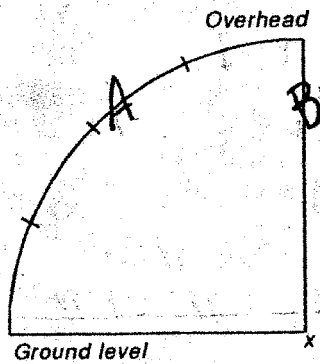

NONE

Smell of object(s) seen

NONE

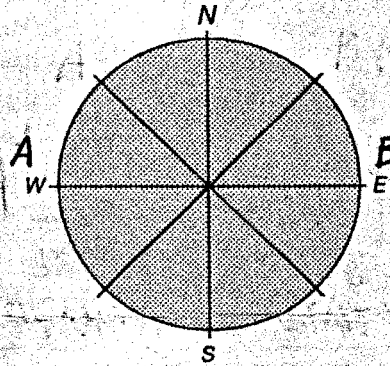

SECTION D Object Position

Object altitude

Imagine yourself at point 'x'. Mark the curved line with an A where you first saw the object and a B where the object was last seen.

Object direction

Imagine yourself in the middle of the compass dial. Mark the compass with an A where you first saw the object and a B where the object was last seen.

SECTION E The Physical Characteristics of the Observation

1) Date and time of the observation

Day	Date	Month	Year
FRIDAY	24	6	94

Time	AM	PM
11-30		<input checked="" type="radio"/>

circle one option

2) Duration of observation

Duration more than 4 mins./secs.

But less than 6 mins./sec.

estimate if unsure

3) Regarding questions 1 and 2. How did you gauge the time and duration? I GUESSED THE APPROX. TIME, AND IT FELT LIKE IT TOOK 5 MINUTES OR SO.

4) Where were you at the time of the incident? including nearest street, town or village

THE GLASTONBURY FESTIVAL IN SOMERSET (COLD SOBER.)

5) What first brought your attention to the object(s)? I CAUGHT SIGHT OF THE UNUSUAL BRIGHTNESS AND ORIGINALITY OF THE LIGHTS.

6) How did the object(s) disappear from view?

SIMPLY BY GLIDING OFF INTO THE DISTANCE AFTER CIRCLING ABOVE US

7) Comparing the size of the object(s) you saw to that of the full moon, was it:-

Smaller
give details
I SAW LIGHTS ONLY

circle if appropriate
The same size

Larger
give details

8) Was the object(s) photographed, filmed or video recorded?

if yes, give details

NO - I HAD MY CAMERA BUT WAS TOO SHAKEN TO REMEMBER TO USE IT!

9) Were there any other witnesses to the object(s) you saw?

if yes, give names, addresses and telephone numbers where possible

Section 40

SECTION F Other Characteristics Relating to the Observation

10) Did you, or the surrounding environment, suffer any physical effects which you consider to be attributable to the object(s) seen?

if yes, give details

NO

11) Were you aware of the passage of time around the time of the observation?

if no, describe

NO - ONLY BECAUSE I WAS SO ABSORBED IN THE SIGHTING I DONT REALLY HAVE A TRUE IDEA OF THE TIME IT TOOK FROM BEGINNING TO END.

12) If you have had any other 'unusual' experiences in your life please describe them you may feel unable to describe such events; if so, please indicate that there are matters you wish to discuss in a meeting with the investigator

MANY 'ASTRAL' TRAVEL EXPERIENCES - USUALLY OF 'OUT OF BODY' FEELINGS - VERY STRONG SOME TIMES.

13) Other than the event you have reported, did anything else 'odd' or 'out of place' occur around the time of the observation?

if yes, describe

NO.

14) Did any other witnesses experience anything in relation to questions 10, 11, 12 and 13?

if yes, describe

I DONT KNOW, I CAN'T ANSWER FOR HER - MAYBE.

SECTION G Prevailing Weather during your Observation

REPORT OF AN UNIDENTIFIED FLYING OBJECT

MINISTRY OF DEFENCE
Sec/AS12
08 AUG 1994
EYE 12/2

- 1. Date, Time & Duration of Sighting Tuesday 2 Aug 2315L Several minutes

- 2. Description of Object (No of objects, size, shape, colour, brightness) One object. Round. Bright.

- 3. Location, indoor/outdoor, stationary/moving Outdoor. Stationary.

- 4. How observed (naked eye, binoculars, other optical device, still or moving) Naked eye.

- 5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing) Westerly.

- 6. Angle of Sight (Estimated heights are unreliable) Angle not given. 400 feet high.

- 7. Distance (By reference to a known landmark) Several miles.

- 8. Movements (Changes in 5,6 & 7 may be of more use than estimates of course and speed) Remained still.

- 9. Met conditions during observations (Moving clouds, haze, mist etc) Muggy. Thundery.

- 10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting) Nil

11. To whom reported (Police, military, press etc) RAF Duty Officer Sunday AM

12. Name & Address of Informant

Section 40

Section 40 North Petherton, Somerset.

Section 40

13. Background of Informant that may be volunteered
Seems to have reported matters before and incensed at no action.
-
14. Other Witnesses
Also seen by wife. Also "sensed by dogs". (Two German shepherds).
-
15. Date, Time of Receipt (in AFOR)
08 August 1994 at 0005Z
-
16. Any Unusual Meteorological Conditions
Thundery, close weather.
-
17. Remarks
"Dogmatic" statements. Went on and on for 20 minutes. Really seemed to want someone to talk at. However, not drunk.
-

INVOLVEMENT OF THE BELGIAN AIR FORCE

I thought it would be worthwhile to describe briefly the social context before going on to discuss the involvement of the Air Force in the debate on UFOs.

When I was asked to attend the SOBEPS press conference on 18 December 1989, as Chief of Operations of the Air Staff, I was sceptical about the existence of UFOs. Having said that, I was determined to approach the problem without prejudice, as far as possible, and to examine it in an objective manner. Two factors became apparent to me during this press conference. Firstly, the evidence was remarkable. It was not frivolous and was presented in a natural and rather modest manner: no trace of sensationalism or exaggerated media "hype". Secondly, the approach of SOBEPS was sober, objective and based on scientific facts. Evidence which could be linked to natural phenomena was rejected immediately. Another important factor: certain journalists had the armed forces as their target, in particular the Air Force. The phenomena observed were alleged to have been experimental aircraft, the existence of which was to be concealed from the public.

Some saw a link with the F-117 and used the opportunity to criticise American "imperialism". The alleged servility of the Belgian authorities, who had, consciously or not, allowed such experiments, was also denounced. Moreover, there were rumours to the effect that observations of certain UFOs had been made by military radars, about which no information could be disclosed.

Initially, the Air Force was obliged to deny the hypothesis of experimental test flights. This was fairly simple, and the context is amply described in the previous chapters. The Air Force could put its cards on the table for the simple reason that there was nothing to hide, and that it was impossible from a technical point of view that an F-117 could have been involved.

In addition, the seriousness of the evidence and the professionalism of SOBEPS were factors which prompted the Air Force to decide on the need for a more in-depth study. This is why it had decided before the holding of the press conference to try to identify the nature and origin of certain observed phenomena. The big question was, however, with what means?

THE MEANS

Every flight in Belgian airspace carried out between the setting and rising of the sun by any aircraft whatsoever must be the subject of an official request and must receive clearance from the civil and/or military authorities. These two bodies are responsible for coordinating all air movements during the night so that the identity of all aircraft in flight is known, together with their intentions, the aim being, of course, to ensure the safety of air navigation. In the case of the UFO observations, it was therefore a case of checking whether any non-regulation flight had been carried out. If this were indeed found to be the case, it goes without saying that we would have to try to identify these aircraft.

One of the most obvious means of detecting intrusions is radar. In addition to the approach radars of the various airfields, the Air Force has two powerful detection radars integrated into the NATO defence system and operational round the clock. The detection range of these radars is in excess of 300 km. Aircraft can be detected up to an altitude of approximately 30 km, whilst the minimum altitude depends on their position and the distance between them and the station. This goes without saying when one realizes that radar waves cannot see round corners and that each target hidden behind the horizon line or behind an obstacle (a hill, for example) cannot generally be detected.

In normal circumstances, the radar controller sees only the aircraft which have already undergone a selection procedure. In fact, a computer analyses the reflected waves and will reject all echoes which do not meet the preprogrammed standards (for example, the flight envelope of an aircraft). The controller therefore sees only the synthesized image of the radar echoes which in all probability represent aircraft.

In this way, spurious signals are eliminated. The latter, better known to the controllers as "angels" (see contribution of **Section 40** **Section 40**) can be caused by atmospheric disturbance, for example a layer of atmospheric inversion which deflects radar waves which, in their turn, are reflected by, among other things, by moving objects on the ground.

The controller can switch off the computer filtering so that he can observe on the screen all the echoes, including the "angels" (so-called "raw video" mode). It should be added immediately that the radar operators have little experience of this way of working and there are many echoes of which the origin is unknown.

In the case of UFO observations, the radar controllers were asked to pay particular attention to the echoes (even on "raw video") which appeared in the region of the visual observations on the ground. Thus, a number of radar echoes were recorded where it was impossible to know whether they were "angels" or real aircraft in flight. Hence the rather cautious attitude of the Air Force, particularly at the beginning of the period of observation and the resulting criticism that certain information could not be disclosed.

Apart from these radar stations, the Air Force also has an Interception Wing equipped with F-16 combat aircraft at Beauvechain, approximately 30 km south-east of Brussels. Two of these F-16s are permanently ready to take off within five minutes, following an order given by a duty officer within the NATO defence system. The duty radar controller can, if necessary, obtain such authorization within a very short time. The condition is that a concrete radar observation of unknown origin occurs and that he requests visual identification, using the two F-16 ready for immediate take-off. This procedure is the subject of regular exercises: the pilots are from time to time sent up to identify presumed intrusions, simulated or not. The purpose is to rehearse all the procedures in depth so that, in case of need, an urgent intervention can take place without problems.

After the first wave of observations on 29 November 1989, the Air Force instructed the radar controllers and the combat pilots to be vigilant and if necessary to initiate an identification procedure. For this purpose, only the existing resources, i.e. two ground radars and the F-16s, were to be used. The aim was to check whether the UFOs were real or not. After confirmation, we would move to the second stage, identification and determining whether the safety of air traffic was threatened.

ACTIONS

Coordination between the ground observations and the radar control centre of Glons posed, in this context, the greatest problem.

The Gendarmerie is the organization one immediately thought of to carry out this task. To this end, the telephone number of the radar station of Glons was passed to the gendarmerie brigades concerned so that they could inform the controllers of the position of the geographical positions of certain objects observed.

The number of links in the chain of communication between the observers on the ground and the pilots whose task it is to identify any flying objects represented a major handicap (telephone call to the gendarmes, patrol in position, radio link with the brigade, call to the Glons centre, telephone call to the controller and radio link with the pilots in flight).

Like the Air Force, the Gendarmerie was unable to deploy any additional resources to carry out its mission. Quite logically, priority was given to the traditional tasks assigned to the few gendarmes on duty in the evening and at night, resulting in a not inconsiderable loss of time, since it was impossible to react promptly to specific calls at a specific time.

The Air Force carried out a number of concrete actions. In a first action on the evening of 2 December, two F-16s were sent to the Liège area where a possible sighting had taken place. A telephone call from the Gendarmerie informed the duty controller of a ground observation; the latter noted at the position indicated a radar echo (on raw video) which possibly confirmed the visual observation. The F-16s were dispatched to the position, saw nothing and returned to their base. According to the radar controller, the echo disappeared when the F-16s approached the area and reappeared after their return to base.

The mystery remains unresolved.

Two aircraft were sent on a second mission following innumerable telephone calls from the Hasselt area. The ground radars had seen nothing and the F-16s were able to identify the origin of the phenomenon as laser projections onto a cloud layer. Analysis of the facts has shown that these observations were completely different from those made earlier in the province of Liège.

After this incident, orders were given not to dispatch aircraft without previous radar observation and without formal

confirmation of the ground observations by the Gendarmerie.

Then there was the action of the night of 30 to 31 March 1990 described in this book.

In this case, the Air Force reacted only after telephone confirmation from the Gendarmerie of a number of observations in the Wavre region and after simultaneous observation by two ground radars. The F-16s carried out several interceptions with the aid of directions from the duty radar controller. Certain data were recorded by the airborne radars of the F-16s; their technical analysis is described in **Section 40** contribution to this book.

The Air Force itself approached the affair with the greatest caution. Electromagnetic interference which can lead to false conclusions is not unusual both for airborne and ground radars. Interference on airborne radars is however generally caused by ground conditions whereas the recordings on 30/31 March were made at an altitude of approximately 3 km. Moreover, a correlation was noted at certain times between the data originating from the two airborne radars and at least one ground radar. The recording of identical data by three different systems at given times means that we cannot rule out the possibility that one or more unidentified aircraft were indeed operating in Belgian airspace.

It should be said immediately that this was the first time that an in-depth analysis had been carried out of data completely outside the area of known performance in the aeronautical field. Was it really a question of aircraft or of exceptional electromagnetic interference?

The pilots themselves had no concrete visual contacts, which are in fact very difficult to obtain in view of the incalculable number of points of light visible at night over Belgium with a cloudless sky and good visibility. However, when a pilot locks on his radar to a possible target, an indication of the place where it should be located is displayed on his screen. Nothing was recorded by the pilots during the various lock-ons carried out. If these targets had been illuminated, this would certainly have been the case. Is this proof that there was nothing in the air and that it was a matter of electromagnetic interference? Certainly not: eye-witnesses at Petit-Rosière stated that the bright spots they were observing lost their intensity as the F-16s approached or were even extinguished completely.

Why was no definite correlation found between the ground observations at Ramillies and the recordings of the airborne radars of the F-16s?

According to eyewitnesses, the luminous objects sometimes travelled in jerky movements, subsequently stabilizing at a determined geographical position.

But in its interception function, the radar of an F-16 cannot detect a static object, for the simple reason that the system rejects all echoes of objects moving at relative speeds of less than +/- 100 km.p.h.

This filtering was incorporated into the system to avoid the airborne radar detecting all the cars or other objects on the ground and therefore to prevent the screen from being cluttered by too large a number of echoes.

The pilot is interested only in aircraft and helicopters moving at higher speeds. These latter targets will be the only ones to be projected onto the screen, enabling the pilot to see the flight profile and, if necessary, to carry out an interception.

From a technical point of view, it was therefore impossible to detect luminous objects with the airborne radar if they remained immobile or moved at low speeds.

At all events, the Air Force has arrived at the conclusion that a number of abnormal phenomena have occurred in Belgian airspace.

The extensive evidence of ground observations collected in this book, reinforced by the recordings of the night of 30/31 March, have led us to consider the hypothesis that a number of unauthorized air activities have indeed taken place.

So far, no trace of aggression has been reported; military and civil air traffic has been neither disrupted nor threatened. It can therefore be advanced that the alleged air activities constituted no concrete threat.

Since the armed forces react only in the event of a potential threat, it was decided not to use additional resources or personnel beyond the existing and available air defence systems. I believe that as regards the ground observations, the Gendarmerie has arrived at an identical conclusion.

ANNEX A TO
SO 502
E102/4
0 1 AUG 1994
File

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1.	Date, Time & Duration of Sighting	30 Jul 94 0315 8 to 10 secs
2.	Description of Object (No of objects, size, shape, colour, brightness)	Looked like the top half of a five pointed star, approx five feet long, surrounded by a white ball of light
3.	Location, indoor/outdoor, stationary/moving	Outdoors but viewed from indoors (1st floor).
4.	How observed (naked eye, binoculars, other optical device, still or moving)	Naked eye
5.	Direction in which object first seen (A landmark may be more useful than a badly estimated bearing)	Towards Stratford Railway Station
6.	Angle of Sight (Estimated heights are unreliable)	Viewed from 1st floor - Approx 40 degree
7.	Distance (By reference to a known landmark)	Approx 200 yds
8.	Movements (Changes in 5,6 & 7 may be of more use than estimates of course and speed)	Erratic
9.	Met conditions during observations (Moving clouds, haze, mist etc)	Nil clouds, clear and dry.
10.	Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	NIL
11.	To whom reported (Police, military, press etc)	MOD only
12.	Name & Address of Informant	Section 40 London
	Tel	Section 40

13. Background of Informant that may be volunteered
See Remarks.

REPORTED UFO SIGHTING

THE FOLLOWING ARE DETAILS OF A REPORTED UFO SIGHTING AT HO

SUSSEX ON 23/07/94.

PAGE 2 RBDTCU 4001 UNCLAS

- A) OBJECT SIGHTED AT APPROX 1752HRS. SIGHTING LASTED FOR LESS THAN 5 MINS.
- B) ELONGATED IN SHAPE, SIMILAR TO CIGAR BUT FATTER, BLACK IN COLOUR. WHITE LIGHTS AT FRONT AND REAR ENDS. LIGHTS WERE VERY BRIGHT. NO NOISE OR SMELL.
- C) SEEN FROM SEAFRONT WINDOW OF SECOND FLOOR FLAT. OBSERVERS WERE STATIONARY
- D) OBJECT SEEN WITH NAKED EYE
- E) OVER THE SEA MOVING FROM EAST TO WEST
- F) OBJECT WAS OVERHEAD
- G) INFORMANT UNABLE TO JUDGE THE DISTANCE BUT BELIEVED IT WAS APPROX 2000 FT UP.
- H) OBJECT WAS PITCHING AND ROLLING FROM NOSE TO TAIL, DIVING VERY STEEPLY, BUT SEEMED TO BE MOVING IN DEFINITE AND REPEATED

PAGE 3 RBDTCU 4001 UNCLAS

- J) PATTERN BEFORE RECEDING AT SPEED OF APPROX 100 MPH AND INCREASING HEIGHT
- K) CLEAR BLUE SKY, SUNNY, VERY LITTLE CLOUD OR MIST
- L) NONE
- M) REPORTED TO POLICE ONLY
- N) **Section 40** **Section 40** **Section 40** HOVE
- O) INFORMANT STATED THAT SHE HAD WORKED FOR RAF FOR MANY YEARS AND THAT THE OBJECT WAS DEFINITELY NOT A PLANE OR BALLOON OF ANY KIND
- P) HUSBAND AND ANYONE ON THE BEACH
- Q) 23/7/94 AT 1802HRS

REPORT OF AN UNIDENTIFIED FLYING OBJECT

- 301900A Jun 94
1. Date, Time & Duration of Sighting

 2. Description of Object (No of objects, size, shape, colour, brightness) One white/yellow/orange coloured football-shaped object

 3. Location, indoor/outdoor, stationary/moving Outdoors

 4. How observed (naked eye, binoculars, other optical device, still or moving) Naked eye

 5. Direction in which object first seen (A landmark may be more useful than a badly estimated bearing) From Chadwell Heath moving in the London City direction.

 6. Angle of Sight (Estimated heights are unreliable) 80 degrees

 7. Distance (By reference to a known landmark) Not known, but very high up, possible 50,000ft

 8. Movements (Changes in 5,6 & 7 may be of more use than estimates of course and speed) Appeared, then disappeared then reappeared between clouds

 9. Met conditions during observations (Moving clouds, haze, mist etc) Clear blue sky with light strato-cumulous cloud.

 10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting) Nil

REPORT FORMUNIDENTIFIED FLYING OBJECT

A Date, Time and Duration of Sighting
26th June 94 0015 local / 1/2 hour duration.

B Description of Object Silvery grey colour. large outer circle with small inner circle moving in formation.

C Exact Position of Observer In a car on a dark country road between Blackburn and Armadale. West Lothian SCOTLAND.

D How Observed Naked eye.

E Direction in which Object was First Seen Keeping track moving alongside vehicle, but also observed in other directions.

F Angular Elevation of Object Overhead

G Distance of Object from Observer 400 - 500 feet away from reporter.

H Movements of Object Going from side to side. Seemed to expand further away object travelled. Got smaller the nearer to reporter it got.

J Meteorological Conditions During Observations.
Moving clouds, haze, mist etc Cloudy, not raining

K Nearby Objects Reporter only able to report that she was on a dark country road.

L To Whom Reported Initially to Livingston Police who informed reporter that Air Traffic Control deal with these reports.

M Name and Address of Informant Section 40

N Any Background Information on the Informant that may be Volunteered Returning from wedding in Edinburgh when sighting occurred. Photographs of object taken.

O Other Witnesses 3 other occupants in car with reporter.

P Date & Time of Receipt of Report For info: Reporter also said that whilst observing reported object an aircraft came into view.
26th June 1994 0945/1000 Local.

UFO SITING

1. Reported by: **Section 40**
Hadleigh
Suffolk
Section 40
2. Date: 28 May 1994
3. Time: 2300 Hours
4. Details: 8 orange spherical glowing lights were seen heading south at an estimated height of 30,000'. They crossed the sky line and then appeared to climb rapidly and disappear. No strobe lights were seen and this is the reason he assumed that it was not an aircraft.

REPORT ON UNIDENTIFIED FLYING OBJECT

Date, Time and Duration of Sighting 21/5/94 0015 (local)
DURATION APPROX 10 MINS.

Description of Object ROW OF 5 WHITE LIGHTS. HORIZONTAL.
3 LIGHTS CLOSE TOGETHER. TWO REMAINING APPEARED
AT EACH END AND APPEARED TO BE AT A DIFFERENT ANGLE.

Exact Position of Observer LARGS TO WEST KILBRIDE ROAD.

How Observed SEEN BY REPORTER AND TWO OTHER WITNESSES
WHILE TRAVELLING IN A CAR.

Direction in Which Object was First Seen REPORTER WAS FACING SOUTH EAST.
RIVER CLYDE ESTUARY WAS TO HIS RIGHT.

Angular Elevation of Object APPROX 45° FROM OBSERVED POSITION.
APPROX 800 FT ABOVE GROUND.

Distance of Object from Observer LESS THAN 0.5 MILE,
APPROX 400 - 600 YARDS.

Movements of Object NO MOVEMENT. LIGHTS WERE STEADY.

Metecrological Conditions CLEAR NIGHT. NO CLOUD OBSERVED.
During Observations MOON AND STARS CLEARLY VISIBLE.

Nearby Objects ONLY NEARBY OBJECTS WERE ON THE GROUND.
OBSERVED OBJECT WAS DISTINCTLY CLEAR OF
OF THE GROUND.

 - 19 MAY 1000L.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

2130 - 2230 Z

1. Date, time & duration of sighting	10:30 pm - 11:30 pm , Tuesday 10 th May
2. Description of object (No of objects, size, shape, colour, brightness, noise)	One cigar-shaped object, red fleshy lights both ends, very loud sound pulsating like generator, 4 x louder than helo.
3. Exact position of observer (Indoors/outdoors, stationary/moving)	Outside in village of Stedbridge, Dorset. Chased object in car, towards Thorn Hill, nr Sturminster Newton
4. How observed (Naked eye, binoculars, other optical device, camera or camcorder)	Naked eye
5. Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	Object generally on a NW-SE heading, but appeared to circle around her car during chase, ie aware of her
6. Angle of sight (Estimated heights are unreliable)	Object described as huge + low. c 100 yards away, so close she thought it'd landed near
7. Distance (By reference to a known landmark)	See above. 100 yards at closest.
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	Virtual hover at some times, speed "like a helicopter" at others
9. Met conditions during observations (Moving clouds, haze, mist etc)	N/k
10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Other houses, road, etc.

11. To whom reported (Police, military, press etc)	CAA , Sec (AS) 2a
12. Name & address of informant	Section 40 [REDACTED]
13. Background of informant that may be volunteered	N/k
14. Other witnesses	N/k , but noise of object woke other villagers
15. Date and time of receipt	11 th May , pm
16. Any unusual meteorological conditions	Partial eclipse of sun earlier in evening , but nothing else
17. Remarks	Do not believe airship was in area , but am checking . * Have also requested log & trace to see if any military low flying was booked at time / location in question . **

Section 40 [REDACTED]

Sec (AS) 2a

* - Virgin Lifelines confirmed it wasn't

** - Attached

The Log & Trace you requested.

1 x Seaking	Yeovilton	2100 - 2108 2240 - 2259	250 feet 250 feet
1 x C130	Alconbury	2021 - 2108 2112 - 2117	500 feet 500 feet
1 x Gazelle	Yeovilton	2200 - 2215 2215 - 2130	100 feet 100 feet
2 x Seaking	Yeovilton	2030 - 2200	100 feet
3 x Seaking	Yeovilton	2100 - 2230	100 feet
1 x Seaking	Yeovilton	2100 - 2130	100 feet
1 x Lynx	Yeovilton	2100 - 2300 2100 - 2300	Ground Level Ground Level
1 x Lynx	Portland	2115 - 2145	100 feet
1 x C130	Alconbury	2108 - 2112	500 feet
1 x Seaking	Yeovilton	2205 - 2240	100 feet

I hope that this meets your requirements.

REPORT FORM

UNIDENTIFIED FLYING OBJECT

A Date, Time and Duration of Sighting

15th April 1994 2200 5 minutes.

B Description of Object 2 balls with a blue light and a red light which crossed in the sky at high speed.

C Exact Position of Observer Outside Whitburn Academy whilst driving towards Whitburn (West Lothian). Person reporting was approaching from the east.

D How Observed Naked eye

E Direction in which Object was First Seen direction . Noticed by informant travelling in a southerly direction crossing right to left

F Angular Elevation of Object Higher than you would spot on aircraft.

G Distance of Object from Observer Seen clearly but not clear enough to make out detail.

H Movements of Object Straight line.

J Meteorological Conditions During Observations. Moving clouds, haze, mist etc Very clear night.

K Nearby Objects

L To Whom Reported Initially to Livingston Police Station who gave informant telephone number of SCORTEC to whom this report was made at Watch Supers desks.

M Name and Address of Informant Section 40

N Any Background Information on the Informant that may be Volunteered

Informant was travelling to work at the time

O Other Witnesses On 16th at 02:52 Section 40, a colleague of the informant, saw a round object with red lights all round and 3 beams of white light radiating from bottom of object

P Date & Time of Receipt of Report This object was hovering and was also witnessed by a taxi driver.

21st April 94 12:10Z

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time & duration of sighting	Saturday 16 th April, c 8.40 pm
2. Description of object (No of objects, size, shape, colour, brightness, noise)	One bright light, fluctuating in colour between yellow, green, red + white
3. Exact position of observer (Indoors/outdoors, stationary/moving)	At home in Buckton, Parkys. Outside.
4. How observed (Naked eye, binoculars, other optical device, camera or camcorder)	Naked eye + binoculars
5. Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	N/k
6. Angle of sight (Estimated heights are unreliable)	Very low towards horizon, c 8°
7. Distance (By reference to a known landmark)	In distance, but noticable
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	Reappeared in different part of sky later in evening. Seen again on Sunday, and again re-appeared, but this time in different location, ie not seen/heard.
9. Met conditions during observations (Moving clouds, haze, mist etc)	Clear
10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Houses

11. To whom reported (Police, military, press etc)	Buxton police station, Sec (AS) 2a
12. Name & address of informant	Section 40
13. Background of informant that may be volunteered	N/k
14. Other witnesses	Section 40 wife + son (11). Several neighbours
15. Date and time of receipt	Mon 18 th April, pm
16. Any unusual meteorological conditions	No
17. Remarks	Used to seeing aircraft lights etc, as in flight path. Neighbour asked to take video, but too far away to focus. Gave details of UFO groups.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time & duration of sighting	17/3/94, 1650 GMT
2. Description of object (No of objects, size, shape, colour, brightness, noise)	One huge object making controlled re-entry with horseshoe shaped shock wave envelope c 50 miles wide + 200 miles long.
3. Exact position of observer (Indoors/outdoors, stationary/moving)	On Section 40 Airways flt, at 61° 02.3 N (c 200 miles E of Moscow) 42° 44.1 E
4. How observed (Naked eye, binoculars, other optical device, camera or camcorder)	Naked eye
5. Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	Came in over pde, headed East. Speed estimated at 10-15,000 mph.
6. Angle of sight (Estimated heights are unreliable)	This aircraft was cruising at approx 33,000 ft.
7. Distance (By reference to a known landmark)	100 miles
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	Eventually lost sight of it after steady movement. No burn up witnessed.
9. Met conditions during observations (Moving clouds, haze, mist etc)	Sun had gone below horizon
10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Section 40 flight who also saw object. Section 40 flight was above Section 40

11. To whom reported (Police, military, press etc)	PRA Farnborough, Sec (AS) 2a
12. Name & address of informant	Section 40
13. Background of informant that may be volunteered	Section 40
14. Other witnesses	Section 40 - Captain + crew of Section 40 1st officer flt 6 Tokyo
15. Date and time of receipt	7 th April
16. Any unusual meteorological conditions	No
17. Remarks	Believed at first it must be been space shuttle, but subsequently found out it was already down. Believed it was definitely structured craft, probably satellite. Said it wasn't "Aurora", which he'd seen! Flight crew got quite concerned.

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time & duration of sighting	late on Tuesday 29 th March, c 11.15 pm
2. Description of object (No of objects, size, shape, colour, brightness, noise)	Three lights, red + green, in triangular shaped object, similar to space shuttle. Thought he was witnessing an crash
3. Exact position of observer (Indoors/outdoors, stationary/moving)	Driving near Ross on Wye, Hereford
4. How observed (Naked eye, binoculars, other optical device, camera or camcorder)	Naked eye
5. Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	N/k
6. Angle of sight (Estimated heights are unreliable)	Object was low
7. Distance (By reference to a known landmark)	very close
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	Travelled up in steep climb, then dived - thought it must've crashed it was so low
9. Met conditions during observations (Moving clouds, haze, mist etc)	N/k
10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	N/k

11. To whom reported (Police, military, press etc)	Police, CAA, Sec (AS)2a
12. Name & address of informant	Section 40
13. Background of informant that may be volunteered	None
14. Other witnesses	Section 40 Father
15. Date and time of receipt	Wed 30 March
16. Any unusual meteorological conditions	N/A
17. Remarks	<p>Phone around roundabout 4 times, believing it must have come down. Turned on radio news, and reported to police when he got home. Gave him details of UFO groups.</p>

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time & duration of sighting	Thursday 21 st March, 9pm - 9:30pm
2. Description of object (No of objects, size, shape, colour, brightness, noise)	About 100 bright lights crossing the sky.
3. Exact position of observer (Indoors/outdoors, stationary/moving)	outside, near Wakefield, West Yorks
4. How observed (Naked eye, binoculars, other optical device, camera or camcorder)	Naked eye
5. Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	N/k
6. Angle of sight (Estimated heights are unreliable)	High in sky
7. Distance (By reference to a known landmark)	N/k
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	Steady movement
9. Met conditions during observations (Moving clouds, haze, mist etc)	N/k
10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	N/k

11. To whom reported (Police, military, press etc)	Manchester University, Quest International Ufo group, Sec (A5) 2a
12. Name & address of informant	Section 40
13. Background of informant that may be volunteered	Director of Investigations, Quest International
14. Other witnesses	7 witnesses
15. Date and time of receipt	28 March
16. Any unusual meteorological conditions	N/k
17. Remarks	Section 40 asked if we'd had any reports. I said no. He'd checked with Manchester University Astronomy Dept, who confirmed no meteor showers

REPORT OF AN UNIDENTIFIED FLYING OBJECT

1. Date, time & duration of sighting	Wednesday, 2 nd March, approx 7 pm, for around 4 minutes
2. Description of object (No of objects, size, shape, colour, brightness, noise)	Several lights, rather like street lights (ie sodium colour)
3. Exact position of observer (Indoors/outdoors, stationary/moving)	Had just finished playing golf with a friend, and was on golf course near Westbury, Wilts.
4. How observed (Naked eye, binoculars, other optical device, camera or camcorder)	Naked eye
5. Direction in which object first seen (A landmark may be more useful than a roughly estimated bearing)	Over Army training area at Brechem Penn
6. Angle of sight (Estimated heights are unreliable)	N/k
7. Distance (By reference to a known landmark)	approx a mile
8. Movements (Changes in 5, 6 & 7 may be of more use than estimates of course and speed)	No movement, although lights seemed to be coming on and off, then reappearing in different locations
9. Met conditions during observations (Moving clouds, haze, mist etc)	Some cloud
10. Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Golf Course. Lights from Westbury

11. To whom reported (Police, military, press etc)	Sec (AS)2a
12. Name & address of informant	Section 40 [REDACTED]
13. Background of informant that may be volunteered	None
14. Other witnesses	His golfing companion
15. Date and time of receipt	Thursday 3 March, c 10am
16. Any unusual meteorological conditions	N/A
17. Remarks	Section 40 will ring the local Army area, to see if they were operating anything at the time. He will also contact UFO groups.
