## REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. Received a phonecall from a Section 40 [redacted]. At 1708 hrs on Mon 23 Oct, he was driving home with a friend from work when they saw a very fast pale green phosphorous light shoot across the sky, between West Horndon and Upminster in Essex. The sighting lasted for 2 seconds then burned out. Section 40 [redacted] estimated that the light was 1,000 ft in the air and a mile away from them.

2. I explained the MOD's role in this matter and said that if any explanation came to light that I would ring him.

3. No unusual circumstances around this sighting. It sounded like a fireball or meteor oxydising and burning out.

## REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. Received a call from a Section 40 [redacted] Northants. Yesterday evening at 2243 hrs she was driving down the Deanshanger Byepass and saw 2 Bright yellow lights above tree level. Underneath these two lights she saw several small lights which looked like the top deck of a double decker bus' lights. These were paler yellow. She lives on a boat and her husband was walking along the tow path to meet her from her car and he saw the same sight 15 minutes or so earlier than she did.

2. I explained our position, and took her phone number and said that if we were able to shed any light on the sighting we would contact her. Her No (a mobile) is Section 40 [redacted]

3. I do not know of any other reports yet in that tie in with this one.
