Date:

25 February 2005

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 20 February 2005, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received eight other reports of 'UFO' sightings for 20 February 2005, and two were from Somerset, Wilts, Dorset, Devon, Leicestershire, London and Cardiff in South Wales. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

**Section 40**

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 20 February 2005, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received five other reports of 'UFO' sightings for 20 February 2005, and they were from London, Leicestershire, Somerset, Wiltshire and Cardiff, South Wales. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 20 February 2005, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received two other reports of 'UFO' sightings for 20 February 2005, and that one was from London and the other from Leicestershire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 20 February 2005, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received two other reports of 'UFO' sightings for 20 February 2005, and that one was from London and the other from Cardiff, South Wales. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

**Section 40**

## REPORT OF AN UNEXPLAINED AERIAL SIGHTING

|    |                                                                                                                        |                                                                                                               |

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen in 2005, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can't confirm whether we received any other reports of 'UFO' sightings on the day you saw the 'UFO', as you did not forward this office, a date or time of the sighting. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen in 2005, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can't confirm whether we had any other reports of 'UFO' sightings on the day you saw the 'UFO', as you did not forward this office, a date or time of the sighting. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

10 February 2005

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 8 February 2005, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 8 February 2005 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

1 February 2005

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 24 January 2005, the details of which you reported to Belfast Int. Airport and RAF Aldergrove. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 24 January 2005 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

**Section 40**

## REPORT OF AN UNIDENTIFIED OBJECT

- A. Date, Time and duration of sighting 24/1/05 - 2310 - 15 MINS.  
2345 - 10 MINS.
- B. Description of Object:- 18 LIGHTS MOVING ACROSS SKY
- C. Exact Position of Observer:- HOUSE AT PORTADOWN
- D. How Observed? NAKED EYE
- E. Direction in which Object was first seen:- TOWARDS THE NORTH
- F. Angular Elevation of Object:- 70° - 90°
- G. Distance of Object From Observer:- UNKNOWN
- H. Movements of Object:- TOWARDS THE NW
- J. Meteorological Conditions during Observations:- CLEAR SKY
- K. Nearby Objects:- NIL

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 5 September 2004, the details of which you e.mailed to the Public Ministers office, who then in turn passed it to us. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received one other report of a 'UFO' sighting for 5 September 2004 and that was in Barry, South Wales. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

FILE .....

**TREAT OFFICIAL CORRESPONDENCE**

To DAS (LA) P&P  
CC.

TO Ref No 830 /2005

Date 25-1-05

The Prime Minister/SofS/Min(AF)/Min(DP)/USofS/MOD\* has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department\*.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent **within 15 working days of the above date**. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of letters sent by officials on the PM's behalf for his perusal.

Most correspondence involves some form of request for information – even if it is only a request for clarification of Government policy – and is therefore covered by the Freedom of Information Act (FOIA) from January 2005. In general, if you meet the deadline for responding to correspondence, and comply with any requests for information, there is no need to do anything differently as this will meet the requirements of the Act. However, if the correspondence requests information which is not already in the public domain, and which might need to be withheld, then you should treat it as a FOIA request, track it using the Access to Information toolkit, and comply with the separate FOI guidance from DG Info (see <http://aitportal/default.aspx> for details). However, the deadline for responding to correspondence will still apply. If you are in any doubt as to whether a piece of correspondence should be treated as an FOIA request, you should ask your FOI Focal Point or refer to the guidance produced by DG Info.

It is vital that branches ensure they have simple systems to record and track correspondence received from members of the public. This information should be regularly monitored and reviewed against the targets for answering correspondence published in the Spending Review 2000 Service Delivery Agreement for the Ministry of Defence.

**As part of our monitoring procedure, random spot checks on the accuracy of your branch records on correspondence will be performed throughout the year.**

Dear Sirs,  
I have still not recieved any response to the correspondence I sent to you on the 24 January 2005.  
Please can you deal with the Observation matter described below and respond.  
Thank you.  
For security reasons, I do not wish to use the post to send a full report of the matter - perhaps a MOD or local military officer could visit my home to obtain a full report. The government still needs to fulfil its international obligations in these matters regardless of whether or not the UK government itself wishes to acknowledge or record such incidents.  
Regards,

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 15 January 2005, the details of which you reported to Staffordshire Police. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 15 January 2005 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

## UNIDENTIFIED FLYING OBJECTS

A controller receiving a report about an unidentified flying object must obtain as much as information as possible required to complete a report in format shown below.

### Report of Unidentified Flying Object

**A Date, Time and Duration of Sighting**

Local times to be quoted

14 JAN 2005. 0024Z. "THEY'VE BEEN THERE A WHILE"

**B Description of Object**

Number of objects, size, shape, colours, brightness, sound, smell, etc

2 BRIGHT ORANGE LIGHTS, REALLY BRIGHT AND ROUND

**C Exact Position of Observer**

Geographical location, indoors or outdoors, stationary or moving

Section 40

LEADS. INDOORS

**D How Observed?**

Naked eye, binoculars, other optical device, still or movie camera

NAKED EYE

**E Direction in which Object was first seen**

A landmark may be more useful than a badly estimated bearing.

NO INFORMATION

**F Angular Elevation of Object**

Estimated heights are reliable.

NO INFORMATION

**G Distance of Object from Observer**

By reference to a known landmark, wherever possible.

NO INFORMATION

**H Movement of Object**

Changes in E, F and G may be more useful than estimates of course and speed.

NO INFORMATION

**J Meteorological Conditions during observations**

Moving clouds, haze, mist etc.

STILL + CLEAR

**K Nearby Objects**

Telephone or high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or other lighting.

STREET LIGHTS

**L To whom reported**

Police, military organisations, the press etc.

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 1 September 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 1 September 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

## Report of Unidentified Flying Object

- a) Date, Time and Duration of Sighting. 10/12/04 1725 2 mins
- b) Description of Object  
Ball of fire with a tail 5-7 times the diameter of the ball. Bright orange with a weaker orange tail.
- c) Exact Position of  
Borxburn, Edinburgh
- d) How Observed  
Naked eye from inside a car
- e) Direction in which Object was First Seen  
North
- f) Angular Elevation of Object  
 $\approx 60^\circ$
- g) Distance of Object from Observer  
Not known
- h) Movements of Object  
Moving at aircraft speed in a slight arc, north to south
- j) Meteorological Conditions During Observations  
Partly cloudy
- k) Nearby Objects  
-
- l) To Whom Reported  
ATC Edinburgh + SeACC Supervisor
- m) Name and Address of Informant  
\* Section 40 Section 40 Section 40
- n) Any Background Information on the Informant that may be Volunteered  
-
- o) Other witnesses  
-
- p) Date and Time of Receipt of Report  
10/12/04 1810

Dear

Thank you for your letter dated 26 November 2004, and the enclosed notes, regarding the sightings you saw in 1996 and 1998.

This office is the focal point within the Ministry of Defence for correspondence relating to 'UFO's.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

Also, the MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

**TREAT OFFICIAL CORRESPONDENCE**

To DPS (LA) PTD

TO Ref No 10168 /2004

cc:

Date 8. 12. 04.

The Prime Minister/SofS/Min(AF)/Min(DP)/USofS/MOD\* has received the attached correspondence from a member of the public, which this office has neither retained nor acknowledged. Please send a reply on behalf of the PM/Minister/Department\*.

Ministers attach great importance to correspondence being answered promptly, and your reply should be sent **within 15 working days of the above date**. If, exceptionally, this should prove impossible, an interim reply should be sent within the same timescale. You should be aware that No 10 periodically calls for a sample of letters sent by officials on the PM's behalf for his perusal.

An 'Open Government Code of Practice on Access to Government Information' came into force in 1997. All replies to members of the public must be in accordance with the procedures set out in the Code. In particular, information can only be withheld if it falls within the scope of a particular exemption. However, some exemptions are subject to a 'public interest test', whereby the harm associated with disclosure must be weighed against the public interest in release. Applicants must be informed of any decision to apply an exemption and of their right to appeal against this decision by writing to D Info(Exp). A full explanation is contained in DCI(Gen) 232/01; further information is available from DG Info on **Section 40**

It is vital that branches ensure they have simple systems to record and track correspondence received from members of the public. This information should be regularly monitored and reviewed against the targets for answering correspondence published in the Spending Review 2000 Service Delivery Agreement for the Ministry of Defence. In addition, we are required to keep information on the number of requests for information that specifically refer to the Code of Practice.

As part of our monitoring procedure, random spot checks on the accuracy of your branch records on correspondence will be performed throughout the year.

Re: UFO.

Dear Sir,

I enclose details of the notes  
I made in 1996 and 1998 when I was  
living at Section 40 NEW MILTON.  
in HAMPSHIRE.

Having recently seen a film  
on television regarding UFO's. I managed  
to find my notes, which may be of  
interest for your records.

Yours sincerely

Section 40

These notes have not been given  
to anyone in the past Section 40

COPY  
 '96  
 Tuesday 1st October / approx 5.30 AM.

Fine Morning & clear Sky - Stars Visible.

I raised the blind in the kitchen window, which faces North and saw an object flying West to East. I went outside the house, (it took a few seconds to unlock the back door) I could still see the flying object, there was no noise, and it was illuminated, & reasonably slow speed. However, the object was not travelling very fast, and much to my surprise another flying object coming along on the same course <sup>in size</sup> was visible, well lit, but just slightly smaller, but no noise from the sky. I checked the clock at 5.35 AM.

The flight path was West to East above the line of trees at the bottom end of our garden - difficult to judge the height. I only wished my binoculars were available, it was so unexpected.

Seeing is believing!!

Thurs. 17 Sept. 98. approx 5.22 AM. clear, starlight sky, object flying West to East, illuminated, some sound, not travelling very fast. a further object some distance behind at higher level, not as ~~with~~ large as <sup>first object</sup> seen in '96.

The first one this morning showing at least 3 lights the second of with one bright light.

about 5 minutes after this event, aircraft noise arose from west from airport, in no way connected to objects seen in the sky. However, I was not so surprised as I was two years ago. I generally have a careful look after previous '96 sightings. Quite unexpected.

Dear **Section 40**

Thank you for your letter dated 26 November 2004.

I am writing with reference to your report of an 'unidentified flying object', seen on 26 November 2004, the details of which you included in your letter.

As stated in my previous letters, you will know our policy on 'UFO's.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 26 November 2004 from anywhere in the UK. We are satisfied there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

If the MOD ever became aware of any evidence which might suggest a potential threat, action would be set in hand to investigate, analyse and counter that threat in the light of the circumstances which prevail at the time. This applies to any form of threat to the UK's security from whatever source. UK airspace is continually policed to ensure that no such aircraft enters our airspace.

As to your other comments in your letter, they have been noted and your letter will be placed on our files.

Yours sincerely

**Section 40**

Surrement, is. If there is a cover up - they are Scott Beery?  
 Why would he need to cover up? Why they are there?  
 So that why I feel people need answers, Sufferer  
 Crafts - Technology, leads to "who is in charge? of who."  
 An Astonaut said some last week in Newsstate as he  
 flew over Area 51 - Saw 'Things' he said, who is in charge of  
 Area 51? People would rather know truth. It not truth  
 if you, Don worry. © Judges Postcards Ltd., Hastings, England PN/971  
 and it looks too, why am I involved to witness them? close  
 I hope you are aware, no doubt now. Yours sincerely

Returning at 9 PM See a Sulphur Home. I  
 Put my car in storage. 26<sup>th</sup> Friday. I looked up at moon  
 I couldn't believe my eyes, I witnessed a wave of  
 Yellow spheres at least 25, in groups of 5. Eastern  
 Direction Sway North. I called my Son, He was trying  
 to count them, But He couldn't handle it, He said  
 it disturbs him, so He went inside. I stood 15 minutes,  
 It was hard to count them so many he said long distance sight.  
 I know **Section 40** This is not a threat to your "Lower  
 Air space." One, much lower Bright - larger spheres, 2nd  
 experienced the before, This time I didn't stay till 5  
 moved, too cold.

There been little sign of them since August - Hardly  
 any clear skies, we not been taking notice, except me

Section 40

I saw, 6 week ago, as it flew over, from Behind a cloud, I witnessed what appeared to be a Large Beam stood out from cloud, Black-white colour. <sup>Beam</sup> which witnessed them, they do exist. He said I know.

I thought was Army & sphere, But I can't tell that. He seemed Reluctant to Talk, maybe He Has Had a Bad Day, as my Son - I will just say by it actions.

On 24<sup>th</sup> Wednesday. I was in Ayr, Went to Oakes Book Shop. To get Books for Sons Xmas, I couldn't get ~~Part~~ answers. He looked very Determined to find a Book to give them.

He told for a man kneeling Down to lower self. He was dressed in Business Suit, Grey Pin Strip, white collar-tie, Tall Broad Shouldered about 55 years old, In His Hand was Tomilly Soles Book, 'Unearthly Disclosure' as I stood waiting to Pass, I said, 'Oh I see you are interested in U.F.O. He said 'Unfortunately I am'. I said 'Do you Believe in them?' yes He said, 'Are you a witness to them, He didn't answer that Question. He said, "I want to find out if America is involved & covering up." He said 'if' So. Who is in charge of

Who? - He said and Unfortunately I'm involved. He never asked me anything of my views, as I said he witnessed them, they do exist. He said I know.

Perhaps I should have asked him to join me in a coffee & talk. - share, But He was undisturbed in what I could have told him. I think He knows more than me.

It is such a Relief to find other witnesses.

To me it like Judy mother Dimension in our life.

It were that flew over, is no illusion as I made sure I noted, & focused on Stars - the Difference of Star size yellow spheres on the more. I was startled to see so many - Had more passed before I noticed them?

I wonder now why that Gentleman found 'Unfortunately involved', The only Question I'd feel I would ask of

P.S.

I know you may not believe this, when I Red 67 Triangle in Sky 2001 with green light in Red Corner Near as Stuffed for Half an Hr.

2 months later, the most strange looking man knocked on my door, asked if I wanted Kleeneze Book. He never made a move, held a ledger. He was about 5 ft, emaciated looking face saunt-pale very large thin feet, very strange feet I noticed as he walked down my path. I shut the door, I had a bad feeling of the man, he looked so strange. I opened my door. He was gone, I looked all over for him, the way my house is situated I can see 3 streets clearly. There is no way he could have left my garden path even I know the Kleeneze Book, they just put Book through door - collect. The next month she came - I said about the Kleeneze man, she said there no men. He had no skills of a seaman. He had the strange feet-shoes.

1 Dns. Before in Men in Black

But there no way, that man could have got any  
Distance from my Street, without Being Seen By me.  
This is fact. There was no car. He never was to  
Neighbours I asked. I'm left with a mystery.?

He wore grey woolie Hat - grey anorak, I wanted a  
Shoe trade with a Section 40 in Edinburgh 'medical'  
He never seen anybody with Splay feet like Him ever  
- Lay pointed shoes. He just vanished from my Path.  
Definitely not 'Men in Black' He was a grey man all  
over face & all. He looked Half Dead.

I told Him I only like from Bellerbore, I Dns order Scotts  
& Kleenex Girl. Bellerbore man Been around 26 years.  
So He just look off. He was not carrying Kleenex Book  
He stood far Back in Porch, Hands crossed Holding a Ledger  
He made no move at all to give me a Book  
I wonder to this Day. If I had said yes. I would have?.

He Had No time to leave my Garden Path, yet He Vanished.

I Dns expect you to Believe this. But it's fact

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 11 November 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 11 November 2004 from anywhere in the UK. With regards to there being any military aircraft in the area at the time of your sighting, I enquired, and I can confirm that there was not. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry, I could not have been more help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 6 November 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 6 November 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

I am sorry I could not have been more help.

Yours sincerely

Dear **Section 40**

Thank you for your letter dated 22 October 2004. Sorry for not getting back to you sooner. Your letter took some time to get to the right department.

I am writing with reference to your report of the 'unidentified flying objects', seen in 2004, by two residents of Dumfries. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs', so UFO sightings should be reported to this office.

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to the particular observations, I can confirm that we received no other reports of 'UFO' sightings for the 9 September 2004 and the 12 October 2004 from anywhere in the UK. With regards to there being any military aircraft in the area at the specific dates and times, there was no military aircraft in the area on the 9 September, but on the 12 October between the hours

of 8pm and 11pm, there was a lot of military activity over Dumfries, Torandos and Hercules jets were low flying training. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

I hope this has been of help.

Yours sincerely

22<sup>nd</sup> Oct 2004

Dear Sirs,

I am the Director of a serious Ufo Research Group here in Scotland. A resident of Dumfries contacted me to report strange lights over the town on the 9<sup>th</sup> of Sept at around 11:20pm. Another lady contacted me again from Dumfries to report strange lights over the town on the 12<sup>th</sup> of Oct around 8:07am.

I have investigated all my usual avenues airline traffic, weather satellites etc but have not come up with anything that would explain these lights over the town of Dumfries. Could you tell me if any military aircraft were in the area on these dates and times. I did e-mail this enquiry to your das-laopsol1@defence.mod.uk e-mail address but never received a reply.

I hope you can help me with this matter, thanking you in anticipation.

Regards

Section 40

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 16/17 August 1998, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

The integrity of the UK's airspace in peacetime is maintained through continuous surveillance of the UK Air Policing Area by the Royal Air Force. This is achieved by using a combination of civil and military radar installations, which provide a continuous real-time 'picture' of the UK airspace. Any threat to the UK Air Defence Region would be handled in the light of the particular circumstances at the time (it might if deemed appropriate, involve the scrambling or diversion of air defence aircraft). We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry, after your experience, that I could not have been more help.

Yours sincerely

Section 40

## REPORT OF AN UNEXPLAINED AERIAL SIGHTING

|    |                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|----|------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. | <b>Date and time of sighting.</b><br>(Duration of sighting.)                                                           | 16/17 August 1998<br>22.00L to 10.00L                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2. | <b>Description of object.</b><br>(No of objects, size, shape, colour, brightness, noise.)                              | This is his second report, now says apart from one craft, saw about five others. One looked like a yellow moon, which was flickering. The second one looked like a triangle with three red lights flashing on the back of it. The other three looked like big silver balls moving in a circle formation in the sky above them. The noise overall was like a very loud roar of engines, the whole time the objects were moving around the sky. |
| 3. | <b>Exact position of observer.</b><br><b>Geographical location.</b><br>(Indoors/outdoors, stationary/moving.)          | The three men were in a wood on a camping holiday.                                                                                                                                                                                                                                                                                                                                                                                            |
| 4. | <b>How object was observed.</b><br>(Naked eye, binoculars, other optical device, camera or camcorder.)                 | All three men saw the objects with the naked eye.                                                                                                                                                                                                                                                                                                                                                                                             |
| 5. | <b>Direction in which object was first seen.</b><br>(A landmark may be more helpful than a roughly estimated bearing.) | Section 40 said the objects were just going round in circles above them in the sky.                                                                                                                                                                                                                                                                                                                                                           |
| 6. | <b>Approximate distance.</b>                                                                                           | Not really given, just said really high above them.                                                                                                                                                                                                                                                                                                                                                                                           |
| 7. | <b>Movements and speed.</b><br>(side to side, up or down, constant, moving fast, slow)                                 | The objects were going really slow.                                                                                                                                                                                                                                                                                                                                                                                                           |
| 8. | <b>Weather conditions during observation.</b><br>(cloudy, haze, mist, clear)                                           | The sightings started at 10pm, so it was dark and were still visible at 10am the next morning and the weather was really clear.                                                                                                                                                                                                                                                                                                               |

|     |                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

Dear **Section 40**

I am writing with reference to your reports of 'unidentified flying objects', seen at various times in various years, in America, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

Defence of American airspace is clearly a matter for the American Government and you may wish to pursue your enquiries with them.

Finally, you indicated that details of your sightings could be found on your website. You may wish to be aware, that we are unable to access your website.

I'm sorry I could not have been more help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen in 1998, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can't confirm whether we had any other reports of 'UFO' sightings on the day, of that year, you saw the 'UFO', as you did not forward this office a date or time of the sighting. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 10 October 2004, the details of which you passed to Swanwick ACC. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received one other report of a 'UFO' sighting for 10 October 2004 and that was in Glasgow. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 11 October 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO'/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 11 October 2004 from anywhere in the UK. With regards to there being any aircraft in the area at that time, it could have been civilian aircraft, but I have been told that no military aircraft, would have had the permission to be low flying at that time of the morning. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 10 October 2004, the details of which you reported to the National Air Traffic Services in Scotland Atlantic House. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 10 October 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 24 September 2004, the details of which you passed to CRO Wales. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received two other reports of 'UFO' sightings for 24 September 2004 and that they were in Wiltshire. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 30 September 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 30 September 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

**Subject:** Internet-Authorised: Re: Photograph.

Dear Section 40

Thank you for your e.mail of 20 September 2004 and the picture that was taken by your Dad on 28 July 2004, at the Valley of the rocks at Lynton near Exmoor. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report/sighting has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which is remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to the 'UFO' that your Dad took a picture of on the 28 July 2004, I can confirm that we received no other reports of 'UFO' sightings for 28 July 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry I could not have been more help.

Yours sincerely

Hi Section 40

This picture is actually my dads picture that he took on 28/07/04 at the Valley of the rocks at Lynton near Exmoor, i wasn't sure if this picture was clear enough but if you need a hard copy of this then let me know.

Many Thanks

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen three to four weeks ago, 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can't confirm whether other reports of 'UFO' sightings were seen or not seen on the day you saw the 'UFO', as you did not forward this office the exact date of the sighting. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

**Section 40**

## REPORT OF AN UNEXPLAINED AERIAL SIGHTING

|    |                                                                                                                        |                                                                                                                                                                        |
|----|------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. | <b>Date and time of sighting.</b><br>(Duration of sighting.)                                                           | Couldn't remember the date or time, just said three to four weeks ago.                                                                                                 |
| 2. | <b>Description of object.</b><br>(No of objects, size, shape, colour, brightness, noise.)                              | There were three to four discs, that looked oval shape when the discs moved to the side. Said that they moved in a triangular formation as they moved through the sky. |
| 3. | <b>Exact position of observer.</b><br><b>Geographical location.</b><br>(Indoors/outdoors, stationary/moving.)          | Indoors <b>Section 40</b> was in bed, looking out of the window.                                                                                                       |
| 4. | <b>How object was observed.</b><br>(Naked eye, binoculars, other optical device, camera or camcorder.)                 | The naked eye.                                                                                                                                                         |
| 5. | <b>Direction in which object was first seen.</b><br>(A landmark may be more helpful than a roughly estimated bearing.) | Not given.                                                                                                                                                             |
| 6. | <b>Approximate distance.</b>                                                                                           | Not given.                                                                                                                                                             |
| 7. | <b>Movements and speed.</b><br>(side to side, up or down, constant, moving fast, slow)                                 | Going really fast. Took only about a second and a half to do a width across the sky.                                                                                   |
| 8. | <b>Weather conditions during observation.</b><br>(cloudy, haze, mist, clear)                                           | Not given.                                                                                                                                                             |

|     |                                                           |                                                                                                                                                                              |

---

Dear Section 40

Thank you for your message on our UFO line on Thursday 23 September 2004.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

Sorry I could not have been more help during our phone conversation, or in my letter of the 17 September 2004.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 16 September 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 16 September 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 5 September 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or to the question of the existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 5 September 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

**Section 40**

## REPORT OF AN UNEXPLAINED AERIAL SIGHTING

|    |                                                                                                                        |                                                                                                                |
|----|------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| 1. | <b>Date and time of sighting.</b><br>(Duration of sighting.)                                                           | 5 September 2004<br>15.20L                                                                                     |
| 2. | <b>Description of object.</b><br>(No of objects, size, shape, colour, brightness, noise.)                              | The object was a bright light at first and then looked like a box kite. There was no sound, wings or fuselage. |
| 3. | <b>Exact position of observer.</b><br><b>Geographical location.</b><br>(Indoors/outdoors, stationary/moving.)          | Section 40 and his wife were sitting out in their garden.                                                      |
| 4. | <b>How object was observed.</b><br>(Naked eye, binoculars, other optical device, camera or camcorder.)                 | Both witnessed the object with the naked eye.                                                                  |
| 5. | <b>Direction in which object was first seen.</b><br>(A landmark may be more helpful than a roughly estimated bearing.) | The object after flying towards them, over their garden in Barry, flew due west over Cardiff Airport.          |
| 6. | <b>Approximate distance.</b>                                                                                           | 2,000 ft to 3,000 ft above them in the sky.                                                                    |
| 7. | <b>Movements and speed.</b><br>(side to side, up or down, constant, moving fast, slow)                                 | The object was going quite fast overhead.                                                                      |
| 8. | <b>Weather conditions during observation.</b><br>(cloudy, haze, mist, clear)                                           | The sky was very clear, was a very sunny day.                                                                  |

|     |                                                           |                                                                                                                                         |

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 4 September 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters to the question of the existence or otherwise of extraterrestrial lifeforms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 4 September 2004 from anywhere in the UK. As to your question from our telephone call, whether it was an aircraft of some sort, I enquired as to if there were any aircraft flying over Aldershot that day from the nearest base or any others, at the time of your sighting and have been told that there was not. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Sorry, I could not have been more help.

Yours sincerely

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying object', seen on 2 September 2004, the details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to 'UFOs.'

First, it may be helpful if I explain that the Ministry of Defence examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external military source, and to date no 'UFO' report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

With regard to your particular observation, I can confirm that we received no other reports of 'UFO' sightings for 2 September 2004 from anywhere in the UK. We are satisfied that there is no corroborating evidence to suggest that the United Kingdom's airspace was breached by unauthorised aircraft.

Yours sincerely

**Section 40**
