UFO spotted over central Taiwan town

An unidentified flying object (UFO) was spotted over central Taiwan late last night, the Taiwanese news agency CNA reported, quoting "eyewitnesses".

It said that the UFO had attracted a crowd of over 50 people as it "floated" above a private house in Touliu around midnight local time.

According to the eyewitnesses, the object, shaped like a bright circle, occasinally jumped vertically and sometimes moved horizontally. They said that "it did not resemble an aeroplane," the agency reported.

D/USofS/OH/1407/95; GERRY SUTCLIFFE, MP - "UFOs"

1. Mr Sutcliffe's constituent, Section 40, is a regular correspondent on the subject of unidentified flying objects and has written on five occasions over the last four months. The detailed replies he has received to each of his letters very clearly sets out the MOD's specific and limited role with respect to "UFO" sightings. Section 40, however, refuses to accept our explanation.

2. The alleged "UFO" research operation called "Aeneid" is not recognized by this office or others, under this or any other name, and the MOD certainly does not send "spies" to "UFO" Conferences. The matters raised concerning the United States and South Africa are not for us to comment upon.

DRAFT

D/US of S/OH/1407/95 May 1995

Thank you for your letter to Malcolm Rifkind of 13 April regarding an enquiry you received from Section 40 of Section 40, Bradford, concerning unidentified flying objects. I have been asked to reply.

Section 40 has written to the MOD on a number of occasions recently on this subject and my officials have replied to each of his letters. These responses have explained the specific and limited role and responsibilities my Department has in connection with reports of "unidentified flying objects". We look at such reports solely in the context of our responsibilities for identifying any potential threat to this country's security. We consider reports of unexplained aerial phenomena submitted to us in order to establish whether what was seen may have been of defence significance. If no threat is discerned, and this has been case in all such instances to date, then our interest in the sighting ceases. As such a sighting can remain unexplained, but not result in any further official action. We have no role in "UFO" research of the type alluded to by Section 40.

Gerry Sutcliffe, MP

Section 40 [redacted]'s letter refers to the alleged incident at Rendlesham Forest/RAF Woodbridge in December 1980. Based on the available substantiated evidence at the time, a collective decision by those within the MOD/RAF sections with responsibility for air defence matters at that time judged that nothing of defence concern occurred in or around Rendlesham Forest/RAF Woodbridge on the nights in question. Nothing has emerged during the last 14 years to make us question that original judgement. My Department has no knowledge of the films which Section 40 [redacted] claims exist and alleges to be in our possession.

Section 40 [redacted] makes reference to "UFO" research activity entitled "Operation Aeneid". Neither I nor my officials are aware of any such operation under this or any other name. I have already explained that my Department has no role whatsoever in "UFO" research and as such my officials are not sent to "UFO" Conferences.

Section 40 [redacted]'s queries in connection with the United States and South Africa are matters for the Governments of those countries and should be addressed directly to them. It is not for me to comment.

I hope this is helpful.

1. We have been asked to supply a draft reply for USofS to send to the attached letter from Gerry Sutcliffe MP. Section 40 [redacted], Gerry Sutcliffe's constituent, is a regular correspondent with this office.

2. I am writing in specific connection with Questions 1, 2 and 5 of his letter. Regarding Questions 1 and 2, I should be grateful if you could let me know if you recognise the reference to 'Operation Aeneid'; we have not come across it in this office. I should also be grateful for any comments you may have in connection with Question 5.

3. If possible I would welcome your views by COP Friday 28 Apr please.

Dear Malcolm

In response to an enquiry from my constituent, Section 40 of Section 40 Bradford I write requesting answers to the following:

1. Concerning 'Operation Aeneid', why were more than thirty secret bases for observation of UFO activity set up in Britain under this super-secret project, particularly as the MOD has always said it has neither the resources not the interest in performing such an operation?

2. Why have the recorded UFO sighting which resulted from this project been classified as secret rather than released into the public domain?

3. Why did the MOD deny that the Rendlesham Forest / RAF Woodbridge incident took place to begin with before a copy of Lt Colonel Hoalt's written report was leaded to the press?

4. Why does the MOD continue to refuse to release the file on the object from the Rendlesham Forest / RAF Woodbridge incident and the MOD's evaluation conclusions on the episode?

5. Why does the MOD share spies with other governments that are sent to international UFO conferences around the world?

GERRY SUTCLIFFE MP
1st Floor, Jacobs Well, Bradford BD1 5RW Tel: 01274 75[illegible]

2

13/4/95

Section 40 would also like you to request of the US Embassy the following questions:

1. Why does the US Government continue to deny that a UFO crashed in Roswell, New Mexico, in 1947 when there is overwhelming evidence that this is so, including written testimonies of credible witnesses and a military film of the wreckage and dead crew?

2. Why has NASA refused to release into the public domain films and photographs of the artifacts that it has found on the Moon and Mars?

He also requests that you ask the South African Embassy:

1. Why has the South African Government attempted to cover up the crash of a UFO in the Kalahri Desert in Botswana, which was shot down by the South African Air Force and retrieved by the South African Authorities in 1987?

Perhaps you may wish to contact Section 40 directly. I look forward to your reply.

Best wishes

Yours sincerely

FOR MORE INFORMATION PHONE/FAX Section 40 [redacted]
PHONE

"This office, in consultation with the Department's air defence experts, seeks to determine whether there is any evidence of a breach of the UK's air defences" - "I can confirm that to date it remains the case that we have no evidence to substantiate the existence of craft or lifeforms of extraterrestrial origin." (Section 40 [redacted], Secretariat Air Staff 2a MOD, in a letter dated 8th March 1995 on behalf of Lord Henley)

"What was peculiar about the Ministry of Defence's response was that they were asked as early as 81. What went on around Rendlesham ? Were there not funny things seen on Radar ? Didn't something come down near this important base ? And they said no no no nothing nothing nothing, and in effect they lied, which in my day we didn't, we stalled. We refused to answer questions." (Retired MOD official, speaking about the Rendlesham forest, Suffolk, UFO incident - December 1980)

"It seems to me that something physical took place. I have no doubt that something landed at this U.S. Airforce base and I have no doubt that it got the people concerned, the U.S. Airforce people and the Commanding General at the base into a very considerable state" - "Either large numbers of people, including the Commanding General, were hallucinating, or what they say happened did happen." (Lord Peter Hill Norton G.C.B., speaking about the Rendlesham 1980 incident)

Since the 2nd World War at least, military establishments world wide have been amassing reports and data on UFOs. Pilots, Radar operators, many high ranking retired military officials, astronauts and thousands of people the world over, have all testified to the existence of craft observed both in the air and on the ground. Craft displaying properties and technology well outside normal or present day understanding. The Rendlesham incident is not unique, it is only one of many. There are gross inconsistencies with Section 40 [redacted]'s (MOD) statements, because U.S. military officials have testified that a craft of unknown origin came down in Rendlesham forest, late December 1980. A retired MOD official has stated on television that the MOD have lied about the incident (statement above). British air space was breached by a craft exhibiting, according to U.S. military officials, technological properties of a completely unknown nature. The MOD even denied having received a memo about the incident, written by one of the witnesses, Lt. Col. Charles Halt USAF. This memo surfaced under the American freedom of information act, and the US authorities obtained their copy of the memo from the British MOD !

The world wide quest for the truth about military knowledge on the UFO issue is gaining momentum, and we invite you to join us. This issue is not an issue of U.K. national defence, common sense dictates that the MOD has known this for at least 50 years, ever since pilots filed UFO reports during the 2nd World War. This quest has **nothing** to do with believing or not believing in extraterrestrial intelligence, it is simply a quest for the truth. We ask that military establishments world wide share with the people of the world, all they know and understand about UFOs.

You can help this effort by first educating yourself to the subject. Begin to read the books, go to the conferences, watch the videos and generally 'get on' the information net work ! Make yourself aware !

REPORT OF AN UNIDENTIFIED OBJECT

1.	Date, Time & Duration of Incident	292000z Jan 95.
2.	Description of Incident	Heard 8 to 10 bangs/booms on 202000z- but this morning, 30 Jan, went ourtside and found a piece of metal on his patio and became very concerned and thencalled the local Fire Brigade.
3.	Location, indoor/outdoor, stationary/moving	He was inside
4.	How observed	-
5.	Direction in which noise first heard	From the sky
6.	Angle of Sight	-
7.	Distance (By reference to a known landmark)	-
8.	Movements	na
9.	Met conditions during observations	not known
10.	Nearby objects (Telephone lines, high voltage lines, reservoir, lake or dam, swamp or marsh, river, high buildings, tall chimneys, steeples, spires, TV or radio masts, airfields, generating plant, factories, pits or other sites with floodlights or night lighting)	Not applicable
11.	To whom reported (Police, military, press etc)	Called Fire Brigade who took metal piece away and an Environmental Officer also visited.
12.	Name & Address of Informant	Section 40 [redacted] West Midlands Section 40
13.	Background of Informant that may be volunteered	Used to be in Army, believes that the piece of metal comes from a satellite and that it may be contaminated with radioactivity and that he might now as as he had picked up the fragment.

14.	Other Witnesses	Wife - heard the bangs on Sunday evening Local Fire Brigade - has the piece of metal Local Environmental Officer - heard his story
15.	Date, Time of Receipt (in AFOR)	302025z Jan 95
16.	Any Unusual Meteorological Conditions	Nil

17. Remarks. Section 40 was quite convinced that I was hiding something. He expressed GREAT concern that the piece of metal could be radioactive and from a satelliteand wished to be told that it was not. I assured him that I knew nothing about any satellite falling from the sky but he said that I had to say that with the Official Secrets Act!! Was not really prepared to believe that the pieceof metal was not dangerous. I told him that I would pass his account to you and I also gave him Section 40 tel no.

re: Sightings of UFO's ? in our Force area.

Sightings in Bath, Bristol, Shepton Mallet.

all people having seen white shining light, very low over trees, round in shape having very fast, swooping away.

one man described it as a green light around the outside, as it raced away very fast it left a trail behind it.

All people reported the object as having at a great speed.

Hope this is a help.

REPORTED UFO SIGHTING

Station: PONTEFRACT DIVISION

DIVISIONAL OFFICER : PONTEFRACT

At 1956 hours on Wednesday 18 January 1995 a call was received at the Wakefield Area Control Room reporting seeing strange lights in the sky above Castleford. A command and control log was created, number 1728, and passed to the Pontefract Help Desk for action.

At 2030 hours the same day I telephoned the caller Mr Section 40, a Section 40 of Section 40 Section 40, Castleford.

About 1900 hours on 18 January 1995 he and his wife Section 40 were leaving his mother-in-law's house at Section 40 Section 40, Castleford.

He looked up and saw two groups of lights in diamond shaped formations above the houses opposite. There were four or five lights within each group. He says the lights were bright but not dazzling, like tubes with diffusers over them.

He states they were travelling fairly slowly from east to west, they stopped and the lights seemed to move about within the diamond formation before moving off at speed.

The objects gave off a yellow light, appeared round or oval shaped, and there was no sound associated with them.

At the time of the sighting the night was clear with good visibility and the caller estimates his angle of vision to have been about 60° observed with the naked eye for five to ten seconds.

The witness is unable to estimate the size of the lights as he does not know how far away they were from him.

LETTER TO THE SECRETARY OF STATE - UNEXPLAINED AERIAL PHENOMENA

1. We have been asked to respond to the attached letter to the Secretary of State which is self-explanatory.

2. Section 40 designates himself as an "Area Investigator" for Quest International, the organisation which produces the bi-monthly "UFO Magazine". In the latest edition is an article, which I also attach, and this, I believe, is the catalyst to Mr Section 40 question.

3. I should be grateful for your advice and a proposed line which we could consider in our response to this letter.

This signal was found by me in Washington but is nothing to do with ufo's, the Line 7 pilot

Dear Sir

Section 40 [redacted]

In the United Kingdom, the public is repeatedly told by representatives from your ministry that they have no particular interest in UFO's until they actually threaten the defence of our country.

However referring to the D.I.A.'s documents concerning a joint Chinese/Taiwanese UFO conference held in Beijing in December, 1991 a comprehensive report was received by the Ministry of Defence in London i.e.RBDWC/MODUK LONDON//DIS//.

Can you therfore confirm that the Ministry of Defence's interests in the subject of UFO's goes well beyound the confounds of national boundaries?. This would be much appreciated.

DG is not known in the USA

Yours Sincerely

ELLIGENCE

The intelligence community often report on lectures delivered at UFO conferences. What 'contactee' George Adamaski told an audience in New Zealand about his experiences was subsequently routed to defence agencies at the time. [see Fig 4]

Perhaps the most significant features contained within a distribution list are three key letters - S.C.I.

This refers to Sensitive Compartmented Information. This security system is used predominantly by those engaged in U.S. space reconnaissance and related aeronautical activities. S.C.I. functions on the theory that damaging security leaks can be kept to a minimum if those in the system know only what they need to know in order to perform their tasks.

Security people are always talking about the "need to know." Compartmentalizing information is the way they restrict what the watertight doors do on a naval vessel: limit the amount of water entering the ship to a single compartment rather than allowing the entire hull to be flooded.

The fact that many UFO documents contain references to S.C.I. is a matter of great interest to researchers. Those who come under this system, operators, technicians and taskmasters, inhabit a carefully encapsulated netherworld those provinces are identified by acronym, whose secrets are shared only by the relatively few having one or more special clearances, and whose existence is publicly either played down or denied outright.

Amongst the agencies who are, or have been named as prime users of the S.C.I. system are:
The Committee on Imagery Requirements and Exploitation (COMIREX), Committee on Overhead Reconnaissance (COMOR), Defence Special Missile and Astronautics Centre (DEFSMAC), Intelligence Producers Council (IPC), Joint Reconnaissance Centre (JRC), Naval Reconnaissance Centre (NRC), National Intelligence Council (NIC), National Foreign Intelligence [illegible] (NFIB), [illegible] (NRO) and the [illegible] and Space Systems Intelligence Committee (WSSIC), among others.

Were it not for the use of S.C.I., vital intelligence matters might be exposed to a potential adversary, amounting to a severe, if not fatal, loss for the West. American advocates of S.C.I. claim that without it, U.S. intelligence would be practically deaf, dumb, and blind, and the nation would be commensurately vulnerable. It is for this reason that the system that does all of the watching and listening is so pervasively secret - so black - that no individual, including the chairman of the Joint Chiefs of Staff and the director of Central Intelligence, knows all of its hidden parts, the products they collect, or the real extent of the widely dispersed and deeply buried budgets that keeps the entire operation functioning.

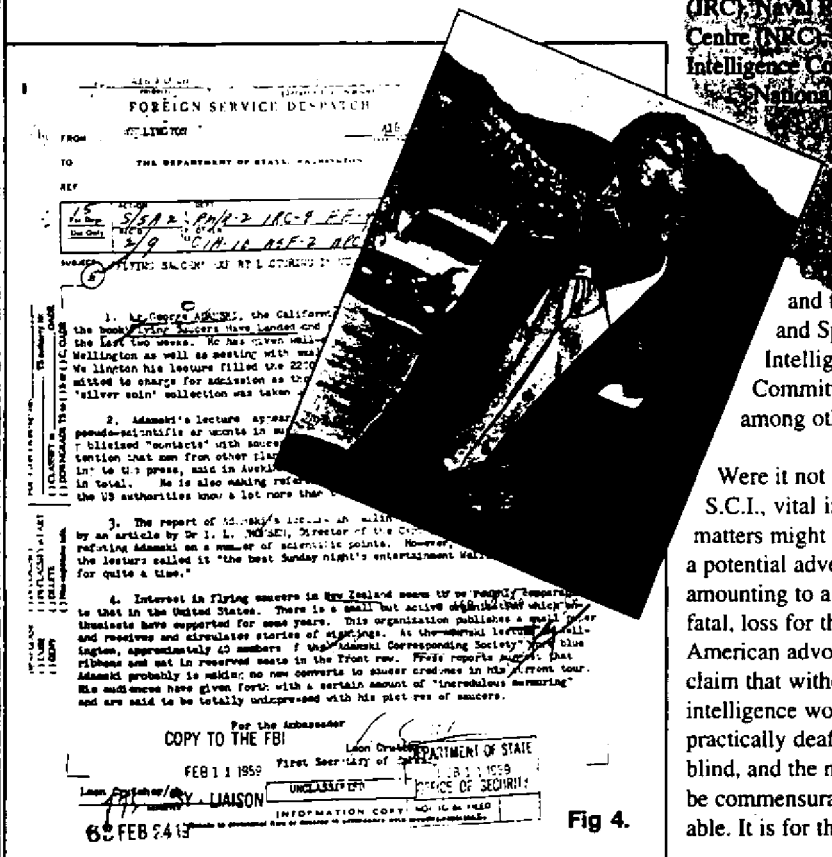

In 1986, there were more than thirty S.C.I. categories used by the U.S. intelligence community, three of which pertained directly to technical intelligence collection: Special Intelligence (SI), Talent Keyhole (TK), and Byeman. Special Intelligence and Talent Keyhole concern data that are the product of signals intelligence collection and/or overhead reconnaissance, by both aircraft and satellites.

SI and TK clearances are almost always given jointly, however, they allow their holders access to the product of particular overhead reconnaissance systems, but not automatic access to details about the collection systems themselves. Thus interpreters in the National Security Agency, the National Photographic Interpretation Centre, and the CIA, for example, have SI-TK clearances that permit them to hear taped intercepts or to study imagery, but they are not supposed to know how the planes and satellites that do the collecting work, or even their names, because they do not need to know.

Without a shadow of doubt, S.C.I. is of immense importance to the intelligence and defence agencies of the West. One can therefore reasonably claim that for this security classification to be attached to UFO documents, suggest that these same agencies are not as dismissive of UFO accounts as some sceptics and debunkers would have us believe.

Duty Sergeant :—

In accordance with Standing Order 36-81 I must report as follows :—

A) About 0330hrs Saturday 31st December 1994 until 0445hrs that day.

B) One object. As the object was closest to the informant it appeared to be a ball shape with lights around its outside. These lights were flashing on and off and were coloured red, green and orange.

C) In attic of home address, stationary, Map ref Section 40

D) Observed with naked eye and binoculars.

E) The object was seen moving North from South having come from the sea.

F) 45°

G) Not known

H) Nil.

J) Fine, dry, clear night, no cloud but cold.

K) None, the object moved very slowly across residential area.

L) Police - 999

M) Section 40 Frinton-on-Sea, Essex.

N) None known.

O) Wife and daughter of informant. The object was seen by myself a great distance from where the informant had first seen it. I could not make out a shape, only saw red, green and amber flashing lights. It appeared to be moving very slowly.

P) Reported to Police at 0424hrs 31/12/94. Standing Order attached.

1. At 1215 hrs we received a call from Section 40 who reported a "UFO" sighting to West Drayton earlier this week; West Drayton told him to report the sighting to the MOD.

2. At 1705 hrs on Wednesday 21 December in Suffolk outside his home he saw a very bright light which was at very high altitude at high speed. It was pulsating and moving in a zigzig manner; the night was very clear and frosty and the sighting lasted 5 minutes. Section 40 's brother also witnessed the sighting.

3. I advised Section 40 of our interest in such sightings and told him that if an explanation was forthcoming, that I would let him know.

4. His details are as follows:

Dear Madam.

As an investigator with the above association I now find it necessary to make an approach to the M.O.D. with regard to an unusual event on the 17th of November 1994.

The event took place near Paxton village at about 5pm and again near Preston village at 6pm. These villages are both in Berwickshire. I will now describe the object which at least four people saw that night. The object was disc shaped and black in colour. It had two large spot lights on either side of the disc with red and green lights which were on constantly. There were other lights on the side of the object in particular a small but very bright light which again was on all the time. This object had the capability of hovering fifty feet above the ground in total silence and was at least four times the size of a Tornado fighter jet, at approximately two hundred yards away.

The second event took place on the twenty second of November 1994 at about 7pm. This object was of a different design. It was triangular with sharp edges, being black at one time during the sighting then changed to a dark red. It came slowly in from the North sea at a height of 20 feet and up the estuary of the river Tweed. It then stopped, hovered, turned a dark red and lit the water underneath, a bright red colour. Again, this object was silent. Having hovered for approximately 3 minutes it shot off at an incredible speed passing underneath all three bridges which span the river.

I would now like to ask the M.O.D. if there were any aircraft in these areas which could fit the descriptions given above? I also wish to ask if there were any unexplained blips on the R.A.D.A.R installation at Boulmer on these nights or any other early warning system on the east coast of the U.K? We at B.U.F.O.R.A would be very grateful for any information no matter how small you care to give us.
Thank you for taking the time and trouble to read this letter and I would like to wish you all a very merry Xmas and a happy New Year.

Yours Faithfully.

The lights seem to be appearing in a 5 yearly cycle around the same areas of the Rhondda Valley. The informant saw the lights for the first time in 1979. An ex neighbour claims to have seen them in 1985 and the informants fiancee saw them in July 89. They were expecting to see them in the summer of this year yet nothing appeared. The friend who claims to have seen the latest sighting knew nothing of the previous sightings over the years.

Apparently they have had an explaination that the lights were from balloon, yet they are not convinced.

Would be interested to hear another explaination if there is a please one and not to be told it's a balloon.

Station: Clacton on Sea

Officer: Section 40

Subject: REPORT OF U.F.O. SIGHTING

Date: 28 November, 1994

To The DUTY INSPECTOR

I have to report with reference to Standing order 36 paragraph 81

A. 28th November 1994 1700hrs for approx. 3 - 4 minutes

B. one unidentified flying object described as triangular in shape and of very large size, no distinguishable colours, having two large bright white lights and the object being surrounded by pulsating red lights. described as being silent.

C. firstly observed by informant in his car in Burrs road,Clacton on sea, then continued to be observed in the informants garden of his home address at Section 40 Clacton on sea, Essex

D. observed with the naked eye.

E. Towards the direction of Thorpe le soken.

F. approximately 45 degrees from ground

G. described as being about aeroplane normal flying distance away

H. described as cruising speed towards the general direction of Thorpe and Colchester.

J. clear night sky

K. informant states there was an aeroplane in his sight of vision at the time of observation which he claims was higher in the sky than the u.f.o. but travelling in another direction. There were no other objects nearby to interfere with the observation.

L. reported to Clacton Police control, Section 40

M. Section 40 Clacton on sea, Essex

N. None known.

O. Informants mother also witnessed the event Section 40 of the same address

P. Report received at 1711hrs 28.11.94

I ask that this report be forwarded for the attention of A.C.C.(A) for onward transmission to

Station: Clacton on Sea

Officer: Section 40

Subject: Report of U.F.O. Sighting

Date: 28 November, 1994

To the Divisional Commander

The attached report from Section 40 is submitted in accordance with Standing Order 36/81.

It will be seen from the IRIS incident 736 of 28.11.94, that objects were seen by other observers, Police Officers included. The crew of DR41, Pc's Section 40 felt that they were watching a low flying aircraft. Section 40 saw an object from a moving vehicle on The Avenue of Remembrance at Colchester. There is no way of telling if the officers are describing the same object. Mrs Section 40 Essex, reported seeing an object at Thorpe le Soken, Essex, which apparently ties in with the account from the original informant. I have been unable to recontact Section 40 to question her in detail about direction of flight, angle of viewing etc, as the only reply from her home is an answerphone.

No enquiries have been made from this station with any establishments who may have had aircraft in the area at the time of the sightings, which may offer explanations of what was actually seen.

I ask that these reports be forwarded via ACC(A), in accordance with Standing Orders, to the Ministry of Defence.

Dear Sir,

Acting on the advice of Section 40, author, I am writing to tell you of a sighting I had last week which he said would possibly interest you.

My occupation is that of Section 40 and I am currently seconded to the Section 40. I work in the Section 40 in Norwich.

On Tuesday, 15th November, I was in the Section 40 Office which is located in the administration building known as Section 40 occupies a position on Section 40 Section 40 about a hundred feet above the level of the City. The building faces W.S.W. directly towards the C.E.Cathedral.

At approximately 4.15 p.m. a member of the Support Staff asked me whether I could identify a row of bright lights to the West. Together we looked at a map of the City and concluded that the lights were on the ground in the vicinity of the University. They appeared to be the kind of lights used on a sports ground. My colleague had not noticed them before.

The next day, Wednesday, I was in the office, the time being approximately 7.45 a.m. I looked once again at the map of the City and having done so went to the window to see whether I could identify where it was that we had seen the lights on the previous day.

The morning was exceptionally bright, the sky clear of cloud. The air temperature was mild, there was little, if any, breeze. There was no haze over the City.

While I was searching the sky-line to the right, or W.N.W., my eyes were made conscious of a light to my left, two lights in fact. I enclose a sketch I made a couple of minutes later which will give an idea of the position of the images in relation to the spire of the Cathedral. The sketch is made sight-size.

At first I thought the scene was ordinary enough; the rising sun was already strong and it seemed that I was seeing two hot air balloons, formed from a silvery material. They were identical

in size and perfectly round, about 1/4" to 3/8" diameter. They appeared solid, faced directly to the sun I neither expected to see nor did I see any lessening of reflected light to the edges of the images and so they appeared not to be spherical. Neither of the images showed any movement during the minute or so that I observed them.

I noticed that there were no baskets beneath the balloons and although they appeared to have little altitude I saw no bursts of flame as I should have expected. The brightness of the light coming from the surfaces of the objects made it impossible for me to estimate their distance.

There was neither sight nor sound of aircraft, neither was there, after the images ceased to be visible, any cloud or indication of their presence. The objects appeared to be substantial, to be reflecting light and not emanating it.

Without the objects having moved in relation to the buildings beneath them, after about a minute they both vanished in an instant; they did diminish in intensity of light or size but vanished from view. not

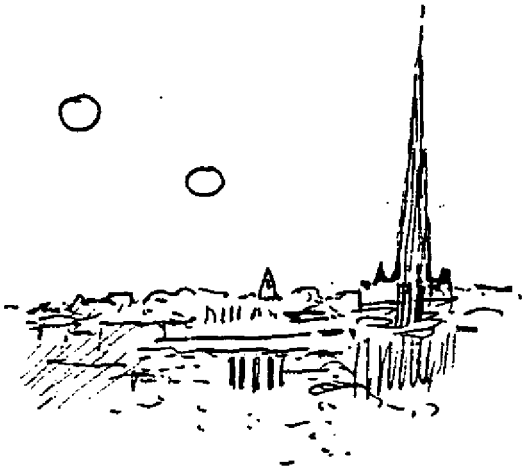

The windows to the office had been cleaned two or three days before the sighting. There was no light on in the office and neither was any of the office equipment switched on. What I saw was not a reflection on the window from within the room.

The sketch was made immediately after I saw the images and drawn from the same position in which I had stood. At no time while watching the images or objects did they make any kind of movement.

If I am able to help you in any way in connection with the matter described will you please contact me. If you need to do so by telephone please will you do so after 7.00 p.m.

Yours faithfully,
