

# NUFORC Sightings Report: 12/1961

***Date: 12/31/1961 22:00 | Location: Williston, ND, USA | Shape: Formation***

Winter of 61-62 or 62-63; large illuminated white lite with several small blue lites converging to and then dimming

***Date: 12/26/1961 20:00 | Location: Forestburg, TX, USA | Shape: Sphere***

Round brilliant white object hovered and then slowly descended behind a hill in a remote area without making a noise.

***Date: 12/17/1961 21:00 | Location: Bartow/Mulberry, FL, USA | Shape: Orb***

after getting our attention the object approached us, we followed this object while it stopped and waited on us three times

***Date: 12/05/1961 16:10 | Location: Lewiston, ID, USA | Shape: Fireball***

Round light hovering low in the sky then sped northwest fast lasting longer than a shooting star and disappeared
