# INTRODUCTION

by

The Chairman

Graham Knewstub, C.Eng., M.I.E.E., F.B.I.S.

(Founder President of the British UFO Research Association)

This Report is presented in the hope that it will be read and widely circulated, especially by those who need to become aware of the growing concern by well-informed people, not only so-called ufologists themselves, but by an increasing number of ordinary folk amongst the general public.

A careful reading of the Report should indicate not just the nature of the overall concern, but the extent and variety of specific "concerns" involved. Ufology is not a subject, but a baffling complex of many subjects. This surely accentuates its importance for mankind, which could well be under some sort of threat, we know not what.

In any case, it is my privilege and pleasure to thank Lord Hill-Norton most warmly for the way in which he went into action so decisively with his Initiative in July last year. I feel certain that I voice the opinion of everyone concerned, especially our excellent Correspondents, in concluding that he has achieved thoroughly worthwhile results. This promises well for the future, not least in regard to government policy.

# FOREWORD

Paul Inglesby has accurately described in Part I the rather gradual steps by which he and I came to agree that it was worth having a determined shot at getting something positive done to raise the public perception that the UFO enigma needs urgent, careful and serious study. As I put it in my initial Memorandum, "the first – and perhaps the most difficult – task (such a group) will face is to persuade the public that there really is a problem, and a serious one at that". He goes on to recall what we did to bring this about, by setting up a quite informal Group provisionally called UFO Concern.

I am, I must confess, both surprised and disappointed that we did not attract more – much more – and much higher level, support. A couple of hundred people have demonstrated a firm interest, where I had fully expected at least a thousand. Nevertheless a start has been made, and with a bit of luck this little book may well strike a chord.

My correspondence over the last fifteen years, which was instrumental in persuading me to approach the public, has convinced me that there is a very large number of eminently sensible people in the United Kingdom who share the views set out in my Memorandum. Many of them have personal experiences of encounters, sightings, even abductions, which they long to have explained. I have said often, publicly and privately, that what I want to know is what these things are, from whence do they come, what is their purpose and who (or what) is directing them? I believe this approach is much more widely shared than the response to UFOC has so far revealed.

The time is long past when it can credibly be doubted that physical objects, not man-made, are regularly active in Earth's atmosphere, so my questions are, surely, not unreasonable. I would like to think that what follows in this edition may help to mobilise support to find the answers.

6th October 1997

# PREFACE

UFOs, or whatever we choose to call them, are impossible. The UFO phenomenon is impossibly difficult to handle as a subject. It always has been, always will be. Firstly, UFOs are impossible because Science says so. Orthodox science cannot handle it, although a few individual scientists now do so.

Anyhow, humanity is up against something impossibly difficult to understand, originating from Elsewhere. UFOs are unearthly, unworldly, literally so. But they exist nonetheless. Experience over the centuries, but especially these last fifty years, has shown that they are certainly cause for concern – whatever we call these things, from wherever they come, whatever they do and why.

A worldly Press and Media, fuelled by financial necessity and greed, has funk'd the challenge and failed the public. It has consistently fallen back upon that last refuge of the ignorant – ridicule.

A worldly Church, alas, is no better. It has simply chosen to ignore, through inexplicable ignorance, this peculiar and disreputable subject. Respectability is the last refuge of the spiritually feeble, a curse in fact, as a splendid Anglican Bishop once used to maintain.

Governments in particular are in an impossible fix. They simply don't know what to do. So they plead National Security. What else?

Altogether an impossible situation.

## Editorial Note

This edition has a very restricted circulation, its sale and distribution being limited to those actually associated with the Initiative and to a few others whom we adjudge to have some real "Need to Know".

As everyone involved in this subject knows, there exists a multitude of contradictions and paradoxes which defy a logical and, indeed, a strictly scientific approach and analysis. However, we have marshalled our results in the way shown and this fairly accurately reflects the extent of the many and varied concerns. Some Correspondents included in their replies several specific concerns. These have been recorded separately in the Part II grouping. There is considerable and unavoidable overlapping between different concerns which can only be roughly categorised.

In order to preserve anonymity where considered necessary, initials have been given, sometimes fictitiously.

*Paul Ingersley*  
Subdeacon

21st October 1997

# Part I – UFO CONCERN

**1. The General Idea.** One must start somewhere. Today 5th August 1997 THE TIMES publishes (a) on p.10 a report from USA that “virtually all UFOs sighted in the 1950s and ’60s were spy planes”, and (b) a feature by Arthur C. Clarke “on the myth of the extra-terrestrials”. Conclusion: The Public should realise that neither UFOs nor Aliens exist.

A quick look back to the 1940s and ’50s shows that in many ways nothing has changed. Nothing at all. I am neither a ufologist nor a UFO-researcher, just fairly well-informed. (Hereafter I shall style myself “the writer” unless abbreviated to PI). He has literature on the subject over fifty years old. So straight away we should say that the explanations for UFO sightings and experiences clearly fall into three distinct categories, viz;

- (a) Secret devices (proved);
- (b) Psychical, spiritual, even physical experiences (proved);
- (c) Extra-terrestrials (not proved).

The term “alien” could obviously cover both (b) and (c). Certainly something has been happening which is alien to normal human experience.

So much for the general background as perceived by the writer.

**2. The Proposal.** More recently, in view of growing public interest and actual concern about UFOs, especially a spate of “abductions” reported worldwide, including Britain, the writer thought that something should be done about it. For some years he had been in touch with Lord Hill-Norton (hereafter called the Admiral). On 23rd November 1995 they met to discuss possibilities.

It should be mentioned that way back, 4th February 1981, the Admiral had written: “I am curious about some aspects of UFOs because I have so far heard no explanation of certain events which have been generally grouped under that acronym. Indeed it is precisely because the flying objects are in a very large number of instances (though not perhaps a large proportion), *un*-identified that my curiosity is aroused. I belong to the House of Lords UFO Study Group in the hope of learning more.”

Later on 24th July 1991, in reply to another letter in which the writer voiced his concern about the religious implications of some abduction reports, if true, he said “My knowledge of UFOs has not, until now, had any connection with Christianity. I would not be surprised if there has in the past, particularly in the distant past, been cross-breeding if, indeed, aliens have visited our planet. Recent disclosures have nearly persuaded me that they have, and may well be doing so at present. I prefer that explanation to a whole range of other explanations for the UFO phenomenon, but I should like undeniable proof.”

## I - 2. The Proposal (Continued)

Eventually in September 1995, an initial meeting between the two was arranged, largely in consequence of the writer's concern about the media's coverage of UFOs, not least some ill-informed personal references to the Admiral in a national paper. In fact, the writer had remarked that "the media angle is all part of the puzzle." His reply is not for the record.

Anyhow, by October the two had discovered a certain degree of mutual concern, well summed up by these words of the Admiral: "Although what I might call your 'angle of attack' to the UFO puzzle is quite different I have often thought that, as you put it 'we humans may not be mentally equipped to understand more than a bit of it'."

"I do, notwithstanding that caveat, have a very strong feeling that 'we humans' really had better try a good deal harder to get our act together in an attempt to solve this puzzle, or at least to deploy some high level minds to the available evidence. This has clearly not been done. I know, by now, a good many of the serious UFO people and none, in my view, is competent in the sort of queries which ought to be brought to bear."

"We must, in our different ways, continue to do what we can to get people over whom we may have influence in one way or another, to take it all seriously. I am, as I told you, fed up with the Little Green Men syndrome." (13/10/95).

On 24th October the writer replied: "Clearly you want to use your great influence to the full, with what time is now left to you. I suggest that there is a good case for setting up a 'British UFO Concern' type of society, dedicated to the continuous examination of the UFO situation, with say annual well publicised Situation Reports. To be effective it must be high-powered with men of proven ability, stature and influence (your word) in different disciplines. Perhaps most important of all they themselves should have had little or no active interest or involvement in UFO research, although, of course, they should be well aware that the 'UFO phenomenon' is now a fact of life, and that its influence is on the increase. The whole thing, whatever it is, is now an integral part of modern life."

"If this is accepted, obviously the first step is for a few like-minded people to meet and decide upon possible action, if any. The weakness of almost all groups is that they consist of people with similar experiences and cannot, therefore, judge anything impartially. The distinguishing characteristic of the proposed group would be professional eminence, impartiality, integrity."

The letter ended with an appendix of pros and cons. The pros in favour were listed as

1. To keep abreast of principal developments both here and abroad;

## I - 2. The Proposal *(Continued)*

2. To give useful, responsible and much needed advice and information to the general public;
3. To warn against possible dangers – national, personal, e.g. physical, psychological, spiritual, etc.

Finally, prior to a decisive meeting on 23rd November, the Admiral had written on 31st October "I am attracted by the idea, mainly because I believe that the time may well be ripe. ... You and I are too old\* to run such an enterprise, which might develop into something fairly major, but we are not too old, perhaps, to get it going. ... I would not want to go ahead unless we had sound reasons for believing it would run."

It should perhaps be noted that perceptions as to how to meet the overall challenge were a bit dissimilar. Whereas the Admiral still hoped for a very influential group which would guarantee some success, the writer had already concluded that almost any constructive action was now urgently necessary, and better than none; and that "success" was a relative concept which time alone would evaluate. By 8th November he had in fact written: "If a trial proves to be rather less than satisfactory, at any rate some good will presumably have been done and nothing would be lost by the group's demise."

**3. The Project.** Thus it came about that the two met on 23rd November, when it was **AGREED** to set up a group called British UFO Concern on a provisional basis in the first instance, with these AIMS:-

- (i) To influence Government and other concerned agencies to disclose all available evidence regarding the UFO Phenomenon;
- (ii) To assume a responsible co-ordinating role in the study of all such reports, including those from reliable UFO groups; and
- (iii) To publicise information as and when necessary to warn and to inform the general public.

It was also **AGREED** that the following aspects of the Phenomenon should be kept under constant review:-

- (a) The apparently physical nature of many UFO-type craft, with its defence implications;
- (b) The growing prominence of "abduction" reports, especially in regard to the possibility of some form of psychic control over human beings;
- (c) The increasing importance in the modern world of the "UFO cum Extra-terrestrial type" of influence, especially in the media, upon the mind of the masses, viz: possible evidence of some kind of psychic manipulation of peoples;

\* Both are now 82.

### I - 3. The Project (Continued)

- (d) The changing experience of "Religious Awareness" which runs counter to traditional Christian theology (e.g. growing belief that Jesus Christ was a space-person; emphasis on Evolution in opposition to God as Creator; burgeoning belief in re-incarnation which undermines the vital Christian belief that God became Incarnate as the Saviour of human souls, who died upon the Cross and was Resurrected from the dead).
- (e) The ill-effects of UFO contacts upon individuals, both physically and non-physically.

This further paragraph was included in the Record:- It was realised in discussion that the "physical reality" of the Phenomenon as perceived by Lord Hill-Norton differed from PI's view that the root of the general problem lay more in the "spiritual-psychical" dimension of reality, but that these two differing perceptions were not incompatible but complementary.

By March 1996 it was decided to drop the word British in view of the global nature of the problem. Incidentally, referring to some high grade American information\* received at the time, it is relevant to record here these words of the writer: "I do not detect any great concern for the human race as such ... its angle seems essentially one of power politics".

By June it was definitely decided to move ahead. 15th June 1996 was in fact the real birthday of UFO CONCERN, when the writer agreed to prepare a draft Memorandum based on certain conclusions which had been reached. The Admiral himself naturally agreed to take the essential initiative in getting support for the project.

**4. The Initiative.** The Memorandum finally agreed and signed by the Admiral read as follows:-

It has been suggested that I should take the initiative to establish an informal group of sensible and respected people who are genuinely concerned with the implications of the UFO phenomenon now manifest world-wide, including Britain. The aims of such a group would include the dissemination of information based on facts, not fiction, together with recommendations for appropriate action.

I have been personally interested in this baffling but challenging problem for many years, and I am in touch with several others who share my view that strenuous efforts should now be made to address the problem. In the broadest terms I have in mind forming a group which perceives this overall problem in two ways, viz: the objective and the subjective.

Objectively, the available evidence indicates that alien, non-human intelligences and influences are operating increasingly amongst mankind, frequently in a manner which should cause real concern, not only from a national security standpoint, but also because (whatever they are) these

\* The Laurence Rockefeller UFO Briefing Document, 15/12/95.

#### I - 4. The Initiative (Continued)

“UFOs” actually appear in a physical, material sense. Reported contacts with them have seldom been beneficial, even if sometimes they have appeared to be so.

It has been suggested that the subjective influence of UFOs is essentially a religious matter, because any sort of contact made at the personal level frequently has some sort of religious, spiritual dimension. There is certainly a degree of psychical involvement in almost every case, but quite often such experiences are definitely antithetical to orthodox Christian belief. Not only that, the “experiencers” themselves sometimes fall victim to a sort of supernatural manipulation which urgently demands the attention of religious authorities. Opinions may well differ as to the precise nature of these occurrences, and also what, if anything, can be done about them.

In any case, my associates and I consider that the time has come to form a reasonably influential group which can both assess latest developments, and attempt to recommend appropriate action to deal with the problem involved. These will have to be considered in the realms of national defence and public welfare, as well, perhaps, as in the pastoral sense. It is my present view that the first – and perhaps the most difficult – task will be to persuade the public that there really is a problem, and a serious one at that.

This Memorandum quickly became known as “The Hill-Norton Initiative”. It should be mentioned that although this Initiative gave substance to UFO CONCERN and is closely identified with it, nevertheless the two are not synonymous. UFOC was the essential launching pad. The Initiative has now played its part and has ended, whereas UFOC still remains in existence.

In any case, the Memorandum was circulated by the Admiral on 15th July to several people with whom he had been in touch over the years about UFOs, asking whether they would join “a small entirely unofficial group with a serious interest in UFO matters”, adding that “a close associate, Paul Inglesby an Orthodox parson, was approaching a number of clerics (and others) with a parallel invitation”.

The idea met with a good response and UFOC soon became an effective little society with 13 Founder Members all told, plus two Consultants. The Admiral was naturally described as the Founder. The writer became the Co-ordinating Secretary. It is worth recording that amongst the Membership perceptions of the problem varied enormously, and this characteristic is certainly mirrored amongst Correspondents, as will be seen. It should be noted, too, that the Memorandum underlined the dual Secular cum Religious nature of the group, with its deliberately inbuilt Christian bias, although in the event, a few supporters expressed a measure of religious

#### I - 4. The Initiative (Continued)

agnosticism. The writer thinks it noteworthy that the English Orthodox Bishop Kallistos of Diokleia (who is in fact Timothy Ware, the author of a Penguin Classic *The Orthodox Church*) wrote "I agree that the topic is of importance – perhaps of urgent importance". On the other hand, an Anglican bishop (now an ex-Member), when subsequently asked for his views by the CHURCH TIMES, said that "he did not feel that alien influences were a topic worth considering at the present moment". Perceptions certainly vary a lot.

Two secular supporters, both Consultants, had this to say: "Your Memorandum is first-rate ... but although the religious and psychic implications are evident, at this early stage it might be better to soft-pedal that issue" (Timothy Good 31/7/96); and "The subject remains more baffling than ever ... my own common sense perceptions are entirely against the simplistic ET Hypothesis. UFO phenomena bear all the hallmarks of the classical paranormal". (Ralph Noyes, ex MOD Asst. Under Secretary of State and Hon. Sec., Society for Psychical Research). Another experienced Member (Gordon Creighton, Editor of *Flying Saucer Review*) later a Consultant, wrote "I concur entirely with all the details of the Memorandum, and with the formulation of the problem facing mankind."

Although UFOC failed to obtain much overt support from the great and the good, nonetheless it quickly got a wealth of knowledge, experience and wisdom into its ranks.

**5. The First Step.** It was realised that something positive should quickly be done, and so some UFO magazines were asked to publish a brief letter, together with an abbreviated memorandum, inviting enquiries from suitable readers. Not every editor obliged. The Australian based *Nexus* printed something but omitted some essential points. *Flying Saucer Review* and *UFO Reality* published in full. This happened during the period September to November, and the first replies actually received were from Australia on 26th September 1996.

UFOC has since received a little more publicity (not always to its liking), and replies to this initial step keep trickling in. Including a useful number from overseas, the score to date is over 170. Most Correspondents are very well-informed, very serious, and not a few are eminent in their professions.

We have attempted to identify and summarise their essential concerns in Parts II and III.

An Executive Committee was elected on 22nd February 1997. Graham Knewstub, Founder President of BUFORA, accepted the Chairmanship for 1997-98.

**6. Perceptions.** Naturally with his permission, it has been thought necessary to include here these views expressed by the Admiral: "My problem is to find hard evidence (that can be seen or heard or felt) that UFOs are physical 'things'. Then to find out how and by whom they are managed, and then to seek an acknowledgement from Governments that they are openly and genuinely seeking a means of starting a dialogue with whoever/whatever it is" (6/2/96).

Later on 13th November 1996: "I have not abated one jot, nor shifted my position one inch, from that which I have so often asserted. I want to know WHAT these things are, from WHENCE they come, WHAT is their purpose, WHO directs them."

"Not only that, I am utterly convinced that it is important for mankind to obtain the answers to these questions, because they are the very basis on which mankind can sensibly decide how to deal with them, or their directors".

On 21st May 1997 he told an enquiring doctor: "Your personal experiences have been duplicated tens of thousands of times by responsible people whose word on any other subject would be accepted without question. In our country such reports usually attract derision in the media, although this is not so in the USA or in Russia. I think that this is an absurd situation here in the UK, and it would be wiser and very likely safer to take the evidence seriously."

The writer's perception of the problem, which is shared by other Christians, is somewhat different, as he has long held that UFO phenomena in general, i.e. those of a non-human or paranormal kind, have all the characteristics of being clearly antichristian, perhaps demonic, in nature and intent. However, in order to reassure the Admiral and others about his stance, he put the following on record: "Naturally I would keep my own religious opinions largely to myself in a project of this sort". (5/7/96). But of course he could hardly agree with the proposal to establish links with the "aliens", whoever they are. It could well prove to be an encounter of the demonic kind. Orthodox Christians have never been encouraged to seek relationships with any such, although the writer thinks it highly likely that the Americans have already done just that. Furthermore, he suspects that no less a person than Dr. Billy Graham,\* of all people, was once hoodwinked and thereby compromised. If these characters are what the writer believes them to be, obviously their primary aim is to influence and motivate top political and religious leaders. This is what They have always done, ever since that regrettable little episode in the Garden of Eden, and probably before that. Not so long ago the human race was specifically warned that if at all possible "*They shall deceive the very elect*" (Mt. 24:24).

\* The following account hardly suggests that this world evangelist, although a

## I - 6. Perceptions (Continued)

publicist of genius, is a man of much discernment:-

*The Baptist Times* of 21st June 1979 (repeat 1979) reported under the headline ASTOUNDING! that Billy Graham had prophesied at Tampa, Florida, that

“During the next few years there will be spectacular sightings of God’s angels seen by people here on Earth.

“I believe that when they materialise here they’ll look similar to you or me, there will be some fantastic encounters with angels which will stun the world. Their heavenly powers will enable them to appear and disappear at will. There will be an astounding New Age and a breathtaking spiritual revival which will sweep the country.

“There will be actual meetings between humans and super-intelligent beings from outer space, who will give us incredible knowledge. There is no doubt in my mind that this will come about and that the day is approaching when we will be involved in tremendous inter-planetary programmes of co-operation for the benefit of mankind.”

## Part II – UFO Concerns (U.K.)

**Introductory:** On 21st May 1997 we circulated an account of the Initiative’s brief foray into ufological circles:

“A quick analysis of 60 good replies to our questionnaire gives the following 133 specific ‘concerns’.” No doubt 600 replies would give much the same results, viz:

- Group 1: Govt Cover-up 34; Defence 19; Political 5; Air Safety 1; UFOs from Mars 1. = 60
- Group 2: Alien Contact and Control: Abductions 24; Alien liaison and influence 7; Mutilations 4; “human guinea-pigs” 2. = 37
- Group 3: Religious, Spiritual = 18
- Group 4: Media Influence = 11
- Group 5: Scientific; Astronomical = 6
- Group 6: Ufological Infighting and Disunity = 1.

We will adhere roughly to this grouping in presenting this fuller examination of all replies received from Correspondents (to date 21st August 1997). A small number of oddities have been excluded. We shall quote accurately from actual dated letters, and confidentiality will be respected, except where some individuals may well wish otherwise.

Item 11 (Mars?) will cause some surprise, but several people are “Mars concerned”. If, as is possible, some UFOs (whatever their nature) originate from there or somewhere near (or *very* near) then obviously this *is* a defence matter. The Intelligence Services should know more about this than the writer. One certainly hopes so.

II – (Continued)

## 1. General Concerns

*What are they and where do they come from?* PP 20/4/97.

*It's often the case with the subject of UFOs of the gullible being led by the charlatans and near insane.* PK 10/10/97.

*Concerned at the rapid degeneration of mankind, probably engineered by alien forces.* AF 3/4/97.

*Frustrated at attempts to downplay or negate the UFO phenomenon.* WDM 22/11/96.

*Valuable personal UFO records are lost or destroyed. A National UFO Archive is needed.* Mrs CSS 12/11/96.

*Concerned at the possibility of a threat to the safety of mankind.* AB 15/5/97.

*Concerned about public reaction to disclosure; public needs education now about the problem.* SL 7/4/97.

*Concerned to establish national reporting and researching centre.* TRC 15/1/97.

*There is very little official concern or investigation of this matter, at least known.* JS 30/11/96.

*Very concerned. The misgivings of certain people are well founded.* JR 23/10/96.

*Serious individuals should get together to see what can be done.* TH 1/2/97.

*UFOs affect the future of every human on the planet. If governments will not face the responsibility of handling the situation correctly, then they should be encouraged to be totally honest and open in every constructive way possible. The best way to begin that process is through such a group as yours.* A Dr. 17/10/96.

*The world's scientific community and public have a right to know accurate information. The agenda and implications of the alien reality need to be fully assessed with the total collaboration of all humanity.* Another Dr. 6/4/97.

*Politicians and the media, together with a majority of professional and normally intelligent people are still grossly ignorant and therefore dismissive of the subject. The way it is treated by Society and "the system" holds back real progress in understanding the phenomena and determining an appropriate response.* AG 2/5/97.

*Good that someone of integrity and standing now leads an independent group of influential people to investigate and determine the extent of governmental cover-up and deception concerning the UFO phenomenon worldwide.* CBD 16/10/96.

*Must gather our forces and formulate a plan that everyone can be involved in. People have forgotten the power they have as individuals.* KT 4/11/96.

*Concerned at the lack of a co-ordinating organisation devoid of pecuniary interest – most want to make money!* GS 3/4/97.

*Most people can't see that a very real and urgent situation exists.* CRM 5/6/97.

*People have a right to know if some UFOs are of non-human origin. Neglecting the problem won't make it go away.* CF 16/1/97.

## II - 1. General Concerns (Continued)

*This issue should be brought to the public's attention in a rational and scientific manner. JMCC 17/10/96.*

*Concerned at lack of understanding in the public. The Little Green Men stigma is still attached to the UFO phenomenon. SR 2/2/97.*

*After reading all of Timothy Good's books I am sure that there are people who do have some knowledge of the alien agenda. I am also sure that a pressure group headed by someone as respected as yourself could go some way in discovering that agenda. JB 9/10/96.*

*Covert governments who sold us out should be brought to justice. Meanwhile, seekers of the truth will continue to investigate the evidence and keep a vigil on our ET neighbours and their terrestrial helpers. PS 10/1/97.*

*(Note. Some expressions of concern here and elsewhere may seem far-fetched to the uninitiated, but they definitely exist, they are widespread and need to be recorded. PI.).*

## 2. Cover-up.

*Concerned about governmental denials, secrecy and covert operations. DC 1/4/97.*

*Concerned about the whole cover-up scenario. We must find out exactly what has been going on and why there has been such a solid conspiracy of silence and disinformation throughout the last few decades. Also concerned to know about our advanced technical developments in liaison with alien or other dimensional entities. JB 5/10/96; 4/3/97.*

*Need to have a Freedom of Information Act and a Bill of Rights to enable citizens to understand the ridiculous amount of secrecy which in many instances is totally unwarranted. CJS 16/11/96.*

*Concerned about official Cover-up, Why? How long? What? GG 4/4/97.*

*Concerned about the exact role of the Government or Governmental agencies in the manifestation or disinformation of UFOs. AY 17/2/97.*

*Concerned that you (the Admiral) were kept in the dark about British/NATO interest in the subject. I cannot but see this as very sinister. JB 6/11/96.*

*Captured alien technology is big business. SP 1/1/97.*

*Concerned about the Cover-up Conspiracy and the potential threat to humanity. IB 4/4/97.*

*Lift the veil of secrecy, of embarrassment from the subject, to encourage ordinary people to talk about UFOs without feeling foolish; make the authorities reveal what evidence they have been keeping from the public, one supposes because they have been afraid of its effect on society. SP 16/10/96.*

*Get nearer to the truth and hopefully help ourselves and humanity. KF 1/4/97.*

*Compel the government and/or the intelligence community, by whatever legal means may be deemed appropriate, to provide public access to all available information on the subject of UFOs. APJD 18/11/96.*

## **II – Cover-up (Continued)**

*Even with the ever increasing evidence to support the existence of UFOs all official bodies, i.e. Government, Military and Scientific, etc., choose to publicly dismiss all evidence and conduct clandestine investigations. I am of the opinion that the public should be made aware about the factual evidence supporting the existence of UFOs and to determine their purpose. I am also concerned about the apparent official cover-up. Why? CD 1/4/97.*

*We should demand the truth about the Government's involvement, i.e. UK version of the Freedom of Information Act. IG 7/4/97.*

*World Governments should tell the public the truth about this phenomenon instead of covering it up. GG 7/5/97.*

*Inform the public at large. The sooner they get to know the truth the better. DP 4/12/96.*

*Main concern is the information that is being withheld from the public. A Freedom of Information Act would be helpful. EH 3/4/97.*

*Public have a right to know what's going on. Nobody has the power to suppress. DH 4/5/97.*

*Concerned at lack of clear, consistent information based on facts. BR 6/5/97.*

*Concerned about Disinformation and the American connection. MH 18/4/97.*

*My concern is the governmental cover-up and the need to convince the general public that something is happening. DB 2/4/97.*

## **3. Defence**

*I discovered that scientists and the government lie about UFOs. Something under intelligent control is coming into our environment that clearly lies outside mankind's current scientific knowledge and technological capabilities. The truth should be known. Astronomer 10/4/97.*

*Governments of the world are kept in the dark as much as we are. The truth is known only by secret services and high ranking military. How can anyone say these things are no threat to national security? I believe quite the opposite. LA Aug 96 and 24/12/96.*

*Genuine concern over security implications (as) these UFOs seem able to enter our airspace at will. AB Apl '97.*

*My concern is that people have no known defence against these intruders on a personal, national and international level. JB 3/7/97.*

*Authorities seem to be unaware of and unconcerned at the potential threat posed by the UFO phenomenon. JNE 9/4/97.*

*Must dispel the myth that the UFO mystery is of no consequence. My main concern is in the defence aspects which the UFO issue presents. Nicholas Redfern 31/5/97.*

*The phenomenon runs contrary to humanitarian interests and threatens national, if not global security. MT 4/2/97.*

## II - 3. Defence (Continued)

*Concerned that all material evidence has found its way to America. There is a concerted effort by the authorities to minimise public awareness of alien existence. The only country that seems to be engaged upon a programme of work to understand this visitation is America and, predictably, they are only interested in the assimilation of this advanced technology into their military programme. If this process continues unchecked, the shift in the balance of world power will be so great that it is truly frightening to contemplate. Here lies the real threat. We must act in our own interests. We must challenge this 50 year American monopoly. We must act now. To leave the Americans with exclusive access to this technological goldmine would be the height of folly. Retired MOD Physicist. 10/1/97.*

*A primary concern is the ease with which possibly non-friendly objects enter our skies, outrun our aircraft and, if the evidence is to be believed, abduct people. RAF type, Apl '97.*

*Contactees should not be used to further a totalitarian military agenda. JMC 1/4/97.*

*UFOs, i.e. vehicles of aliens, are invaders and appear to be unfriendly – possibly dangerous. They may cause danger in the future using subversive means. Dr. B.E. Finch, MRCS, LRCP, DCH 28/10/96.*

*Concerned at the covert co-operation of governments powerless or unwilling to resist. RR 2/4/97.*

*Compelling evidence shows they do exist, it is the world's greatest cover-up and secret, and we are utterly defenceless against them. Well-informed Top Person, June 96.*

*Concerned about invasion of airspace with impunity. BP 1/4/97.*

*Concerned that if there are solid, intelligently guided, physical craft operating in our atmosphere and airspace nothing can be done at present to stop it. Any suggestion that there is defence significance is countered by the whole subject being ridiculed. "RN" 10/4/97.*

(It should be recorded here that two very concerned Correspondents, quite independently of each other, reported (a) that in 1960 one sighted a "glowing cigar" hovering over the Admiralty Surface Weapons Establishment on Portsdown Hill, Portsmouth, for some 30 minutes; and (b) the other also reported a UFO sighting over Portsdown Hill in March 1997. In the case of (a) this resulted in dramatically altered perceptions, with psychic abilities thrown in for good measure, including the gift of healing. One other point! Only this morning (21/8/97) UFOC received a letter from an ex rating who served onboard the aircraft carrier USS "Franklin D. Roosevelt" in 1958, which was continually shadowed by UFOs. The ship was armed with nuclear weapons, including the hydrogen bomb. This is in line with consistent reports over the years that UFOs/aliens not only keep watch but actually influence nuclear warfare decisions. They appear to be as concerned as we humans, if not more so. Why?).

II - (Continued)

#### 4. Political

*Millions of younger people are at the edge of a realisation that all is not as it seems and are frustrated by the power generation. MR Pharm S 5/12/96.*

*UFOC must think carefully how to introduce information to the public whilst not panicking everyone in the process. CN 9/11/96.*

*I am 25 ... time to push for the public's Right to Know. MS 3/3/97.*

*Aliens of an advanced technology have made Governments say 'if you cannot win join them'. TT 6/1/96.*

*The more questions that are asked in Parliament, the better it will be for UFO-research. Dr. Colin Ridyard, PhD, MRSC, C.Chem, 30/12/96.*

*I'm like millions of people worldwide who only want to know the truth. MA 12/2/97.*

*Concerned that countries have acquired alien technology ... ending in One World Government Rule. JB 3/7/97.*

*Concerned at the lack of **apparent** concern by UK authorities. Engineer 20/5/97.*

*I share your grave concern (about what) is potentially a lethal threat to all of us. The world requires a moral lead of enormous magnitude. DS 21/10/96.*

*Concerned that there has been a dialogue between Extra-Terrestrials and Man and it has been kept under the veil of Cosmic Top Secret for decades. The question is Why? MC 15/6/97.*

*Need to create a situation amongst the general population whereby they can cope with disturbing information hidden from them. Concerned at unforeseeable consequences if public is not prepared, especially as a large part actually **does not want to know**. NBL 7/11/97.*

#### 5. Media Influence

*There is still, largely, a negative ridicule news media both in TV/Radio and the newspapers. The scientific community on the whole has an appalling attitude towards the phenomenon, and this group holds sway over the various media channels (1/12/96) ... Concerned that truth should be known and that strongly worded letters should be sent to the Press. KM 30/3/97.*

*The media is starting to take notice. Journalists now take time to listen to witnesses and write serious pieces for serious newspapers. I have just gained a degree in journalism. JE 4/10/96.*

*Concerned about what motivates the media to treat UFO reports in such a derogatory and jokey way. ex MN Officer 20/5/97.*

*For 50 years I have watched people being laughed at, ridiculed and ignored (by the media). DS 4/3/97.*

*In particular I would like UFOC to use its influence with the Broadcast Media. MA 25/4/97.*

## **II - 5. Media Influence (Continued)**

*Non-publicity via media regarding strange deaths of all animal types associated with strange lights in the skies throughout the world is very disconcerting. But then we know who controls the media/press. I have read worrying reports of deaths of humans bearing the same characteristics as in animal mutilations. CS 2/4/97.*

*Concerned that so little video footage and reports are brought out in the open by the media. SL 7/4/97.*

*Am still shocked at the lack of understanding by the public; it seems the Little Green Men stigma is still attached to UFO phenomena. To be fully effective, you should get as much publicity as possible. I am sure many newspapers, topical TV programmes, etc., would be pleased to speak with you. It is not often a man of such a high position is willing even to acknowledge the existence of UFOs, let alone set up a group to investigate them. SR aged 16, 2/2/97.*

*Politicians and the media, together with a majority of professional and normally intelligent people are still grossly ignorant and are therefore dismissive of the subject. BA in Politics 7/5/97.*

*I spoke on the subject on our local radio and also appeared in the local press. I totally agree with all you say. The truth is being suppressed. Nobody has the power to suppress. From Scotland 4/5/97.*

*By placing UFOs within the context of the strange, surrounding it with ghosts, ESP and the like, the overall effect is to cushion the shock of contact with ETs. BR 6/5/97.*

**(Note added 2/10/97: Nexus quotes ex DIA agent "You can't trust the media network in US to present the truth. They're part of the problem because they're owned by defence contractors for a reason: \$900 billion global defence industry controls that which do them most damage. They know the media can sink them, so they own it.")**

## **6. Alien Contact and Control**

*My main concern is that we may be too ignorant to accept 'alien life' and miss advice and warnings. SCG 8/4/97 (abduction cases often carry a warning or message. PI).*

*I feel that we are already being 'used' by Aliens and am concerned that we may become entirely subject to them. I am also very worried that they could even follow us into death, that is even control us in the after-life. Retired professional lady, 8/7/97.*

*Concerned to strengthen our ability to monitor and determine alien motives. HM 16/2/97.*

*Concerned that his friend from Elsewhere tells him that: "There will be a man-made catastrophe in 1999; the minds of the masses will be affected by national leaders who themselves are controlled. Great Britain is going to be the focal point." Everyone will be controlled by the few, but "they don't even know themselves they are*

## II – 6. Alien Contact and Control (Continued)

*being controlled*". XY Apl '97. XY's contact said that they themselves have an inter-breeding programme on Earth but that "the Evil Ones had a bigger breeding programme". He sent over 60 pages of this sort of thing, including a message that "The Evil Ones had been experimenting to see if they could form any kind of human life from animals", referring to Mutilations reported world-wide. (There are now countless spiritistic-type reports like this. PI).

## 7. Abductions

*To my amazement I saw a huge triangular shaped, metallic object in the sky, then all of a sudden I felt this pain in my head, and four days later found myself back in the garden (June '97). Have been approached by some men who say they work for the American Government – they confirmed that what I have experienced is real and is a much bigger problem than most of us think. DR 21/7/97.*

*My main concern is that the intelligence behind the UFOs and their abductions pose a very real threat to national security and religion. LA, abductee 29/3/97.*

*Am convinced some UFOs are ET and seem to be hostile, e.g. abductions. AB 30/4/97.*

*Abductees are convinced they have experienced something ... but is it all a military/government backed programme ... if so, a way should be found to stop the civilian public being used as lab rats ... it might all be a defence technology, but we are guinea pigs. ER Jan/Apl '97.*

*Convinced that the UFO phenomenon, with its close involvement with abduction phenomena, is harmful and that the entities involved are dimensional rather than ET. JM May '97.*

*There are worrying events. Animal mutilation is particularly abhorrent and abductions are no less objectionable. But there are features about these cases which indicate that an attempt has been made to mitigate the trauma they cause. Since the evidence suggests that these entities come and go as they please, they can operate freely at any time. One can imagine the uproar that would ensue if people or domestic pets were snatched in front of witnesses. MA 10/1/97.*

*My main concern is that we are apparently being subjected to covert surveillance and that abduction testimonies suggest that there is an ongoing programme of genetic engineering. "AKC" 18/6/97.*

*In view of reports of abductions they seem to be a threat to mankind. Retired Police Officer 2/4/97.*

*Concerned about the increasing acceptance that 'aliens' are spiritual beings acting for our benefit. If their actions are as described by abductees this appears to be far from the case. SP 21/4/97.*

*Am especially concerned about UFO abductions, and their effects on individuals and their general implications. G. Millington 1/4/97.*

## **II - 7. Abductions (Continued)**

*My background would help in evaluating the medical aspects of the phenomenon (e.g. abduction experiences). GP 6/4/97.*

*I'm well aware that a great number of people who have had these encounters report feelings of great menace from their abductors, and have a profound feeling of great evil, and that many have continued to suffer great psychological trauma from their experiences, but I do feel there is an orthodox medical explanation for the phenomenon in terms of temporal lobe epilepsy and sleep paralysis. I am however prepared to accept that there may be an external stimulus to these events. DJS 27/7/97.*

*Government is spreading disinformation about UFOs, animal mutilations, abductions, etc. IRG 7/4/97.*

*Abductions allow the public to find out some information from aliens. Governments are aiding this process in order to obtain advanced technology without the permission of the victims. GG 14/5/97.*

*Am greatly disturbed at the increase of abductions and the possible links with genetic engineering, whatever the purpose. I wish to expose these unlawful acts. DS 4/3/97.*

## **8. Alien Liaison and Influence**

*I assume that the cover-up is because members of the public are being casually abducted against their will, coupled with UFO crashes and actual transactions with aliens. You can understand our military being in a flap over what to do. Lord Hill-Norton should seek the truth no matter how bad it is. Contactee 6/1/96.*

*We must target and analyse contactee and abductee reports to get at the truth. We must regain control of events and more importantly regain control of our destiny, which is not ours so long as we continue to allow these space aliens to come and go when they please. (Feb. '97). The human race has the right to determine its own destiny free from external control. Any ET intelligence that tries to interfere with our race without our consent must by definition be hostile. MH 14/4/97.*

## **9. Human Guinea-pigs**

*Concerned that those of us with a range of contact experience should NOT be used to further a totalitarian military agenda. JMC Apl. '97.*

*I consider that some of the alien abduction cases are actually done by humans, for whatever purpose, and the ELF system is used to encourage a hallucinatory belief that the people doing the medical prodding and probing are actually aliens. Imagine the uproar if it was proved that humans had been experimenting on other humans without their consent. Mensa type 27/1/97.*

*A Power outside of this world has taken control. There are those present on earth right now who do not have the interests of humanity at heart. They have abducted,*

## **II - 9. Human Guinea-pigs (Continued)**

*experimented on, terrorised and even killed thousands of humans and animals in our recent history in their search for a planet to colonise themselves. They are the Greys, well known to Governments. Pharys 2/12/96.*

*Concerned at threat of human testing of military/technology weaponry. MT 12/4/97.*

## **10. Mutilations, etc.**

*Over the years denials and cover-ups coupled with ridicule and disbelief from a misinformed public, have conveniently screened the disturbing issues relating to cattle mutilations, abductions, and a possible threat to global security. DS 21/5/97.*

*Very concerned about the Abduction / Mutilation aspect. IB 4/4/97.*

*I am mainly concerned about Cattle Mutilations and Human Abductions. BP 1/4/97.*

*Concerned that the pictures from Mars are being vetted ... Astronomer 16/11/97.*

*There is no doubt that there are some strange land formations on Mars ... I also refer to the face on Mars, the strange grid-like markings that look like a street system, and some of the pyramid shapes. HY 28/8/96.*

*Concerned about the Mars possibility ... am in contact with an ex Collator of "Mars Mission" in the States. We are doing parallel research which may have a bearing on the subject of Remote Viewing. MA May '97.*

## **12. Scientific**

*The fact that the main stream scientists refuse to entertain (officially that is) the evidence reminds one of the situation about 200 years ago regarding meteorites. Then scientists refused to believe the testimony of witnesses who claimed they had seen stones fall from the sky. These meteorites were even exhibited in 70 museums around the world, and still they refused to look at the evidence. Astronomer 10/4/97.*

*We should know about our advanced technical developments in liaison with aliens and other dimensional entities. It will benefit us all if we could be privy to developments in the manipulation of time, space and energy. JB 4/4/97.*

*Concerned at the absurd situation where the Official Secrets Act prevents information being known to the British public (who pay for it!) but it is all right to hand over designs and test results to America, our most aggressive commercial competitor ... Roy Jenkins once said that "the British aircraft industry was too keen on breaching frontiers of knowledge on aircraft design." With such views held by Britain's ministers, is it surprising that when confronted with UFO activity, they made no attempt to investigate it and left it to the Americans? Here indeed was technology at the very frontier of science. ex Govt. Scientist, Oct. '96.*

II - (Continued)

### 13. Religious and Spiritual

*An intelligence is at work which is not man-made. Is Satan controlling ordinary people's minds to do its work? CN 27/1/97.*

*Forces of intelligence are currently involved with humanity, some of negative intent. TT 6/1/97.*

*Too many researchers get caught up in the notion of ETs, not knowing what the Bible says about this, and not realising the spirit realm of fallen angels, demonic spirits and the "prince of the power of the air himself", the devil or Satan. I believe myself that these machines are man-made and kept hidden at places like Area 51 Pine Gap, Menwith Hill, etc., but with a satanic element involved, to confuse and to "deceive people into believing a lie" (2 Thess 2:11). AJ 30/9/96.*

*I was a contactee from the age of 8 and still have ongoing paranormal events take place around me. There is to be a totally new and fuller understanding of Christianity. GH 8/5/97.*

*There is a titanic struggle taking place on Earth and in the wider cosmos, involving ET intelligences, between Good and Evil forces. TD 19/5/97.*

*Off-world UFOs are a delusion: physical, yes – but deadly. PS 29/4/97.*

*Concerned that UFOs may be demonically influenced and that people may be encouraged to look to aliens for this planet's and our own salvation, rather than to Christ. CJ 8/4/97.*

*Many who have experienced encounters have found an inner warmth and feeling of wellbeing and peace. My conviction is that our star brothers are deeply concerned about mankind. Convert to Islam 22/1/97.*

*If the powers that be had treated the public with the respect it deserves about the phenomena, and been open and honest about it, 'Heaven's Gate' might never have come into existence. KM 5/4/97.*

*UFOs are used by the Holy Spirit to save the Earth from the ignorance of ruling people, including religions. Pacifist Spiritualist 23/4/97.*

*I suspect that the rapid degeneration of mankind and the breakdown of family life has been deliberately engineered by alien forces. Concerned at abandonment of Christian values and alien infiltration into public office. AF 3/4/97.*

*Concerned that UFOs are a threat to Christian ethics. AB 15/5/97.*

*Concerned that you are focused on the Christian aspect. The issue is of much greater scope and is now embedded in **all** religions through our confused and imperfect interaction with **them**, or their deliberate policy to confuse and control us. If you confine yourself to Christianity you may get bogged down, not helped by having so many unresolved issues in Theology. RR 7/8/97.*

## II - 13. Religious and Spiritual (Continued)

*No doubt that a spiritual battle is taking place, with two camps in conflict. They have an essentially spiritual aspect but have a physical manifestation and operate through the spiritual plane of existence. JB 26/2/97.*

*Your Memorandum puts into print my own concerns about the UFO problem, but I dare not openly support you. We are both Catholics but as a convert I am better able to reconcile my belief with the UFO phenomenon. Have long thought that once an official announcement has been made, talks would have to be given in schools and churches. The Pope should speak. Many would feel betrayed and find it difficult or impossible to regain their balance. R/C 3/12/96.*

*As you rightly indicated, there certainly does appear to be a religious/spiritual dimension, often after the event, if not before. With over 30 years experience I do have some knowledge of this vast, obscure subject! Mrs CS 12/11/96.*

*Although once concerned, I am now not at all convinced that any problem exists, nor even that such "Beings" or manifestations occur. C/E Cleric 21/6/97.*

*When 13 I instantly believed Adamski with his glamorous adventures. Doubts first arose with the AVB case and subsequent abduction stories, cattle mutilations, MIB, Marian appearances and official cover-up etc. Now believe the human race could be in peril and that the aliens need not necessarily come from outer space ... We are necessary for their existence and made use of in some way and we are now in as much peril as we ever have been. Aliens posing as space brothers, Marian apparitions etc are smoke screens ... Most religions were instigated for the purpose of supplying the aliens with energy. Retired professional lady 25/10/96.*

**(Comment:** Her final remark is in line with Christian Orthodoxy: that prayer addressed other than to the One True God gives sustenance to evil spirits).

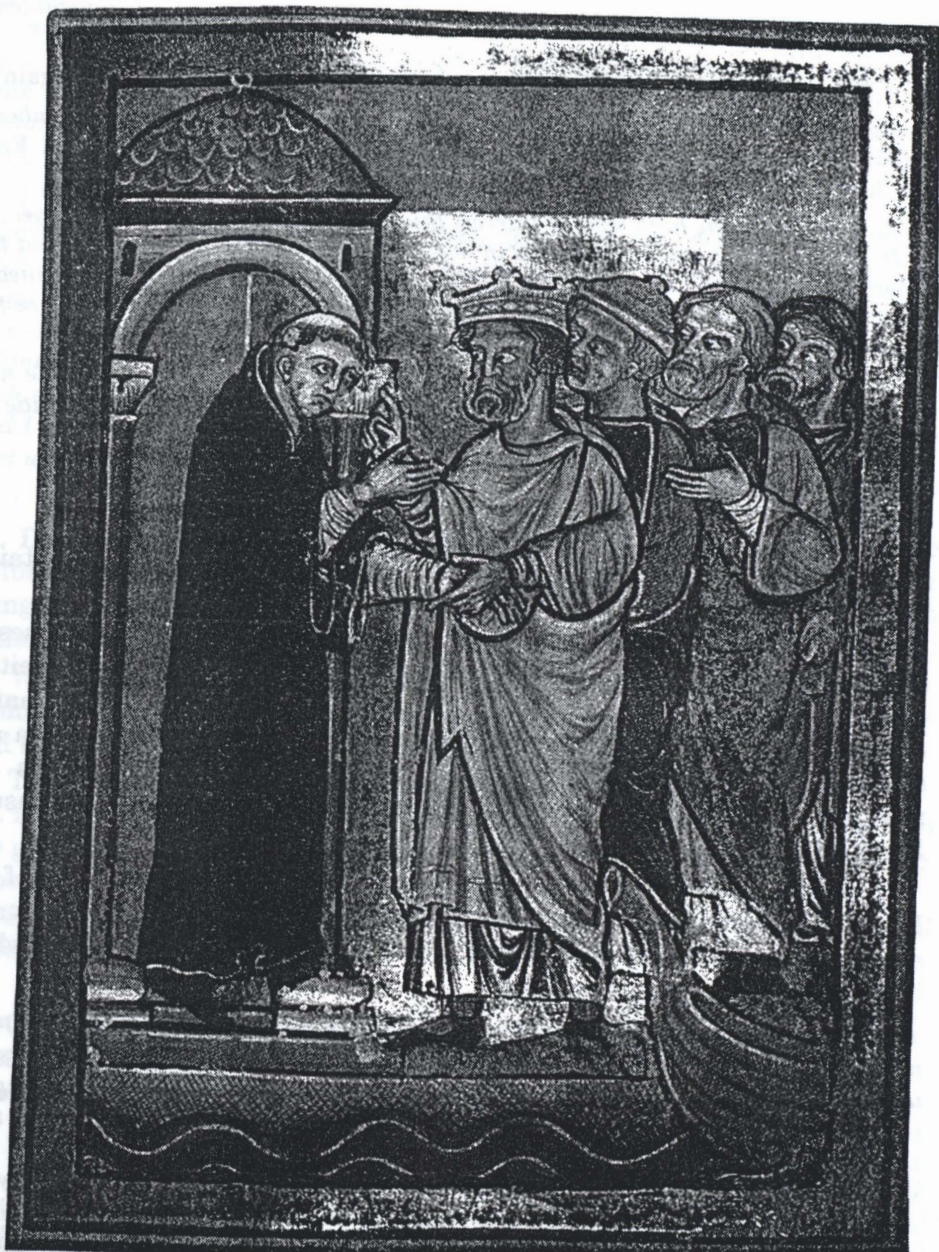

*I believe it is all part of the evil stalking the Earth as prophesied. Another retired professional lady 2/4/97.*

*Strongly agree that many UFO events have quasi-religious overtones, almost as if they are trying to undermine the faith of a large section of mankind, especially the monotheistic religions of Christianity and Judaism. It may be this is a grand deception. Is not Satan called the Grand Deceiver? Christianity and the Jewish faiths have been remarkably and curiously quiet on the UFO topic. PC 26/11/96.*

*Concerned that, following a very close encounter with a UFO, found that there is considerable evidence that these sightings are related directly to occult activity. St. A 4/3/97.*

*Although not a Christian, suggest that evidence of non-human intelligence, perhaps being common in the Universe, provides one of the clearest pointers to a conscious creative force guiding nature. AG 2/5/97.*

*These UFO stories have often puzzled me as not properly adding up, not making any real sense. BS 3/3/97 (A strong NonSense Factor is a hallmark of demonic activity).*

**Well, what exactly are you doing about it, if anything?**

**Church and state: this medieval picture of prelate with king and courtiers seems to modern eyes as ambiguous about their relationship as current political debate. It appears in Nigel Pennick's *The Celtic Saints* (Thorsons, pbk £9.99; 0-7225-3481-7), a lively and well illustrated account of some 58 saints, their lives and times, from the fourth to the 12th centuries**

## II – 13. Religious and Spiritual (Continued)

*Space vehicles and their crews have arrived into our area of the heavens and our consciousness. Many are benevolent, some are not. When all information is available it will result in radical changes in both the scientific and religious establishments.*

*Personally I cannot see a link with anything demonic. I may attract a number of cranks if they learned of the demonic and satanic association with UFOC.* From Northern Ireland June 1997.

*Concerned by the high level of interest this subject is arousing in the last year or so. It is a frequently recurring theme in our church youth group discussion and this is because it is a popular subject for discussion in the local schools. I am inclined to agree that these are usually Satanic manifestations, and the growth of interest in this is dangerous to say the least.* Dr. MB ChB 3/3/97.

*These UFO experiences deserve our attention. They probably concern the near future. May mankind choose the right path, and may God help us and guide us.*  
Czech immigrant 4/10/96. (AMEN).

## 14. Health

**(Note:** This aspect is perhaps the most important of all. It is certainly the most difficult to handle and present).

UFO literature over the years has recorded innumerable cases of individuals coming to harm and suffering all kinds of injury, which neither orthodox medicine (nor orthodox religion) has recognised for what it actually is. The worst aspect, for the victims, is the incomprehension and disbelief with which their painful experiences and confidences are rewarded, with an element of ridicule frequently included for full measure. Insults added to injuries.

True, little of relevance came our way in this regard, in view of the Initiative's modest and limited objectives. However, the following two cases are reported in brief, as they shed a little light on the general pattern which has existed for a great many years.

*I write to you in confidence ... I wish and pray to God every day that I was never made aware of life otherwise than as we know it, and as I knew it ... 17 years ago when pregnant with my first child, I began seeing and hearing all sorts of things ... thought I may be mentally ill ... then thought I was being haunted, and often wish that this was the case, because I feel this would at least respond to prayer. I keep seeing ships (UFOs) and wondered why no-one else was looking up into the sky ... I realised I was not seeing them with normal vision ... they became extremely aggressive and dangerous to me when they realised I could see them. Not all were of evil intent, but enough to make me think seriously of (hell and the devil) ... began having flashbacks of things which happened long ago ... However, I have not been*

## II - 14. Health (Continued)

*able to talk to anyone successfully of this ... Each time I try to concentrate on trying to remember, I get a terrible headache and find it impossible to think. My thinking becomes all muddled and I feel as though someone is pulling my brains from my skull. I really wish there was someone whom I could confide in ... there is so much more ... if you could guide me in any way I would be glad. I have not written to anyone about this before ... Thank you for reading this letter. It was very hard to write. SAD 5/12/96.*

*I have been made aware of your presence and would like to help (as) I have been affected by our unfriendly visitors ... I have been tormented most of my life by the alien visitors and they have been very hostile (21/5/97) ; I want something done about this, even if it is just to get even for the scares and the years of being told that they don't exist. (June). ... they have scared me mentally and physically ... As for asking God for help, I don't know if I believe in him any more. ... after the first Abduction I went to the church that I went to at the time, (he is/was a Mormon. PI) and I was excommunicated; they said that Aliens don't exist, and it was evil spirits that were controlling me. RD July '97.*

**15. Drugs.** Buried within our correspondence are some references to the influence of drugs. Undoubtedly drug users are more prone to “see and hear things” than others, and thus more likely to become experiencers. This item is therefore included in our list of concerns.

What, for example, could be the effect on a fighter pilot on drugs? He could well experience things that otherwise he might not. His perceptions and hence his judgement and reliability are put at risk, probably for ever.

Then again, take society as a whole. With its expanding drug culture, it is not fanciful but logical to believe that there may well be a connection with the growth of “UFO mania”. It can hardly be a coincidence that the country experiencing most UFO events is none other than Mexico.

Surely, the Home Office, the Ministry of Health and the Ministry of Defence should all be concerned.

**16. Corn Circles** have been mentioned by Correspondents but do not appear to be much cause for concern, although they are often linked to UFO activity, whereas

**17. Remote Viewing (RV)**, which has also been mentioned, is certainly cause for concern. It appears to be a form of shamanistic spiritism employed by American Intelligence (and Russians, perhaps UK too) to penetrate both into past and present events, and even into the minds of others. Channelling and tarot cards are sometimes used. Its effectiveness is well proven, although such methods are absolute anathema to genuine Christians.

**18. Cloning** is yet another serious concern, especially amongst the knowledgeable. It has been mentioned increasingly in UFO literature and several Correspondents have included it in their concerns, e.g. DC, supported by nine other signatories, on 13/3/97:- "Many questions are being asked about human cloning. It is not a question of whether we are cloning human beings but where and who is doing it. We may assume that German scientists given sanctuary at the end of the last war have been largely responsible ... It is my personal and very strong belief that the United States, working in underground bases ... have perfected the production of human clones ... who look perfectly normal ... but are completely without ethical or moral considerations. With their artificial intelligences, these entities will be super soldiers or super secret agents." We have no reason whatever to question the intelligence, integrity or sanity of Correspondents like these.

**19. Films.** The influence of films upon the public psyche was touched upon by various Correspondents at home and abroad. Today 26/9/97 the writer has just returned from seeing a film called *Contact* produced in memory of the late Carl Sagan, a leading UFO debunker. Ever since *Close Encounters of the Third Kind* films have been used to manipulate the public perception of UFOs et al. *Contact* is highly significant because for the first time the conflict between Science and Religion implicit in the problem is actually the story's basic theme. The result is a draw. Also, President Clinton himself (or a brilliant impersonator) is shown explaining that the US Government is in the clear, the public will be told all and "not to worry". *Contact* could not possibly have been made without the fullest co-operation of the White House, perhaps it was even instigated by the Government. It downplayed the ET notion and had a formidable cast of top brass, CIA and NASA types. The message is clear: the World can trust America to act rightly on behalf of all mankind in the days to come. Incidentally the writer was personally interested\* to note that Hitler and his gang were subtly included, putting the Nazis in a favourable light. Why?

\* Hitler was seen in a flashback to the 1936 Olympic Games. I myself was there for two days and was near enough to observe him and the others quite closely. See also "Cloning" (18) and Andrews and D.R.G. on pages 30, 31 - PI.

## Part III - UFO Concerns (Abroad)

**Introductory:** We fully realised that the problem is global, but at the start we had no wish to encourage enquiries from abroad. However, two journals in particular, *Flying Saucer Review* and *Nexus*, have international readerships, and they gave publicity to the Initiative with good results. We

### III - Introductory (Continued)

have received over 30 replies, all excellent in their way, with a high proportion of really valuable material – including books, tapes and videos!

Numbers of letters received to date 23/8/97:- Australia 9; New Zealand 1; Canada 1; USA 9; Spain 5; Sweden 1; Holland 3; France 2; Germany 1. = 32.

The overseas material is handled here differently from that of the UK. This input is not being categorised, but is simply presented as shown. Our Correspondents were invariably well-informed and erudite, and certainly concerned. Their reports were carefully drafted, often including a wealth of detailed evidence in support. There were high calibre professionals amongst them.

The world view – that is, the English-speaking and Western element – largely corresponds with that existing in Britain.

#### (a) Australia

Kenneth Burns, Victoria, is a UFO researcher who uses the pen-name Kenet O'Vrin, and who sent us his book *The Future is Now*. He believes he has “resolved the problem confronting us regarding the visitors”, and is naturally concerned that his conclusions should be made known. He examines the problem in the context of Time, quotes Einstein, and believes that “their behaviour is undoubtedly an extension of our behaviour. They are our descendants. We are the aliens”. All the evidence suggests the exact opposite, that the human race is in fact in danger of dancing to *their* tune. Covert mind control. Deception at its most dangerous. He concludes however: “what is needed is a great reduction in concern for respectability”.

Mrs. GG, South Australia (aged 71 with responsible job) quotes the well known UFO writer Jacques Vallée: “visitors could be from anywhere, any time”. She is a missing time experiencer, and this has changed her life. She saw some lights which turned into a flying object. Interestingly she is very close to her brother-in-law, an ex FAA pilot and UFO believer.

L. J. Lawrence, Yarranville, Victoria, is a Hollow Earth ufologist and an admirer of Admiral Byrd. He brought the usual evidence to our notice, including the views of the late Lord Clancarty (Brinsley Le Poer Trench), and wrote “It is my firm conviction that planets have a hollow structure capable of supporting life, and that UFOs derive out of these environments.” He is concerned that the Greys/abduction scenario is a deception perpetrated by the US Government to distract the public from secret military projects.

LFH, NSW, has a good seafaring record including naval service, and an impressive shoregoing career subsequently. In 1966 had a UFO experience and is an enthusiastic Mormon. “The UFO phenomenon is easily explained”. After decades of study and research, he concludes that the End will be on 1st January 2013, but the surviving elect will be taken off Earth the day before. UFO phenomena and

### III - (a) Australia (Continued)

alien abductions are all due to the ungodly unelect on other worlds wanting to avoid their inevitable fate. They enjoy advanced technology, but now alas have no sexual organs, hence the abduction and cross-breeding scenario. We include this case for two good reasons (i) the very real concern that exists at the influence of cults and fringe religions in the general UFO scene; and (ii) more importantly perhaps, it surely highlights the predicament of Military Authorities, especially in America, in handling the UFO problem wisely. If a proportion of serving US personnel are Mormons (which is probably the case) and if they hold views such as this, their efficiency and reliability are obviously put at risk, especially as he forecasts a lot of gloomy events from the year 2000 onwards. (For many years I have noticed a connection between the UFO phenomenon and Mormonism. But I don't know what it is. -PI).

An ex Guards Officer resident in Australia, who has acquired professional qualifications. Has maintained "more than a passing interest in UFOs for fifty years". But his main concern is political. He is aware of America's efforts to destroy the British Empire and to establish a New World Order, and UFOs are related to this scenario in some way. "Did we lose our Empire and countless thousands of our young people in 1939-45 just to allow some megalomaniacs in America to set up a World Government which can only be a dictatorship in which Britain's influence will be totally discounted?" This seemingly unusual contribution is included because quite a number of UK Correspondents hold very similar views, viz: that UFOs and the USA are in cahoots in some way, and that Britain is targeted and mortally threatened thereby. (If true, and evidence exists to suggest so, this is cause for concern indeed. -PI.)

Andrew Milani (B.Pharm, MPS), Perth, Treasurer of the Australasian Society for Psychical Research Inc. (ASPR) sent a useful letter, 28/1/97. (The President is Prof. J. Frodsham, a brilliant linguist and UFO researcher, like Dr. Edwards, Canada.) He is concerned at the amount of "rubbish and disinformation being circulated, especially in USA." Referring to Australian Intelligence, he says there are at least two sorts of UFOs; one type being undoubtedly man-made, based at Pine Gap. The others are "theirs", but who exactly are They? Australian Intelligence may well know. But AM says that it is clear that "theirs" relates definitely to Aliens.

### (b) United States

George C. Andrews, MO, is an author who had a missing time and abduction experience in 1994, *after* several years UFO research and writing. He believes in the musical, harmonious construction of the Universe, and that there are two lots of aliens, or Watchers: those of human appearance (goodies) and the reptilians (baddies). He quotes Dead Sea Scrolls in support. These reptilians have infiltrated governments. Meanwhile there is a continuing "war in heaven." Here on earth there is real danger that a Nazi-type State of Emergency is in the offing. "If enough people wake up in time to take appropriate action, Earth will not become a slave colony for the Reptilians." (Perhaps his most useful point - made by many others - is that the Nazis were well into the occult and that many of their UFO-type inventions were

### III - (b) United States (Continued)

based on technical information obtained illicitly by mediums. Hundreds of German scientists involved escaped prosecution for war crimes by being taken to America (and Russia) where they continued their work in collaboration with so-called "aliens". This has probably continued to the present day, i.e. America's military supremacy has been acquired through wicked and ungodly practices. His religious views, presumably inspired by his other-worldly friends, are however not really Christian, as he rejects the Cross and Resurrection. - PI).

Mrs. P. A. is an Englishwoman, largely domiciled in USA, who says "There is so much misinformation and disinformation being published, it's hard to know what is really going on. I am a contactee and coming to terms with my experience as a channel." (Contactees and abductees frequently become channels, i.e. mediums. This practice has always been strictly forbidden both by Judaism and the Church. - PI.).

Mrs. AB, MA, is another contactee who says she has suffered a lot because of her UFO contact. Has had "amazing post UFO experiences," often to do with triangles. A very Hindu orientated lady, believes in Mother Father God. Owns library of 10,000 metaphysical and UFO books and "thinks that she has the solution to UFOs". (Her belief in a Father Mother God co-incides with that of some Anglicans nowadays, especially women priests. - PI.).

James W. Deardoff, Research Professor emeritus, Oregon State University. "Over the years I have very much appreciated your contribution towards making the UFO reality known, such as your Foreword in Tim Good's book *Above Top Secret*. He goes on to discuss the religious problem, and is highly critical of St. Paul and much of the New Testament. Believes in "the reality and evolution of the human spirit or soul - re-incarnation if you like". (It is now almost the accepted orthodoxy in ufological circles that re-incarnation is absolute fact. But this is incompatible with traditional orthodox Christian doctrine. - PI).

D.R.G., CO, is a well-informed Correspondent who sent us over 70 A4 pages of information, much of it concerned with Operation Paperclip, which organised the transfer of Nazi scientists to America in order to pursue their work on behalf of America. (see Andrews above). On 17/4/97 wrote "Our government is built on a series of lies. There are powerful and influential people who are paid well for spreading evil and deception. They work for the government, but not in areas we can even imagine. Why, for example, are we just learning that the US brought Nazi doctors here under immunity? The operation was known as "Paperclip". These are people who would have been sentenced to death at Nuremburg, but instead roam free and retired as wealthy men. The chief concern of mine is our government's construction of weapons using UFO technology. Thousands of honest, decent people, now ask questions and don't blindly follow or trust the US government".

M.J. Kedro, MO, is a Professor of History who says "A group of straight-thinking individuals under your leadership would add a substantial perspective and may prove a formidable body in moving the investigation forward. If such a group could also 'attempt to recommend appropriate action' (as you say) that also would seem beneficial to the overall inquiry ... past attempts to employ the UN ... have proved

### III - (b) United States (*Continued*)

futile." Later he adds "a false denial syndrome actually may help the public keep some semblance of sanity under the accelerating pace of changes now occurring on all social, economic and spiritual fronts. I remain somewhat fearful of the consequences from an overt and complete interchange between ourselves and alien entities who most likely are mentally and technologically light years ahead of us." (The American public is notoriously volatile, whereas the Brits – until now – tend to take things in their stride. But they *do* expect good leadership. –PI.).

John Preston, CA, is a very knowledgeable Correspondent who has studied the subject at depth and much detail but admits to "apathy which stems from the people's unwillingness to address the issue and my inability to change that", and quotes Vallée: "The only way to fight the confusion that surrounds the problem is to realise that much of the confusion is deliberate." "My concern is that the general public, being faced with exploitive or manipulative information, find themselves at a loss ... That the phenomenon exists at all is a slap in the face to our scientific knowledge ... Perhaps you feel the Church will take a stance. I don't" (6/4/97). We cannot summarise his 12 pages of good information and reasoned discussion. He believes the abductions are definitely Lab Rat events; that UFOs have solidity and are intelligently motivated; and that UFO groups are monitored. Quotes a CIA relative: "There's no such thing as a former Agent, only live Agents and dead Agents". And "people in the street tell you that UFOs come from Outer Space. After all, that's what the media says doesn't it."

Brenda Denzler, Duke University, Graduate Program in Religion, Durham NC, desires to join the UFOC group of "sensible and respected people" (she hopes she qualifies!) with the aim of disseminating facts about the UFO phenomenon and recommending appropriate action. "I am a PhD candidate at this University. My dissertation topic is the alien abduction movement and the ways in which science and religion are used as frameworks for the understanding of what's happening viza-viz the phenomenon. At this point in my career I am adhering to a sociological approach, although some of the information I have been gathering should later prove useful for a more ontological appraisal of abductions." (30/1/97). She is circulating a survey geared solely towards abductions and plans to continue this line of research for 15 years. She is clearly very interested in the Hill-Norton Initiative.

### (c) Canada

Dr. P.M.H. Edwards, Victoria BC, is a retired Professor of Linguistics (speaks 25 languages) with degrees in several subjects. Is a long-term student of the UFO subject, has written extensively on it, and is now aged 83. In some lively correspondence we think his most valuable contribution is to underline the spiritual dangers involved, especially in the case of young children. Thus (1) "When young children so frequently claim that they have 'invisible playmates', could this indicate that aliens, invisible to adults, are making themselves visible to young children, probably so as to brainwash them gradually? In addition to these questions, I have tried, as tactfully as possible, to suggest in my articles that the

### III - (Continued)

aliens may be DEMONIC spirit-beings, that are capable of making themselves both visible and tangible, when this suits their purpose. (2) The latest ploy of the abductors, is to brainwash abductees (including, of course, young children especially) into being 'bonded' to their captors, and believing that the abductions are for their good. Some abductees are now exclaiming that "They are my God". I find this development terrifying. (3) It is my conviction that we should at least *try* to find out on what basis of 'selection' the aliens choose their abductees. This will be hard work; but it could lead us towards a better understanding of their aims. We feel that they wish to confuse us and to undermine our religious beliefs. I am particularly worried about the brainwashing of children (which I am certain is going on), because I can begin to see, now, after a fairly long life, something that could account for the worsening of people's thought-patterns and reactions."

#### (d) Holland

R.J. Bleeker, Amsterdam, writes "as a concerned Christian I am monitoring this UFO menace already for many years. I would like to ask how you organise actions to warn the public from this growing 'disease'." (That is indeed the Big Question. We hope this Report will help. - PI).

#### (e) Spain

F.I.H. from Vigo (13/3/97): "What are your plans, either to stop them or at least to check them. We must put aside our territorial differences and unite at world level for the common good, even though this will raise serious problems at the political, social and cultural levels. As you yourself know very well, even within developed countries illiteracy and indifference, even towards religion among other things, are the order of the day".

Magdalena del Amo-Freixedo, from Orense (c.Nov 96) writes: "Right now, although we are far from knowing everything about the UFO phenomenon, we know already a fundamental thing about it: it is, at least in a great part of it, highly dangerous for the human race. It would be a great thing to unite all the efforts to create an international organisation with your idea".

R.C.J., Cartagena (9/5/97): "I am 18 years old. We must be on our guard, although sure that if they had wanted to invade us they would have done so already: the fact is, in my opinion, that we do not know what their intentions are. It may be thought that they are sure to have remedies for most of the illnesses and problems affecting our planet, but what about the animal mutilations and interbreeding? There are still many obscure points." (Invasions are preceded by Infiltration and Fifth Columns. - PI).

### **III - (Continued)**

#### **(f) Germany**

V.J. Kean, Berlin, writes (17/10/96): "Reference your intention to form a group of those genuinely concerned at the implications of the widespread UFO phenomenon. My own involvement concerns ... the Flying Triangle (FT) ... Taken at their face value it appears that the primary aim of the controllers of the FT is to visit Nuclear Power facilities of the UK. For what purpose is yet unclear." (Sizewell in Suffolk has received by far the most FT attention).

#### **(g) France**

Ms C-G Nordau, Paris, writes "I am a scientific journalist and science writer and have done research in cell biology. (25/10/96) I believe that mankind is exposed to a greater and closer danger than ever before ... the aspect to be most concerned about is the abduction phenomenon, with all its genetic implications and signals. But mind control by ufonauts is another menacing peril, though I am afraid that not many years will elapse before mankind also finds the means to achieve this." (10.1.97). (American Mankind has probably done so already with "their" help. - PI).

#### **(h) Sweden**

Mr. Liden writes (7/11/96): "To look upon the enigma in terms of nuts and bolts is a total waste of time. The whole matter is of a spiritual nature. Surely we are in the end times of civilization as we know it. The problems confronting us are too much for us to solve ... The forces of darkness disguise themselves as messengers of light, righteousness and benevolence, to make us believe they are good forces sent from God and Jesus ... They take humans and animals against their will and do whatever they want with them. If they come from God they would not act like these liars do. All governments know what kind of danger threatens us and it is escalating rapidly. What are they doing about it ... Can we make people listen? It's like crying out in a big desert, like John the Baptist did."

# CONCLUSIONS

Although UFO CONCERN is a small group, with hardly any financial resources, and can do little more than refer concerns to responsible quarters, the Initiative has surely proved its worth.

It should again be emphasised, however, that there can be no consensus opinion on "UFOs" as a whole. This is clearly indicated by the variety and scope of views expressed herein. The problem is far too complex for anyone to explain "the truth" about UFOs. Nonetheless we now consider it imperative for the public to be given a good lead. We realise that those in positions of responsibility and authority prefer short briefs, but UFOs simply cannot be explained like that. It is however hoped that this Report indicates both the magnitude of the problem, and the urgent need for suitable action.

As for specific results, any impartial reading of the evidence, such as it is, leads one to the inevitable conclusion that UFOs, certainly in one important respect, are part and parcel of some global control system for manipulating human beliefs and behaviour. The question naturally arises, who or what are the controllers, and what is their purpose? If this is accepted, and it can hardly be denied, then clearly "Religion" is integral to the problem, just as the original Memorandum maintained.

It has been proposed that an Institute of Ufology with academic credentials should now be formed, in order to examine the subject both theologically and scientifically, having due regard to the social and political implications. Oxford has been suggested and the idea is already under consideration.

We conclude with these words from a Correspondent in the North of England, typical of others: "I for one will always be grateful for Lord Hill-Norton's Initiative. We now need to make a lot of intelligent well informed noises and attract positive attention from the right quarters."

# NOTICE

---

Copies of previous editions are no longer available.

This latest edition is therefore issued to meet the occasional unexpected request for another copy.

Nothing much has altered over the years, although our 1998 prediction has proved correct : that the phenomenon might well fade away if handled wisely by responsible authorities.

However, UFO encounters and abductions still occur, so that a large scale come-back remains a distinct possibility.

It is still the demonic instigators' clear intention to control the world's affairs for their own sinister, insidious, subversive antichristian purposes.
