CONTEXT FROM ORIGINAL DOCUMENT

(PUBLIC DOMAIN) - 1 May 1956 — Former USAFHQ spokesman Maj. William T. Coleman claims Air Force Manual section 190-4 was in effect as of this date and after, affecting all USAF press releases, statements to Congress and the public, and publications about UFOs. Coleman later tells NICAP that AFM 190-4 requires the Secretary of the Air Force Office of Information to delete all evidence of UFO intelligence control, which contradicts the official stance at the time that true UFOs didn't exist. He

admits that Maj. Lawrence J. Tacker's book was reviewed under the regulation, something the Air Force previously denied. Coleman states even if Tacker wished to provide UAP evidence, it would have been prohibited.
