Part 4: UFO Crash/Retrievals: Status Report III – Amassing The Evidence

"Within Fort Hood is Gray AAF, known as Robert Gray Field, where AF personnel are attached while at Fort Hood. ...a pilot had to make a forced landing on a dusty field (at Gray) and the next thing he saw was an approaching jeep with armed MPs ... and a huge section of land separating like 'giant sliding doors' with vegetation intact revealing a huge corridor inside."

- USAF Captain Stationed at Fort Hood, Central Texas

(PUBLIC DOMAIN) - June 1973 — Great Lakes Naval Base instructor RK states a UAP was shot down by the US Navy with a surface to air missile, retrieved from the ocean and taken in secret by rail to the Great Lakes Naval Base under heavy guard. RK states he guarded the object in Chicago and it was shot down in the Pacific; it was in a large quonset hut. While on guard, he was approached by an officer in a jeep who handed him a sealed envelope for the Commandant in the hut, to which he saw a metallic craft, 30 feet long and 10 feet high resting on a wooden platform.

It was light silvery blue and shimmering, tapered like a tear drop with a flange running along its topside from one end to the other and there were no windows. RK states he heard it was shot down by a missile between Hawaii and the mainland in June 1973, and was picked up on a destroyer's radar and made three close passes. RK states he heard the object was retrieved by a Glomar Explorer, shipped to Hawaii, and then sent Stateside and to Chicago.
