# Forbidden Science 4: The Spring Hill Chronicles, the Journals of Jacques Vallee 1990-1999

Jacques F. Vallée

★★★★☆ 4.38 24 ratings · 2 reviews

A FASCINATING INTELLECTUAL ODYSSEY The Spring Hill Chronicles are a record of Jacques Vallee's private study into unexplained phenomena between 1990 and the end of the millennium, during which he was travelling around the globe pursuing his professional work as a high-technology investor. This fourth volume of Forbidden Science takes the reader behind the to the board room of the National Institute of Discovery Science; to meetings with congressmen and intelligence officials; and to the closed sessions of the Rockefeller Initiative. Vallee's field study of UFO close encounters in the USSR in 1990 and the Haravilliers mystery in

Yes, I read most of what this man published, he gave some of the best interpretation on the phenomenon in a few of his writings. But oh boy, reading his diaries has been an enlightening experience.,,,

I read 3 of them, yes, they are toxic, Vallee is full xxx , he is extremely judgemental, he is wrong many times over, talks silly sh... things, and so on. The amount of contradictions, of superficial

A fascinating look at the life of one of the most intriguing academics of our age. Forbidden Science 4 is exactly what it says on the cover - a decade of Vallee's journal entries. If you're aren't familiar with Vallee's work, or the fields of computer science and UFOlogy, this might not be for you, but if you are, this is almost essential reading.

## CONTEXT FROM ORIGINAL DOCUMENT

KFG/ (p28)

(PUBLIC DOMAIN) - 1990 — Lt. Col. Ron Blackburn of Lockheed Martin Skunk Works and co-founder of the ATP Group, tells Jacques Vallee he was directly involved in the construction of TRESTLE while at Air Force Weapons Laboratory (AFWL). TRESTLE was a large EMP simulator that could create an EMP without a nuclear blast. McDonnell Douglas was awarded the contract for the construction of the TRESTLE and BDM was awarded a subcontract for electromagnetic analysis, timing and control equipment.

BDM and BDMMS (BDM Management Services Company) were also awarded contracts for operation and management of the TRESTLE. BDM produced at least ten papers on subjects like EMP hardening, EMP simulation and EMP effects on aerospace vehicles, many of which were produced under Department of Energy contracts.
