CONTEXT FROM ORIGINAL DOCUMENT

(PUBLIC DOMAIN) - 25 November 1991 — Two scientists connected with the the DIA and NSA claim in a face to face meeting that USG/USG contractors are engaged in programs that attempt to control non-human intelligences (NHI) and harness those NHI for military and intelligence purposes. The scientists claim the work has engaged in satanic ritual and human sacrifices, and that although some efforts to use NHI are for "good," they're convinced what is being tapped into is "evil."

The scientists claim the research of David Bohm has been expanded upon; that everything exists everywhere at once enfolded into an invisible timeless medium. They show the journalist photos of individuals killed during psychotronic weapons experiments, that some UAP sightings are the projections of physical 3D objects by undisclosed projects, etc.

The scientists claim NHI can work unseen to humans; create incisions and perform medical procedures that are undetected; create the illusion of being extraterrestrial beings, phantom helicopters, etc.; that the ET scenario is disinformation to protect NHI projects; the NHI established contact in psi/mind control weapons development programs; NHI are spiritual beings that can control human minds, monitor them and possess individuals; that NHI seek to deceive human minds to prevent belief in their conqueror (suggested by scientists to be of Christian origin, "Jesus Christ").
