Mystery Disc Stories Grow

TWO VANCOUVER RESIDENTS SEE 'FLYING SAUCERS' HERE

. . . William Crodie, 1655 Adanac, said today he was "mystified" at 8:00 pm (PDT) Friday (6/27) by a silvery object, without wings or tail, which he saw disappearing into the horizon as he drove east on Kingsway near Victoria (street).

"It was sinking slowly, so I couldn't tell if it was going away from me or dropping," he recalled.

(Weather stations release balloons that are usually silver-white in color, etc. etc.)

An unidentified woman reported that she had seen "vaporious discs" swoop over her house a month ago (ca. May 50). (No other data.)
