

Project Magnet CASE XX

Prince Rupert, December 3, 1952

Project Magnet

CASE XX, PRINCE RUPERT, B.C., DECEMBER 3, 1952, Weight 62%

The Chief Officer of a Canadian Government Steamship at berth in Prince Rupert at 8.00 AM, P.S.T. on December 3 observed a small bright object travelling east from a position north of the observer. It was about the same brightness as a major planet and subtended about the same angle as Jupiter at its nonrest approach to the Earth. It was in view about 6 seconds. There was no sound and no trail.
