

# **Abbotsford - White Objects United by "Ribbon"**

**Vancouver Province, August 5, 1954**

**Flying Saucer News, Summer/Autumn 1954, No. 6, p. 12.**

---

CANADA: Abbotsford, 7.20 am., 27/4/54 – Two pure white, round objects in the sky, united by a ribbon-like thing. Seen for about 3 minutes. They were travelling in a jerky manner (see page 20 – Berlin) – one would pass the other in turn and it appeared as if when one gained, the ribbon would slow it up and then the other would gain, and so on.
