

Flying Saucer Over Nanaimo

Nanaimo Airport - 1958

Canadian UFO Report. No. 13, 1972-73. pp. 10-11.

About ten years past I was driving past the airport outside of Nanaimo, late one summer afternoon and saw what I believe to be a flying saucer.

The Nanaimo newspaper reported next day that two flying saucers were seen at the airport by the man in the tower, at the same time.

Your description in today's Province is similar to what I saw.

There are many unanswered questions I would like to ask such as color, sound, the position of saucers in the air etc.
