

CIGAR-SHAPED UFO SIGHTED RECENTLY

Horseshoe Bay, B.C. - 1959

Saucers, Space & Science. No 13, Dec 1959, P. 4.

"The Chosen Ones" UFO Sightings, Sept. 1981. P 55

Bill Shoebottom, at Horseshoe Bay, 15 miles NW of Vancouver, went out at 10:30 pm – looking southwest observed what at first seemed to be an unusually bright star. He immediately realized that it was approaching. It passed very slowly to the north of his viewpoint, travelling northeast towards West Vancouver – as it passed it no longer appeared round but cigar-shaped, approximately the size of half a lead pencil held at arm's length. The outline of the craft was dark, but showed "projections of light" above and below. Duration of sighting was nearly half an hour as the craft moved very slowly.
