

Large Glowing Object Over Chetwynd

Chetwynd, B.C. - Winter, 1959/1960

True Magazine, February, 1966

Jan 9, 1966

Dear Sir,

Having read the article in January edition of True magazine by Maj. Donald E. Keyhoe, I am writing for additional information in this respect.

I am deeply interested in the subject of U.F.O. sightings. I should go on to explain that the reason for my interest stems from what I consider a personal sighting in the winter of 1959-1960.

As I was in high school at the time I reported what I saw to my principal and felt that my duty was done. I was between fourteen and fifteen years old and living in Chetwynd, British Columbia.

The sighting took place at 10 p.m. from the front porch of my parents' home.

May I pause to say that I have been raised in the bush and have found no cause to fear it or anything that lives in it by day or night.

The object of my sighting was a large glowing object (greenish), situated on a hill about 3 to 4 hundred yards away. I tried to focus my eyes on the light and to comprehend just what it was.

I stared at it for about 30 seconds to a minute. It then flew away at a great rate of speed accompanied by a whistling sound.

The whole thing lasted very briefly but has remained vivid in my mind because of the mortal fear that it struck into me at the time.

It seemed to me that this thing had been sitting there watching us as we might watch animals in a zoo.

I feel that there have been a great many U.F.O. sightings that have never been reported.

This last article in True magazine tends to make me believe that perhaps if people can forget their ridicule for the unknown, we may be at the threshold of a far greater discovery than heretofore known to science and mankind.

I believe the way to solve a mystery such as this is through the unity and complete honesty of those concerned, in this and other countries.

Sincerely

T. Stabberfield
