

Those Flying Saucers Are Back

'UFO' Sighted Here Sunday

Oliver, BC - August 6, 1961

Oliver Chronicle. Vol. 24, No. 51. August 10, 1961

An "Unidentified Flying Object" was seen in the skies over Oliver Sunday evening for a period of about 10 minutes.

Mrs. H. Bolivar said she sighted what she thinks may have been a spaceship or other unknown object travelling southwest to northeast at about 10 p.m. Sunday evening.

The object seemed like it was being maneuvered, stated Mrs. Bolivar, because it was not going in a straight line.

Larger than an ordinary star and a brilliant white, she said the object had an appearance to an evening star and was visible for about 10 minutes.
