

Not Just A Plane!

Victoria, BC - March 8, 1965

Blue Book Report No. 9337

Apr. 22, 1965

APRO,

Tucson, Ariz.

Dear Mrs. Lorenzen,

This is probably not worth publishing in the Bulletin, but I believe all available details should be registered, in case they come to reveal some underlying pattern.

On Sun. March 7th, I drove home to Victoria BC from Vancouver BC and caught the 11 p.m. ferry from Tsawwassen to Swartz Bay. I drove down to Victoria from Swartz Bay as usual, and I was going along the very last 100 yards of road before the lane which leads down to my house in the country, when all at once my lights all went out, and on again: this happened four times in quick succession, during the space of some twenty or thirty yards. Next day, I took the car in for a check of the wiring, but nothing was wrong with it. (The engine did not stall however at that time). It must have been around 1:15 a.m in the early hours of Monday morning when this happened. Now, it has been announced recently that late in Feb., a saucer rose from the field in front of the very nose of farmer Albert Wilson near Mount Newton, Victoria BC, leaving the ground radio-active; and yesterday I discovered that my 'cello teacher Herr Siegrist, 347 Richmond Ave, Victoria BC, was awoken in the early hours of Monday morning, March 8th, by a high-pitched noise zooming over his house at a terrific speed, so that it could not have been a jet. Ten days ago, by the way, we had another sighting reported by the papers from Victoria to Nanaimo. The object behaved erratically and was certainly not a plane, yet the papers 'explained' it away so foolishly that I sent them a memorandum pointing out the five inconsistencies in their article (it was

described by them as Just a plane, definitely a jet, unusually large, going unusually fast, of an unusual grey instead of normal silver, and with an unusual array of lights 'which the pilots might have forgotten to turn off' (!!), and closing with the statement that neither US nor Canadian military sources, nor commercial airlines, had any plane in the area at the time. It also hovered 2 minutes over the Islands, and made no noise. Yet they described it as Just a plane!

Yours sincerely,

P. M. H. Edwards
