

# Teen-Age Star-Watcher

Victoria, BC - October 8, 1966

Daily Colonist, Victoria BC, Canada, Oct. 9-66

---

A teen-age star-watcher said he saw a flying saucer sweep over Victoria's sky Saturday night. Michael Rogers, 14, 3373 Henderson Road, said the luminous object moved from east to west about 9:30 pm for 10 mins. "I watch the stars every night, and this definitely was a flying object, shaped like a triangle with one of its corners dented", said Michael. His sister, Sheila, 10, and brothers, Peter 12, and Steven 11, also witnessed the sighting.
